

# BEARCATS PLAY LOGGERS HERE

### College of Puget Sound Quintet Said to Have Strong Aggregation

What will likely prove one of the most interesting games of the season will be played here tonight between the Willamette Bearcats and the College of Puget Sound Loggers when they tangle on the Willamette floor. The Bearcats are back into the swing with Emanuel, the mainstay of the team, in the training room after a spell of sickness.

The College of Puget Sound has one of the strongest teams in the northwest among the smaller college groups and will give the local team a good fight for their money. Although the Bearcats registered a victory over them at Tacoma recently, they have much to show. One factor contributing to their defeat was the first game on a new floor, and consequently they did not play up as well as they could.

Enochs, their star is ranked as one of the best players in the conference and has made his place by clever shooting from the center of the floor. They have two other good men that are to be in the game Thursday evening.

This team was not admitted to the Northwest conference, but will be included in the new grouping that is to be made this year. If this falls to take place the Loggers will be admitted into the same conference as the Bearcats. Although the Bearcats have suffered from the lack of players, they expect to show a good fight, even if Robertson is suffering from an infection secured from the treatment of his foot, injured recently in practice.

The Logger-Bearcat game has been shopped up one-half hour and will begin at 7:30 in order that the game will be over in time for the debate to follow in the Waller Hall chapel.

The Aggies are to play here

next Monday and on February 26 Pacific university team is to play a return match.

# SALEM HIGH TAKES VISITORS TO TASK

### Win Basketball Contest By Score of 29-12 Frosh Take Game 20-17

The Salem high basketball team took the West Linn team into camp last night and won the contest by a score of 15 to 29 in a very unevenly played game. The West Linn players were unable to connect with the basket and let shot after shot get away from them. The boys were not up to their usual form, and despite their best efforts they could not raise the score.

Duffy, going into the game for the first time this year, played a star game and brought the fans to their feet several times during the contest. He was the sensation of the evening and was declared high point man of the game with 8 points.

In a preliminary the Salem Hi frosh trimmed the West Linn second team by a score of 17-20. Two extra time limits had to be played off on this game. The first time the score stood 14 all, the second time 17 all and during the third break the local team shot the score to 20.

West Linn (12)	Salem (29)
Mootry (5)	F. Hennan (6)
Willson (5)	C. Lyons (4)
Cranor (3)	G. Drager (4)
King (3)	G. Ashby (7)
Cranor (2)	S. Hanson
Tour (4)	S. Nash
	S. Olinger
	F. Duffy (8)

Referee—"Pug" Ross.

### Parrish Team Beats Mutes Players By 13 to 11 Score

The Parrish Junior high and the Mute school met in a basketball contest on the Parrish floor last night and the former took the victory by a score of 13 to 11. The game was tightly contested, but the Parrish team managed to take the victory, despite the handicaps placed upon them by rough playing. The many fouls were the outstanding feature of the game. Eleven fouls were credited to the Mutes and 4 to the Parrish team.

### Red Cross Drive Ended At Silverton This Week

SILVERTON, Or., Feb. 17.—(Special to The Statesman.)—The Red Cross drive has been completed at Silverton, the total sum received being \$152.21. This year the drive was in charge of the American Legion auxiliary, Mrs. A. J. Titus and Mrs. Claire Jarvis supervised the affair.

# SILVERTON WINS THREE CONTESTS

### Newberg Boys, Girls and Teachers Sent Home With Low End of Scores

SILVERTON, Feb. 18.—(Special to The Statesman.)—Silverton basketball teams won three games from Newberg here tonight, the boys, girls and faculty contests all resulting in decided victories for the local players.

Showing decided lack of training, practice and science, the faculty team possessed more luck than their opponents and the Newberg professors were sent home with the small end of a 24 to 6 score. The game provided much merriment for the spectators.

Silverton high school boys defeated the Newberg boys by the score of 24 to 19, the most closely contested game of the three. The Silverton girls beat the Newberg girls by the one-sided score of 38 to 4.

Mason refereed the two mens' games and Mrs. Clyde Rosehein the girls' game.

# JOHN L. RIGGS, PIONEER, PASSES

### Came to Oregon as a Boy and Lived 72 Years in This State

John L. Riggs passed to the great beyond at his home, 492 North Summer street, on Tuesday night, Feb. 17, 1925, aged over 82 years. He had not been well for some time, but the coming of the final release was rather unexpected.

