LEGISLATOR GIVES STATE EXPERIENCE

Herbert Gordon, of Portland Comments Upon Service With Oregon Body

Herbert Gordon, representative from Multnomah county and chairman of the ways and means committee, talked upon his experiences with legislators during the noon luncheon of the Salem Chamber of Commerce yesterday.

"Character is soon determined in the legislature," declared Mr. Gordon yesterday. "Double-crossing is soon discovered, sharp practices soon brought to light, and the man who uses such tactics soon has but little influence."

"A man must be treated on the square, his attitude must be shown, a fairness of criticism, which must be mingled with enough horse sense will allow a man to secure the passage of some of his own bills."

"There is a tendency shown today to secure legislation by organized movements. Elements in

society are banded together to secure certain acts enacted, and they present a claim before the legislators that colors the situation. The top munny who are not before the ways and means committee are forgotten, and the organizations endeavor to show that the legislation is absolutely necessary, or else the end of time will come. This is not true," declared Mr. Gordon. "The tendency to organize secures legislation that is not representative for all."

The speaker complimented Marion county on the economical stand which she has taken during the past, but added that a push was necessary once in a while. He gave the road bond issue as an example. The highways that have been developed are a blessing to the state and are to be a source of wealth that will be gathered in the next few years. The thousands of tourists that are coming to this state brings wealth that cannot be estimated offhand," was the comment of the speaker.

Mr. Gordon scored the passage of the farmer relief bill by the legislators recently. He said it was establishing a precedent that would react strongly during the future. The act was necessary because the bankers of Portland were not able to secure funds to finance the farmers of eastern Oregon. He also scored the educational tendencies of the present day. He stated that the taxpayers should run the schools and that the teachers should not run the taxpayers.

The children of today are no better educated than the children of 25 years ago, was the claim of the speaker.

Representatives Lloyd Reynolds, Mark McCallister and F. W. Sottemler of Woodburn gave some of their impressions of the present legislators.

Anthony Ewaver entertained with a reading, "When Jim Gets to It."

Each member of the program received hearty applause, while some were given encores. "Kidding a Cop," a skit, and the singing of "Oh, for a Pal Just Like You," by Clark and Brantly, were especially worthy of mention, as was also the scene in the optium which was their closing number.

THE AMERICAN WAR MOTHERS PRAISED

This Organization Is Active Wherever Service Men and Women Are in Need

We hear of the activity of the American War Mothers in Oregon in such work as raising funds for soldier monuments, endowment funds for hospital beds, proposing a memory lane of trees along the highway, and in other ways remembering the service men and women.

But there are many activities in this field in which they are engaged throughout the country.

J. Robertson Brooks of Salem, son of County Recorder Mildred R. Brooks of Salem, is now editor of the Fort Lyon Scout, the newspaper published twice monthly at U. S. Veterans' Hospital No. 80, Fort Lyon, Colorado. The following is the leading editorial article in the current issue of that paper:

War Mothers The War Mothers of Pueblo could not have chosen a better gift for Fort Lyon than the beautiful Edison phonograph which was presented at the Red Cross house last week.

At their request the first piece played was the Star Spangled Banner with the audience standing at attention. As we looked at this machine, heard the music and read the card attached we could see these mothers—many of them, perhaps, Gold Star mothers whose dearest possession, their son, lies in Flanders field; many of them gray with years of worry, their eyes dimmed, their shoulders stooped. Yet through all this suffering and sacrifice they sacrifice still more so that we who are here may have a little more enjoyment.

War Mothers of Pueblo, we of Port Lyon thank you. The Mothers of Men The bravest battle that ever was fought; Shall I tell you where and when? On the maps of the world you will find it not: It was fought by the mothers of men.

Nay, not with cannon or battle shot, With sword or nobler pen; Nay, not with eloquent word or thought, From mouths of wonderful men.

But deep in a walled-up woman's heart, Of woman that would not yield, But bravely, silently bore her part— Lo! there is that battlefield.

No marshaling troops, no bivouac song, No banner to gleam and wave, And oh! these battles their last so long— From babyhood to the grave.

Yet faithful still as a bridge of stars, She fights in her walled-up town— Fights on and on in the endless wars, Then silent, unseen— goes down.

