

SNAPPY MEETING HELD BY KIWANIS

Senator Joseph Describes Electrical Possibilities of State; Program Held

A peep into the future, an entertainment of school days, and a detail of business marked the snappy meeting of the Salem Kiwanis club yesterday at the Marjion hotel.

Senator George W. Joseph, speaking on the "Conservation of the Water Power," carried the clubmen along in his versatile manner and the possibility of the future development of the state was forecast.

"Oregon is ranked as third in possibility of development, while actually the state is rated as 33rd in development," declared the speaker.

"California, Idaho and Washington are taking active strides in the development of water power. Oregon must get busy, or else lose the fruit of the wonderful possibilities of the development that is possible," was another remark of the speaker.

As an example of successful state development of water power, Senator Joseph called attention to the project of Ontario, Canada, which has a present capacity of over 600,000 horse power of electro-energy. Consequently, the factories of New York state are crossing the border in order to secure cheaper power. The power must be present, or else the industries will not be attracted," was the contention of Senator Joseph. "Develop the power and the factories will follow as a natural result. The industries of Oregon are being denuded, and the citizens cannot sit idly by until the process of reforestation can take place. It is absolutely necessary that an awakening take place at this time to preserve the development of the future."

The program was provided by Carl Gabrielson, presiding officer, one of the "sunbeams" appointed by President C. B. McCullough. With the assistance of Bert Ford, Harry Levy, Frank Durban, Jr., Earl Goodwin and Otto Paulus, a scene of schoolhood days was enacted with Carl Gabrielson acting as the teacher.

HOUSE CLEARS CALENDAR AND MAKES RECORD

(Continued from page 1)
 all counties west of the Cascades; regulating the licensing and taxing of motor vehicles; wage checks must be paid within 30 days; pertaining to the election of directors in irrigation districts; relating to fishing in Nestucca bay; defining fishing gear; remitting penalties and interest on certain taxes, optional to county courts.

Senate Bills Passed
 Senate bills meeting with the approval of the house were measures providing for the sale of starved and abandoned horses in eastern Oregon; providing for the disposition of carcasses of dead animals; withdrawals of counties

operating under the county unit system; strengthening of the workmen's compensation act for the next two years; abolishing the office of constable in Multnomah county; aiding collection of assessments on liens on crops for water for irrigation; providing a game refuge in Lake county for the protection of sage hens and antelope; appeals from justice court decisions limited to those for more than \$30; irrigation districts under contract with the government may cancel assessments levied to pay charges; authorizing the secretary of state to send a list of registered voters to the various postmasters for rechecking and accuracy; creation of a board of cosmetic therapy and regulating the practitioners; prohibiting the use of motor club emblems by non-members; requiring adjustment of water claims under the Carey act; relating to abandoned school districts and the payment of deficits or distribution of proceeds; relating to the appropriation of private property for municipal purposes; defining the boundaries of Hood River and Wasco counties.

Chamber of Commerce to Display in Corvallis

Clifford Good, Salem student at OAC, has charge of the Chamber of Commerce exhibit to be staged there Friday and Saturday of this week.

The Salem Chamber of Commerce has sent a display which will feature the flax products of the Oregon state penitentiary. The different stages of flax preparation, the seed, the tow, and some of the finished products will be shown.

This is an annual affair at OAC, and some of the previous exhibits were under the direction of Kenneth Perry, Frank Deckebach and Walter Shea.

Moonshiner Makes Hoodoo Number of Prisoners Here

Glenn F. Burd secured his release from the county jail yesterday after he had placed \$500 for bail. He was sent to the jail after being arrested on a charge of attempting to rob a hen roost near Woodburn. At the time a farmer objected to his attempts and poured a charge of bird shot into his hide.

Burd created a sensation at the county jail when he was placed in custody as the 13th prisoner, and on or near the 13th day of the month, and on Friday. Almost anything was expected to happen.

The same number of prisoners are in custody, however, because Robert Morton, moonshiner, was caught by county and city officers. It is alleged Morton is the first moonshiner to be captured with a still within the city limits.

NEWS ITEMS FROM CHEMAWA PAPER

Industrial Notes From the Salem United States Indian Training School

(Following are some excerpts from last week's issue of the Chemawa American, paper of the Salem US Indian training school.)