John L. Riggs was born in Exeter, Ill., Dec. 13, 1842. The father's name was Zadoc Riggs and the mother's maiden name Jane Leib. The family started across the plains in 1852, but the father died on the way and was buried near the Platte river. A sister, also died on the long pilgrimage and was buried near The Dalles.

The mother with her four children arrived in Oregon in the fall of 1852 and acquired land on Salt creek, in Polk county. The children were Silas, John, Scott and Polly; the latter became Mrs. Job Conner.

Mrs. Camilla Perival was married to John L. Riggs June 18, 1867, thus joining two pioneer families of that section, and they made their home a mile away from the maternal home.

Mr. and Mrs. John L. Riggs moved to Salem 26 years ago and resided all this time at the corner of Summer and North Capitol. They built the present home there.

Two sons blessed their home, Barton and Ralph. Barton died in Salem two years ago, leaving a son, Leib, now employed at the Capital drug store. Ralph and wife in Portland and they have a daughter, Lois.

Mrs. Riggs expects to remain in the old home, though she will find it lonely after such a long companionship.

John L. Riggs was an upright man; strictly honorable in all his dealings and contacts. He was a Christian gentleman, a loyal friend and a good neighbor.

The funeral will be held at the First Christian church tomorrow at 2, Rev. J. J. Evans, pastor, officiating. Interment in City View cemetery. Webb funeral parlors in charge.

### ACTION TAKEN ON MANY BILLS

(Continued from page 1)

lectors; pertaining to execution of writs by sheriffs; relating to liens on structures; authorizing county courts to pay for culverts not otherwise provided for; relating to licensing and bond of employment agencies, giving additional revenue of several thousands of dollars to the state; giving members of the Oregon Motor association the privilege of giving their membership cards for bail, the association to deposit \$1,000 with the state treasurer to guarantee such bail; prohibiting fishing in the Willamette river above the bridge at Oregon City and giving commercial fishermen 15 more days; providing for egg market regulations; repeal of the voters' pamphlet, issued at an expense to the state of approximately \$25,000 was also approved though the bill does not affect the measurers' pamphlet issued by the state; and a measure clearing defects in the law covering inheritance taxes.

Senate bills passed yesterday included measures defining the duties of the state board of barber examiners and providing for examinations of barbers; terms of the county court of Curry county; prohibiting the operation of motor vehicles while a driver is intoxicated, the clause holding the automobile of such a person being stricken out; authorizing the highway commission to maintain ferries wherever needed, applying to the Roosevelt highway in particular; relating to duration of

liens and the release of produce upon approval of bond, and relating to county high school tuition funds; validating certain acts of the county courts of Gilliam county; relating to jurisdiction of the public service commission in granting claims against shipments; authorizing the board of regents of the University of Oregon to convey title to a portion of the campus to the city of Eugene to obtain use of the new \$500,000 municipal auditorium, the city to hold title to the land; relating to the discharge of grand jurors and a measure relating to the duties of coroners who must report cases to the district attorney.

# ROLL CALL IS NEAR COMPLETION IN CITY

### Red Cross Campaign Nears Close With Favorable Results Secured

The tag-end solicitations of the American Red Cross roll call are coming in steadily, according to T. M. Hicks, chairman of the Salem district. During the past campaign the Red Cross officials were hindered by the lack of workers to cover the field thoroughly. Consequently, much difficulty was experienced in getting the roll call across in good shape.

At the present time only the outlying districts have been left alone, but they will be cared for before the week is over, was the statement of the directing official.

Many of the workers were sent out in two and three districts in order that the opportunity could be given for every one to become a member of the Red Cross roll call. Practically every service club and social welfare society in the city were busy on the job.

The funds solicited by the roll call committee here is used in the interests of the ex-servicemen and their families.

During the course of a year, the organization is called upon to furnish aid to the veterans, and to furnish data for the federal government. Valuable aid is given them in the securing of information concerning hospitalization and other matters of welfare.

### BITS FOR BREAKFAST

There is money in honey—

And health and happiness as well as wealth in it.

The report of the spies to Moses on the "land flowing with milk and honey" knew nothing about vitamins, but they stumbled onto the essentials of virility around 3,000 years in advance of their time.

The fruit grower with plenty of honey bees will not get stung with crop failures due to faulty pollination.

Also, he will have an insurance policy against failure of a honey crop if he will raise plenty of Hungarian vetch and the sweet clovers.

This will mean dairying, mother of swine breeding and poultry raising, and brother and sister to a lot of other hall marks of prosperity on the land, and he will have a "goodly land flowing with milk and honey"—and bringing in a stream of money every day in the year.