Oh, spotless woman in a world of shame; With splendid and silent scorn, Go back to God as white as you came— The kindest warrior born.

—JOAQUIN MILLER.

AUMSVILLE HIGH WITH TAX LEVY

Low Valuation on City Property Is Held Responsible for Position

Although the tax levy of Salem is 50.5, only five other cities in the counties of Marion and Polk have lower millage rates, according to the bulletin of the Salem Chamber of Commerce. Aumsville has the highest with a rate of 83.6 and therefore takes its precedent over all other cities in the county. The low valuation of property at Aumsville, sent the levy high when a pavement was laid through the city.

The rates for the cities and towns of the counties are: Dallas, 67; West Salem, 75.1; Falls City, 69.5; Monmouth, 66.8; Independence, 63.5; Salem, 50.5; Silverton, 64.5; Woodburn, 55.6; Stayton, 52.7; Jefferson, 56.4; Mt. Angel, 41.3; Turner, 54.2; Donald, 45.8; Aumsville, 83.6; Gervais, 41.2; Aurora, 42.3; St. Paul, 35.2; and Hubbard, 55.2.

In Belgium the people want a bread probe. As usual, in bread probes, we say the staff of life is crooked.

PERMANENT BRIDGE PROGRAM OUTLINED

Special Committee to Give Pencil Sketch and Estimate of Bridge Program

A referendum measure prepared by Mayor J. B. Giesy on the Salem bridge program will be presented to the people for action, at the same time that the state matters are to be acted upon, is the result of the special committee, appointed for the occasion.

Whether the permanent bridge program will be endorsed at that time remains to be seen. Either a bond issue of approximately \$200,000, or a millage tax of 1 or 1 1/2 mills will be the proposition put up by the city council for referendum action.

The working committee which functioned yesterday was composed of Fred Erixon, D. B. Herrick, W. H. Dancy, H. M. Rogers, city engineer and Walter Lowe, street commissioner. They followed the

course chosen by the committee of aldermen and citizens assembled. A pencil program of the construction work and an estimate of the total expenditure is to be secured by this committee. They will determine the work that will be necessary to replace the fifty wooden bridges that are in the city.

It is stated that a bond issue would necessitate the replacement of the wooden structures by concrete ones at once, while the millage tax would allow the bridges to be replaced one or two each year, taking advantage of the destruction caused by high water.

A total of \$7000 would be needed for ten years additional service. The yearly program of bridge replacement would solve the problem for the city as the contentions of Dancy.

The four permanent bridges now standing in Salem are giving efficient service and have not suffered from the high water during this year. It was the wooden structures that were injured.

Before definite action of framing the referendum, the committee will await the report of the special committee.

Rheumatism

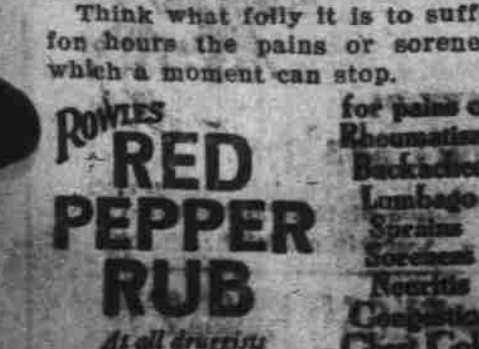

First stop the pain

In rheumatism, the quickest thing is to stop the pain. A modern way does that so quickly that it seems like magic. Nothing else applies such concentrated, such penetrating heat as red pepper. And heat that doesn't hurt. Every old method seems ridiculous in comparison.

Apply Red Pepper Rub and the tingling heat is apparent instantly. In three minutes it seems to reach the depths. Circulation is started, congestion is relieved. Pain and soreness depart.

The cause of rheumatism may lie deeper. But the pain can be relieved like magic in this way. Then why spend hours in suffering? Why lose all night? Relief is a matter of moments if you have Red Pepper Rub on hand. Then, night or day, you have the best means modern scientists know to combat it.

Think what relief it is to suffer for hours the pains or soreness when a moment can stop.

RED PEPPER RUB At all drug stores. Now genuine without the name Romberg.
