

SOCIETY

THE WOMEN OF THE LEGISLATURE are extended a very cordial invitation, through the president, Mrs. C. K. Spalding, to be guests on Saturday afternoon at 2:30 o'clock, for the January social meeting of the Salem Women's club at the club house on North Cottage street, north of Center.

Seymour Jones will be speaker of the afternoon taking as his subject, "Women in Politics."

No more delightful way of learning history, and history in all its accuracy, is available than through the marvelously wrought photoplay of the Yale University series, the second of which, "Jamestown," opens for showing in town today under the auspices of the American Association of University Women.

The Liberty theater will present "Jamestown" as its feature attraction today, tomorrow, and Saturday. It relates the hardships of the brave English settlers, their sufferings from famine and the Indians, and the romance of Pocahontas, the beautiful Indian Princess, and the English tobacco grower, Captain John Rolfe. Dolores Chinnell plays Pocahontas and Leslie Austin is Rolfe. Other important roles are characterized by Robert Gilliland, Sam McAllister, Leslie Stone and Harry Kenner. "Jamestown" was adapted from "Pioneers of the Old South" written by Mary Johnston.

Because the original site of Jamestown, the first permanent English settlement in America, now bears no resemblance to the Virginia colony that played so important a part in the making of America, Yale University Press, when it came to produce "Jamestown," the second Chronicle of America to be released by Pathé, had to reconstruct the settlement with its protecting stockade.

This was done on Long Island, where the producers leased 26 acres of wild woodland. There was no water, no electricity and no telephone connection on the land, but, after eight weeks of tremendous labor, all modern conveniences were installed and the settlement of Jamestown had been duplicated in every detail. Unlike other exterior sets of this sort, every building was entirely finished. They were not merely a front and one side, but complete four-sided, roofed buildings, finished inside as well as out, so that the entire picture of "Jamestown"—interiors and exteriors—was made in the replica of Jamestown. This is unusual in motion picture production. It enabled Director Edwin L. Hollywood to shoot through windows and get action outside, as well as in.

"Captain January" is the film which will be shown with "Jamestown." It, too, is an endorsed photoplay.

The committee in charge of the detail work in bringing such outstanding attractions to Salem are Mrs. A. M. Chapman, Mrs. George W. Hug, and Mrs. J. Ray Pemberton.

The West Side circle of the Jason Lee Aid society will enjoy a social meeting tomorrow afternoon at the home of Mrs. Lena Hockett, 1603 N. Commercial street, at 2:30 o'clock.

Mrs. Ed Souinger left late last week for Los Angeles, Cal. for a two months' visit.

DOCTORS SAY: DON'T NEGLECT COUGH OR COLD

Physicians warn against neglecting cough and cold and tell of the serious complications that may result. They prescribe **BALSAMEA** for all bronchial affections. **BALSAMEA** is a pure vegetable preparation made from a newly discovered plant, Dr. Beni E. Chastain, M.D., writes, "I use it exclusively for my practice and my family. It is quick, sure and safe in the most distressing cases." Toward the end of the influenza epidemic a government physician noticed that a tribe of Indians in Nevada, by the use of a plant from a native plant were immune from the ravages of influenza. He used these pills among his white patients and then in a hospital overflowing with "death" cases, views of the results swept the world and for some time it was possible to supply the demand. **BALSAMEA** has now been standardized and gives uniformly successful results in four ways: 1. It soothes the inflamed membrane and relieves irritation. 2. It increases secretion of mucous and permits easy expectoration. 3. It stimulates the nerves of the skin in lowering the body temperature and 4. It strikes at the cause, checking germ action immediately. Do not confuse it with ordinary balsam cough syrups that are only soothing syrups and do not go to the base of the trouble. Unlike other cough syrups, **BALSAMEA** is free from coal tar and other harmful narcotics. Pleasant to take and absolutely safe to give to children. Be sure you get **BALSAMEA** with the picture of the Indian on the package. Guaranteed to relieve any cough, no matter from what cause, or your money back. All druggists sell **BALSAMEA**. In Salem buy it from J. C. Perry, the druggist. Adv.

The Boston Willamette club according to a social item in the Willamette Collegian, was entertained on New Year's evening by President and Mrs. Carl Gregg Doney at their apartment in Cambridge. Miss Hester Hollingshead, regional secretary for the National League of Women Voters, has announced the anticipated organization meeting in Salem for 2:30 o'clock this afternoon in the assembly room at the city library. The work of the league will be explained at this time with all women who have the right of franchise invited to be present. Attendance, of course, does not obligate one to join the league.

Bulletins on the league give a number of reasons why women will want to join:

- Because it is the only national un-partisan organization existing solely for the political education of women.
- Because it develops the intelligence of the individual voter through forums, discussions and broadcasting information on public affairs.
- Because it gives disinterested unpartisan information on parties, candidates and measures.
- Because it offers practical programs on government and politics for use in your state, your city, your town.
- Because it works to secure law enforcement.
- Because it works to promote that international cooperation which is necessary to prevent war.
- Because it works to secure laws for efficient government and laws for public welfare in government.
- Because it provides a meeting ground for women of all parties and all groups, where they may exchange ideas, make plans, and work together for the things in which they have a common interest.
- Because it urges women to enroll in the political parties and to work through them to improve the machinery of government.
- Because it is composed of local and state leagues which are affiliated with the national league, and more can be accomplished through a great national organization than by working alone.