The reader will conclude from the above and the following that the Slogan man is enthusiastic about the honey business. He is, it is one of the essentials to the greatness of this fruit district.

# VETS HOLD SNAPPY MEETING AT ARMORY

### Veterans of Foreign Wars Have Interesting Session Wednesday Evening

One of the most interesting meetings of the year was held last night by the Veterans of Foreign Wars at the Armory during their regular session. Business and entertainment was intermingled during the meeting, which was conducted by Col. Carl Abrams, commander of the local post.

The veterans went on record as favoring the extension of their membership campaign until the first meeting date in April. In the meanwhile, a membership campaign is to be organized with Fred Kirkland and Harold Garver as division managers. The vets are to increase their numbers during the campaign. At the present time they have several hundred of the veterans of foreign wars of Salem in their organization.

Dr. George Lewis, who has been conducting the employment office here, reported that the situation among the unemployed had changed somewhat, but nevertheless there were 26 applications for labor on file in his office.

The former service men were entertained by William Watson, who is demonstrating the Atkins saw, by playing popular music upon them.

### REPORT ON AIR SERVICE GIVEN BY PRESIDENT

(Continued from page 1)

Bombing Tests Explained  
Included in the board's report is a detailed statement of the bombing experiments recently made on the hull of the unfinished battleship Washington, made public for the first time. It shows

the present time.  
The biggest thing in fruit growing is pollination, and the biggest thing in pollination is the honey bee. "Male and female created He them," and this extends throughout nearly all living things even to the vegetable kingdom—even to fruit and nut blossoms.

The drone is called the drone because he drones. Bee or man. Don't be a drone!

### GARLAND BILL MEETS DEFEAT

(Continued from page 1)

added to the use of narcotics." Senator Jay Upton, chairman of the judiciary committee that returned an adverse report on the bill, and which was not sustained by the senators, stated that he was opposed to the passage of the measure, due to the fact that it prohibited only one class of advertising, and therefore, seemed to him to come under the head of class legislation.

"If you would frame a measure

to prohibit all advertising of cigarettes in the state, I might be persuaded to vote for the bill. But as it now stands, it appears unconstitutional. It is a discrimination, in that the cigarette trade is a recognized, legitimate business under the laws of the state. The government recognizes it, and imposes a tax on the sale of the tobacco. If you carry the bill out to its logical conclusion, you would prohibit advertising in newspapers and periodicals.

The senators voting against the passage of the bill were Banks, Butler, Carsner, Clark, Corbett, Davis, Dennis, Dunn, Hall, Johnson, Klepper, Maglady, Rittner, Strayer, Taylor, Upton, and Moser.

In the session yesterday morning after the preliminary exercises, the senate voted not to concur on SB No. 132 as amended by the house and Senators Johnson and Hare were appointed on the conference committee. Several new bills were introduced, none of general importance.

The question of a constitutional convention came up and was passed without discussion. This does not mean that the senate was in favor of it but it saw there was no probability of getting through. The senate cleared all senate bills except those returned to the committees and one house bill, No. 324, was adopted. This was a bill by the state highway commission authorizing the sale of certain bonds.

that three 2,000 pound bombs were exploded under water near the ship and two "torpedo explosions" of largest size (400 pounds of explosives) set off in contact with the underwater hull, the ship remaining afloat four days thereafter and riding out a storm.

"The results of the tests demonstrate," the board found, "that the hull of the latest type of battleship is capable of withstanding to a remarkable degree the attacks of aerial bombs and that with a crew on board to make necessary repairs, run the pumps and man the anti-aircraft guns, such as the Washington would be substantially secure against air attack."

The report of the officer in charge of the tests said: "A ship in commission would have had no trouble in making port under her own steam after the five explosions."

With respect to the effectiveness of the torpedo explosions the special board gave it as the opinion of the test board members "that a ship like the Washington would survive eight torpedo hits distributed about the underwater body," but could not withstand them if the hits were "bunched" which would be "hardly within the bounds of possibility."

The board points out that only radio-operated battleships such as the Agamemnon of the British navy and Iowa of the American

have been bombed by aircraft while in motion, all others thus employed having been at anchor. Despite the low speed of the radio operated ships "six and one half knots for the Iowa," it adds 144 bombs were dropped without a hit on the Agamemnon and 80 bombs with two hits on the Iowa.

"It can be seen that as between bombing a fixed target and one in motion, there is a vast difference," was the board's comment. "The battleship in the element of ultimate force in the fleet and all the other elements are contributory to the fulfillment of its function as the final arbiter in sea warfare."
