ed, bringing a laugh. Mr. Herwig admitted that he and Mr. Cleaver had been active in Deschutes county in the candidacy of a sheriff and district attorney who were running against the incumbents, who were republicans.

"Don't you honestly believe that Wineberg has 'kipped' you, Mr. Herwig?" queried Representative Longenecker.

"I do not," was the reply. "Everyone apparently was satisfied with the activities of Mr. Wineberg, that is, Mr. Herwig, the governor and the foes of prohibition in Portland who had advanced the \$5000—everyone, that is, but the investigating committee."

**No Convictions Secured**  
Mr. Herwig said that no one in the world could complete the investigations begun by Wineberg and that the matter was "riding" at present. A huge stack of affidavits is the sole reminder, if the approved expense accounts are excluded, of the easterner's investigations in Oregon. Mr. Herwig said with an additional \$5000 he could promise at least one arrest.

Testimony was given by an ex-operative named Barker, working under the direction of Linville, federal prohibition director, that Wineberg had attempted to bribe him with \$100 and that this is still in the hands of the United States attorney.

Frank B. Mitchell, legal adviser for the federal prohibition department for Oregon, told the committee that there had been no cooperation between the state and federal authorities and that the state officers did not know their business. They were always making mistakes, he said. Cleaver never sought the cooperation of the federal authorities though these worked in harmony with the police and sheriffs and obtained favorable results.

Announcement was made that a public hearing would be held in the senate chambers next Monday night, at which anyone in possession of facts, with emphasis upon positive knowledge and not hearsay, would be given an opportunity to appear either for or against Mr. Cleaver.

**Poles Accept Mysterious Statue of Unknown Soldier**  
WARSAW, Jan. 24.—Poland recently achieved a monument to "The Unknown Soldier" in such a mysterious manner that neither the press nor the public knows whence it came. One morning at dawn a motor lorry appeared in Saxonian Square and unloaded at the base of the Poniatowski statue a great sandstone block bearing the inscription "To the Unknown Soldier."

The public immediately began laying wreaths of flowers before the inscribed stone and it has become an accepted monument in spite of the ignorance as to the origin of the gift.

The latest will-power test is to snoop or let it alone.

## OVER TWO TONS OF DIVIDEND CHECKS

### Took 100 Mail Bags to Hold Checks Going to Stockholders of Telephone

The American Telephone and Telegraph company paid its 141st dividend on January 15, 1925, to the stockholders recorded on the books of the company on December 20, 1924. This dividend, amounting to \$2.25 per share, was paid to over 345,000 stockholders.

The work involved in the preparation of these thousands of dividend checks may be visualized from the following facts:

Over two tons of paper are used for the checks. Even though many labor saving machines are employed, the clerical labor of preparing the checks is equivalent to the entire time of five supervisors and 55 clerks for one month.

The signing of the checks, 12 at a time, requires the time of one person an entire week.

If one bank undertook to cash all the checks over its counters during regular banking hours it would require six tellers more than six months to complete the job, allowing each teller one minute for every check.

The checks are delivered to the postoffice by motor truck in approximately 100 mail bags. At the request of the postmaster at New York, deliveries are spread over three days in advance of the dividend mailing date to give the postal clerks time to sort this large bulk of mail for prompt dispatch on the afternoon of Jan. 14.

The checks, averaging about \$58 each, go to the homes of stockholders residing in every section of the United States. These stockholders comprise one of the most interesting and unusual groups of investors in the world. Coming from all walks of life, they constitute a representative cross section of American citizenship. Then, too, nearly every foreign country of note is represented. Gathered together in one place with their families they would equal the present population of a city even larger than Detroit.
