

RELIEF BILL IS PASSED IN SENATE

Many Measures Are Favored During Session Yesterday; Veto Bill Up

The outstanding feature of the morning session of the senate was the passage of a \$25,000 relief bill for the town of Vale. This was presented by Chairman Tooez of the ways and means committee in a short, stirring address and it was unanimously passed.

Also the veto of the governor on the Bend water supply bill was put on general order at the request of Senator Upton but was not debated. It will probably come up today.

Another matter of importance was the killing of the bill to increase the salaries of the supreme judges. This was reported adversely by the ways and means committee but after considerable discussion the report was tabled which leaves the matter still before the senate.

The following minor bills passed the senate during the morning:

S. B. 161, Dennis—Increasing salary of Wallowa county treasurer.

S. B. 166—Allowing \$300 each to county commissioners and county school superintendent of Clackamas county for traveling expenses.

S. B. 114, Magidry—Relating to rehearings under workman's compensation act.

S. B. 96, Clark (by request)—To co-ordinate operations of barber shops and beauty shops and increasing apprentice fee from \$1 to \$10.

S. B. 182, Moser—Extending right of eminent domain to dock commission.

S. B. 98, Ritner—Providing that the secretary of state may send registration lists to postmasters who may eliminate names of persons no longer voters.

S. B. 134, Butler—Defining boundary of Wasco county.

S. B. 185, Senator Butler and Representative Hazlet—Defining boundary of Hood River county.

S. B. 131, Ritner—Repealing tax on distillate.

S. B. 177, Hall—Requiring motor vehicles approaching primary highways slow down to five miles an hour.

S. B. 170, Miller—Regulating use of motor club emblems on automobiles.

S. B. 129, Ritner—Exempting distillate from 1923 motor vehicle fuel tax.

S. B. 187, Clark—Providing that school districts may withdraw by a majority vote of the qualified electors when such districts lie within a union high school district, if withdrawing district is in another county.

S. B. 176, Davis—Authorizing county court to levy taxes on abandoned school districts.

S. B. 78, Staples—Providing for disposal of bodies of dead animals.

S. B. 130, Corbett (by request)—Prohibiting disorderly conduct, profane and obscene language upon or near a public highway or in any place of public resort.

Reopening of Phez Case Likely, Is Opinion Here

Representatives of the Salem fruit growers and the loganberry growers think they have the best

of the deal in the legal battle, since the supreme court reversed the Phez Company decision of the lower court recently. Previous to this time and under the terms of the supreme court decision, the Salem Fruit Union was virtually a thing of the past. The largest asset, the building at Trade and High, held in litigation, and a stock of \$123,000 facing them, if judgment could be enforced, are the outstanding factors.

With the new decision the growers think they can pull through, and thereby are enabled to keep their building, which would have gone to the Northwest Fruit company, successor to the Phez and Loja companies.

If the original decision would have stood the growers would not have been able to meet the conditions imposed, and all that the growers could not have paid would be forthcoming from the Salem Fruit Union, hence, all assets would have been wiped away.

It is considered likely that a rehearing of the case will be asked by the Phez company representatives, and efforts made to have all the litigations resumed.

BETTER HEADLIGHT MEASURES FAIL

Illuminating Expert Delivers Interesting Lecture Before Rotary Club

Frank A. Pim, illuminating engineer, who is in the Pacific northwest in the interests of legislation and education to better automobile illumination, addressed the Rotary club at their regular meeting yesterday at the Marion hotel.

Mr. Pim explained the fundamental principles that underlie automobile headlights, and the dangers that have resulted with the increased candlepower lights. The glare, he stated, was a new development in the headlight, and could not be measured by the human eye. Nevertheless it is a serious menace and the cause of over 14,000 accidents during the past year in the United States. Of this number a total of over 6,000 deaths resulted from the injuries received by individuals.

The way to increase the efficiency of the light and to give protection to the traffic lies in the manner of refracting the light beams, he said.

A media in the form of properly designed lenses can be used to throw light in a lateral position, and to distort it from the general parabolic form, which the beam usually assumes.

Don Langenberg led the Rotarians in the songfest.

SPEED TRAPS FROWNED UPON

(Continued from page 1)

\$250 a month and all state traffic officers placed on a sliding salary scale, ranging from \$125 a month for the first year to a maximum of \$175 a month. At present the officers receive \$150. The measure also provides that the secretary of state may employ as many as 25 traffic officers, there being seven under his direction at present and an additional seven under the highway commission. These will all be grouped under one head.

Regulation of spotlights, to be placed only on the left side of the vehicle and not less than two feet from the roadway and casting a light 25 feet ahead of the vehicle on a line that must not extend further to the left than the center of vehicle, was also passed. The measure prescribes the candlepower and focus of the lights and includes the regulation of headlights. This measure is HB. No. 54.

KINDERGARTEN BILL PASSED

(Continued from page 1)

ended, it was held. Under the new law proof that a dog killed a sheep must be given by one other party besides the claimant for damages.

Senate bills passed yesterday included SB No. 112, raising the salary of the Josephine county school superintendent from \$1200 to \$1600; and SB No. 11, requiring financial officers of various counties and districts to report bonded indebtedness to the state treasurer.

Special Purchase! 1759 Pieces of

Stamped Goods

At One-Half, and Less, of Former Prices

All Clean, Fresh Merchandise--No Seconds. Large Variety from Which to Choose. Not Many of a Pattern

Sale Begins Thursday at 9 a. m.—Lasts Three Days!

Twice a year ROYAL SOCIETY MANUFACTURERS close out their discontinued patterns in stamped goods at a big sacrifice! Miller's were fortunate in securing this fine large assortment for this vicinity and the loss suffered by Royal Society will be passed on to the customer.

The assortment consists of: Stamped Bed Spreads, Doilies, Scarfs, Center Pieces, Dresses, Rompers, Towels, Pillow Cases, Luncheon Sets, Buffet Sets, Card Table Covers, Mah Jong Covers, Napkins, Linen Table Centers, Pillow Tops, Gowns, Combinations, etc.

We Quote a Few Comparative Prices