Fred Cardin, who left Chemawa some years ago as first violinist of the Indian string quartet, recently sent a friend two of his published works for violin and piano—one published by Carl Fisher in New York City and the other by Theodore Presser of Philadelphia. They are both exceptionally fine and a big boost for Fred, who, by the way, is now in his second year as teacher of violin at the University of Nebraska at Lincoln.

Recently this part of Oregon has had its quota of rain—and then some! The government report last Monday morning showed that we had an excess of two and one-half inches of rain to our credit since September 1st. This is quite a bit of extra moisture, especially in a country that is normally quite moist in the winter anyway. The majority of us can swim in case of necessity, so we are not worrying.

Industrial Items
 The painters are finishing the dining tables for the senior domestic science practice house. They have been stained a fleamish oak color and will be filled and finished in flat varnish.

A carload of oats has been shipped from Chemawa. This was a part of last year's harvest. Four hundred sacks of onions also are ready for market. Our farm and garden produced very well last year in spite of the fact that it was the driest year known in Oregon for some time.

We are soon to have some fine pigs to sell. Mr. Gibson has 12 head that are in prime condition and will be ready for market within the next few days. He says he must get rid of them to make room for the 11 that arrived recently. There are 50 head of

young pigs that will be ready for market a little later in the spring.

The tailors recently made a record that stands out as the best Chemawa has made. Forty pairs of pants were made for the boys of the small companies in four days' time. When we consider that it was necessary to dip up larger garments to obtain the material, and having obtained the cloth, cut the pants and make them, it speaks very well for this department.

The plumbers are almost through with the roughing in of the bath at the hospital. They have set the sink in the surgery and the masons have finished the floor in the surgery also. When the floor has been set sufficiently the carpenters will complete their

work and the painters will wind up the job. The enlargement of this surgery will greatly improve conditions at our hospital. The machinists are all ready to connect the sterilizer and make a more up to date surgery than we have before had available.

Why Stay Fat?

You Can Reduce
 The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. Marmola Prescription Tablets overcome all these difficulties. They are pleasant to take, entail no dieting or exercise, and have the added advantage of cheapness. A box is sold at one dollar by all druggists the world over, or send the price direct to the Marmola Co., General Motors Bldg., Detroit, Mich. Now that you know this, you have no excuse for being fat. You can reduce steadily and easily without going through long sieges of tireless exercise and starvation diet with fear of bad effects. Get a box and start getting slender now.—Adv.

Letter of Commendation Presented to Minister

Rev. Blaine E. Kirkpatrick, pastor of the First Methodist church, who tendered his resignation here recently to accept the general secretaryship of the Epworth League of the United States was given a letter of commendation by members of the Kiwanis club yesterday.

A personal letter tendered by President C. B. McCullough, was used as the basis of the resolution of the club, tendered the minister. The only changes made consisted of the personal pronouns to indicate the club action. The secretary signed the letter following the approval given by the Kiwanis. In a reply to the letter, Rev.

Kirkpatrick promised to advertise Oregon. He was loath to leave the Willamette valley, but the appeal of the work among the young people of the United States was strong, and he felt that his life work was with them. He thanked the members of the club for the expression of good will, and stated his appreciation of the spirit of cooperation which was manifested.

MRS. KAHN ELECTED

SAN FRANCISCO, Feb. 17.—Mrs. Florence Prag Kahn was today elected to congress to represent California in the seat left vacant by the death of her husband, the late Julius Kahn.

No enemy is as bad as you hope.

Never Suffer From pains you can stop

Most of the pains you suffer can be stopped at once. These include rheumatic pains, soreness, lameness, backache, and the congestion of chest colds.

The way is to rub the sore spot with St. Jacobs Oil. Cause a counter irritation. Or relieve the congestion by bringing the blood to the skin. A moment does this, and comfort follows from the rubbing stops.

St. Jacobs Oil has done this for 65 years. It has saved people eons of pain. Anybody who has used it will tell you that these

pains are folly. A little rubbing and the pain is soothed. It seems to evaporate. Then Nature has a chance to cure while you rest in comfort.

Get this time-tried method, proved by millions. You will never find anything better. It is sure and soothing, and it doesn't burn. Have it ready when the pain begins. Keep it on your shelf. The cost is but 25 cents. And the time is bound to come when it will save someone about you many hours of pain. Ward off the suffering which is so unnecessary.—Adv.
