35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair, "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair appears after this delightful, refreshing dressing.—Adv.

man, was away from home a great share of the time both day and night, but when he was at home he was not an agreeable person.

It is declared that during one of his visits home, the husband used obscene language and accused her of infidelity; on another occasion he struck her with a stove poker, which caused her to call the police. Following this incident she refused to live with him. She related of another incident in which the police were called to insure marital peace.

Following these incidents the father Freibert became ill and she nursed him carefully and tenderly until he died of diseases incident to old age. She alleges that her husband told a story around the neighborhood that a stove poker was used to hasten the departure of the elderly man from this earth.

Rose Freibert also declares that Frank Freibert is conspiring to defraud her of a share of the property, which they had purchased, and wants a third of it.

Use of Processes by Salem Man Saves Money and Time

The excessive vibration of a 22-passenger Pierce-Arrow bus operated by I. C. Brown, of the Terminal stage lines, caused the steel hub of a front wheel to crystallize and break during one of the recent trips into the city—from Eugene. Brown was unable to secure an extra wheel and it was only through the work of Charles Duncan of the Square Deal Welding company that he was enabled to continue his return trip to Eugene.

By the electric welding process Duncan was able to build up the crystallized metal of the wheel and return it to Brown within three hours after the bus had been brought into the city. As a result of the work, Brown saved the price for a new \$46 wheel, which enabled him to secure added service from the costly equipment necessary for the safe operation of the passenger bus.

THE LIGHT ON THE CAPITOL DOME

O beautiful light on the Capitol dome,
As bright as the stars in the sky—
A beacon for all within range of thy call
When the moon and the stars are all shy.

How lovely you shine in the darkness of night,
Unfailing, impartial and free,
The sad and the dreary, the tired and weary
Are wistfully watching for thee.

My window e'er opens a welcome to thee
When the light of the sun has gone down,
When the hours passing by leave no sleep in my eye,
And trouble my spirit would drown.

Wherever I go or whatever I do
In the day or the dead of night,
Like Bethlehem's star I can see thee afar,
O beautiful, bright shining light.

When sorrow weighs heavy and my pillow seems hard
And solace nowhere I can find,
I watch thee so bright, through the tiresome night,
And, Oh, how you comfort my mind!

Here's thanks to the man who discovered thy power,
Who communed with the spirit of life
And drew from that mine, through the spirit divine,
The power of thy wonderful light.

You were found at the end of a very long trail
Where the candle, the torch and the lamp
Were man's only light, through the darkness of night,
In palace or hovel or camp.

No wonder we're proud of your glittering flame
And worship each night at your shrine,
For the clouds in the skies never darken your eyes,
But only add zest to your shine.

O, tell me, dear light, won't you tell me right now
How long will you shine from your dome
Or what say the sages, how many long ages
Will you brighten each neighboring home?

Now, when I am done with this beautiful world
And the angels shall welcome me home,
Though in sumptuous bliss I fear I shall miss
That light on the Capitol dome.

—W. T. RIGDON.

SALEM IS TO HAVE LOW EXPRESS RATES

In a General Equalization the West Gets an Improved Deal, East Pays More

R. M. Einar, commercial agent of the American Railway Express company with headquarters in Seattle, is in Salem giving the business and prospects for his company here a once-over.

In company with W. T. Hickey, agent for the company in Salem, he visited a number of customers yesterday.

And their principal mission was to spread the good news of a reduction in express rates.

This reduction is to take place on March 1st, and it reduces class rates 10 to 25 per cent. That is, it knocks that much off of the express charges on first and second class articles.

The interstate commerce commission recently ordered a general equalization of express rates, and in working this out it has been found that the west has been paying too much proportionately, and the east has been paying too little—hence the March 1 reduction.

Here are some samples: First class between Salem and San Francisco is now \$4.78 a hundred pounds; it will be \$4.10 after March 1. Los Angeles is \$6.30;

will be \$5.05. St. Louis is \$13.03, will be \$10.10. Chicago is \$13.03, will be \$9.85. First class means merchandise, etc.

There is a proportionate reduction scheduled for second class stuff. This includes the rate on fruits of various kinds and nuts, and it will make the charge for sending our fruits and nuts by express to points throughout the country much less.

There is to be a reduction clear through the whole list, affecting every part of the United States; making it cheaper to send our stuff by express to every part of the whole country. Take Detroit as a fair sample. The rate is to be reduced from \$10.03 on second class stuff to \$7.79 a 100 pounds.

It goes without saying that the people of Salem will be very glad to learn of this reduction in express rates. It will affect the express shipments of our merchants bringing goods from other cities.
