SPECIALIST IS READY FOR JOB

(Continued from page 1)

her place out of this in which to raise children."

It is not the plan for those in charge to interfere with existing agencies, but to co-operate with them. The work being done by practicing physicians and other health agencies are not to be changed. Rather these agencies are to be used and the experience the program has gained will be added to the present and full cooperation given.

What the community gets out of the program is entirely dependent upon itself, was the declaration of Dr. Brown.

The commonwealth is not building up an organization to leave here for which contributions are solicited. Every expense that will arise in the work will be met by the organization and contributions are not asked for.

There is nothing compulsory about the work, and it is solely to find out something that the child health program is established here. Those things that are discovered will be shown and made so attractive that the people will want it for the betterment of their children.

The idea that attention should be given the physical side of training the child as well as the mental side was brought out by Dr. Brown. This was well illustrated in Richland county, Ohio, and it is expected that the same thing will be shown here.

Berlin People Enthusiastic Over New Radio Exposition

BERLIN, Jan. 15.—Berlin is having a radio exposition, and on Sundays the visiting crowd has reached 40,000. Votaries to the new form of entertainment are accruing in large numbers.

Some 250 firms exhibit sets and accessories, and not a few advertise that with their instruments one can hear the musical programs broadcast in the United States. Privately the salesman will whisper, however, that one must arise early to hear the western hemisphere, since the evening programs of New York are given between 2 and 6 a. m., Berlin time.

DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.—Adv.

POLICE SAY MAN NOT MAIL ROBBER

NEW YORK, Jan. 15.—Identification today by John P. Greene, railway mail clerk, of the notorious mail thief, Gerald Chapman, as the man who daringly held him up on a Long Island train Tuesday night and in less than four minutes robbed him of a $10,000 currency shipment, was discounted by federal operatives tonight.

After looking over several hundred photographs in the New York rogues' gallery, Greene chose that of Chapman and positively declared him to have been the man who held him up.
