### Knights of Pythias Plan Entertainment January 27

The Knights of Pythias of Salem are to give a public entertainment January 27 in the Salem high school auditorium which will be in the form of a drama, "The Lessons of Friendship." This five-act play will present the funda-

### mental principles of the Pythian order.

The famous Pythian quartette of Portland has been secured and will furnish a part of the program. Other interesting numbers are to be presented during the evening. The entertainment, which is to be given without charge of admission, will start at 8 o'clock Tuesday evening.

### BUSINESS OUTLOOK IS HELD FAVORABLE

Unusually Large Consumption of Goods Remains Prominent Feature

NEW YORK, Jan. 23.—Dun's tomorrow will say:

"With strong basic conditions maintained, the general business outlook continues favorable. Despite increased irregularity in both demand and prices, there still are more points of gain than of loss and the unusually large consumption of goods remains a prominent feature.

"Successive weekly returns of freight traffic show conclusively that distribution of merchandise is exceptionally heavy, car loadings being without precedent for this season and most of the other statistical measures also make satisfactory comparisons.

"Notwithstanding a sharp decrease in stock quotations, bank clearings at New York City this week are 35.1 per cent in excess of those of a year ago while outside centers report an increase of 16.8 per cent. Improvement in mercantile collections is a phase commented upon in dispatches from various cities with a liquidation of old indebtedness in the west and northwest reflecting the strengthened financial position of the grain farmers."

Week bank clearings: \$9,585,319,000.

### FORESTRY BOARD SEEKS NEW CODE

(Continued from page 1)

terests, through deferred taxation was taken up for consideration but due to the lateness of the hour, no action was taken.

Another bill considered would permit the state to accept through gift or donation, any land within the state that was suitable for the growing of forests. This brought up the consideration as to what disposition to make of the mineral rights and also matters of taxation. The state forester was instructed to draw up such a bill, which if approved, will be presented for the consideration of the joint forestry and conservation committee.

One change in the law, that is aimed as an aid to reforestation, involves slash disposal. Under the proposed change the slash would be disposed of in such a manner as the state forester may designate. In the coast district broadcast burning is necessary as the debris is so heavy that any other method would be unadvisable. However, in the eastern and southern part of the state other methods, such as piling and burning or some other method would insure the retaining of all young growth on the ground.

The matter of taxation of cut-over lands and the bill designed to allow the state to accept gifts of lands will be considered.

### Father and Son Appear In Sacred Concert Sunday

A very unusual service will be conducted at the First Methodist church on Sunday night. Assisted by the choir under the leadership of Professor Hobson, Dr. E. C. Hickman, president of Kimball School of Theology, and his father, Reverend G. W. Hickman of Aberdeen, South Dakota, will give a concert of sacred songs.

The father, although having passed the three-score and ten mark, possesses a lyric tenor voice of unusual richness and power. The strong full baritone of the son blends into perfect harmony with the sweet clear tenor of the father. Father and son have sung together for many years to the delight of multitudes. Their singing aroused great enthusiasm at the world centenary celebration at Columbus, Ohio, where they appeared repeatedly before audiences of 15 to 20,000 people.

A unique feature of the Sunday evening program will be the dramatic presentation of the famous Sankey hymn, "The Ninety and Nine," by the senior Hickman. A beautiful hymn written by the father will be sung by father and son. Dr. D. W. Riddle of Kimball will accompany father and son on the grand piano.

### Vessel to Make Port On Own Power

Within a few weeks the steamer "Relief" will be in service again, declared shipping men yesterday, in commenting upon the vessel that was sent to the bottom of the Willamette river during the recent freeze.

Tests have been made of the boilers and engines of the steamer, which was successfully raised from her grave, patched and conditioned to make her own way down the river. Wood was loaded on the decks after the heavy coating of river silt had been scraped from her deckings by a crew of men, who have been busy during the past few days.

The hole that was made in the side of the "Relief" is about a foot above the water, if the steamer has no cargo. The canvas patch which was put over the hole is above water.

Below this hole the hull does not seem to be damaged, and the river men state that part of the vessel is in good shape. However, the hull above the patch is crushed and timbers have been broken. The cost of repairs, however, will not exceed a cost of a few thousand dollars.

Bids are to be called for to recondition the damaged vessel when she arrives at Portland.

### Mayor Giesy Attends Meet Of City Executives Today

Mayor J. B. Giesy will attend a conference in Portland today of Oregon city executives, which is to consider matters relative to traffic regulations. The convention was called by Ralph Barbour, city commissioner of Portland, who is co-operating with other Oregon cities in an attempt to safeguard the interests of smaller cities.

In commenting upon the alleged attempt of some interests to put through a bill during the present legislative meet to secure control of traffic through small cities, Mayor Giesy stated that the bill would probably be declared unconstitutional, even if it was passed by the legislative session.

### WHEAT QUOTATIONS SHOW SHARP RISE

Grain Price Runs Wildly, But Shows Reaction Due to Heavy Selling

CHICAGO, Jan. 23.—Wheat ran up wildly here today as high as \$1.96 a bushel. May delivery, but heavy selling to realize profits led to a sharp reaction at the last. One of the reasons given for the fresh advance was a report that values of wheat in Argentina were jumping quicker than the market in Chicago regardless of the fact that wheat here and rye even more so had established a spectacular new top record again today. The wheat market here closed unsettled at 3-4 cents net lower to 1 cent advance.

May \$1.94 3-b to \$1.94 and July \$1.69 3-4 to \$1.70, with corn 2 1-4 to 3 1-4 down, oats 3-8 to 1 1-8 cents off and provisions varying from 12 cents decline to an equal upturn.

Emphasizing the news from Argentina about rapidly rising prices for southern hemisphere wheat was a report that labor troubles were spreading in Australia, one of the chief other countries competing with the United States. Unusual strength in the rye

market here tended greatly to stimulate the wheat advance. Advices were at hand telling of immense Russian buying of rye flour at Bremen in Germany. At one time, excited traders here who were short of rye to fill outstanding contracts forced prices up 7 1-4 cents a bushel for the May delivery. Closing prices for rye were 4 3-8 to 5 1-4 cents above yesterday's finish. Difficulty in selling low grade corn had a depressing effect on the corn market and also on oats. Provisions, in line with the hog market, held about steady.
