

PLANS MADE FOR STATE TOURNEY

Annual Basketball Championship Classic This Year to Be Biggest Ever

Preparations are underway to make the state basketball tournament to be staged here under the direction of the Willamette university March 12, 13 and 14 the biggest and best tournament ever held in Oregon. Fans are not to be disappointed either for the new developments on the basketball situation indicate there is to be much doing.

It may be possible that the Portland teams can accept challenges and give challenges to the Portland teams. It merely means that the conference teams have the courtesy of conducting contests between the Portland schools and themselves.

Portland is not a member of the conference and whether the two leagues will arrange games will be seen later.

Previous to this ruling there was a ban against the Portland schools and state championship teams were not permitted to contest with the Portland champions.

The situation is not changed, however, but the new ruling gives the two leagues a chance to get together.

The tournament is to be conducted here under the auspices of the Willamette university, the same as in the past. There has been no change of the schedule or of the rules. The districts are the same, with a new method of selecting the representative from the district.

A committee of three will function in each district to select or determine the representative to be sent to Salem.

Invention of the administration to make the post office department pay a profit on its services to the public.

"Reports of the department on the business handled during the seven months of the current fiscal year which have elapsed since July 1 last," he argued, "indicate that there will be for this year a net increase in revenues of more than \$25,000,000 over the previous year's business.

As the department had a deficit of less than \$15,000,000 last year these reports indicate a profit on this year's operations of more than \$20,000,000.

questioning by committeemen, which developed a rather wide divergence of views with respect to the need for legislation. Some members said afterwards that it was doubtful that even the committee could agree on a farm-aid program, and members of the farm bloc expressed doubt that, with the jam already facing the senate, it would be possible to get through any measure that would afford substantial relief.

There is a wide difference of opinion among the friends of the farmers as to just what shape legislation should take. Besides, the proposals from the commission, several other measures, notably the Norris-Sinclair and the modified McNary-Haugen bills, have their staunch supporters in the senate.

GIBBONS TO MEET MADDEN AND FIRPO DURING SUMMER

ST. PAUL, Minn., Feb. 10.—Tommy Gibbons of St. Paul, contender for Jack Dempsey's heavyweight boxing crown, has two important matches in prospect for the coming summer, he announced here today on his return from New York where he discussed with Tex Rickard, promoter, the possibility of meeting Dempsey for the title.

Gibbons said he had agreed to fight Bartley Madden in New York early in May and Luis Angel Firpo in Detroit in May or early June. The Firpo Madden matches are a certainty if Dempsey does not agree to defend his title against Gibbons in June, the St. Paul heavyweight said. Even if signed with Dempsey, Gibbons said, he will take the matches, provided Rickard does not object.

Further tests with the amplification device attached to the electric light wire leading down to Collins late today gave what the physicians here asserted was absolute proof that Collins is still alive.

A series of raspy noises, interrupted by regularly timed, faint rattle in the head phones, indicating, the physicians declared that Collins was coughing or moving about.

The "breathing" sounds in the receivers, at the even rate of 20 times a minute after the "coughing" sounds had ceased, dropped to 11 or 12 times a minute, indicating physicians said, that Collins had fallen asleep.

ROUTINE MATTERS OCCUPY ATTENTION

General discussion of affairs was taken up at the regular meeting of the school board last night. With the exception of routine matters, nothing extraordinary was performed. Charles Lisle, local writer and literary man who has made a unique collection of firearms is to purchase some of the ancient rifles that are in the possession of the school board, according to the reports made last night. Rifles that were used during the Civil war and later as drill weapons are in storage here and are slowly being distributed. Mr. Lisle is making a collection for a display to be placed in the state capitol, and the purchases from the school board are to be used in his connection.

VALE APPROPRIATION READ IN SENATE; ACTION WANTED

A measure to appropriate \$25,000 for the flood-stricken Vale district was read in the senate yesterday, and under suspension of the rules was passed on a second time and then referred to the ways and means committee for a report.

The bill was introduced by Senator Davis, representing the Vale district. The whole section was inundated recently by the bursting of an irrigation dam, and most of the crops were destroyed, whole herds of livestock lost, and many farm buildings and houses wrecked. Due to contaminated water supply, drastic steps are being taken to prevent a spread of any epidemic.
