W. Wells, who is en route to New York city. The cherry price is not fixed, but will be determined by March 25. Mr. Wells plans to return to the Willamette valley in order to oversee the buying of fruits here. He declares that a grower is making a mistake to sign the first contract that is fluttered before him. The Young & Wells firm will be in a position to handle all

the fruit they can get here, with the exception of strawberries. They do not plan entering this field. From all indications the cherry market for this season is to be the most favorable of any during the past years. Other firms are already established here and things are beginning to move in the fruit line.

Modern Woodmen Hold Fine Meeting Wednesday Night  
At the last meeting of the Modern Woodmen of America an open meeting was held with all friends of members invited. A fair turnout availed themselves of the opportunity to enjoy an evening of cards and an excellent program given by local talent.  
William Baker gave a very excellent reading. Jack Spong as usual held his audience spell-bound while he proved to their satisfaction that the hand is quicker than the eye. His sleight of hand tricks are truly as good as those usually seen on a vaudeville circuit.  
Fred Wilkinson gave a series of very clever imitations, imitating everything from the cow down on the farm to a pre-Volstead bottle of gin in process of being consumed. Chief Forrester Applin staged a very creditable entertainment with his demonstration of hypnotism. Mr. Applin has previously been on the Pantages circuit so the act was really of big-time caliber.

A COUGH REMEDY WITHOUT OPIATES  
Many cough preparations contain some one or more harmful drugs which are added to take the place of opiates. None of these narcotic substitutes have ever been used in FOLEY'S HONEY AND TAR COMPOUND. The name of every ingredient is plainly printed on every carton. You know what you are taking when you take Foley's. It clings to the throat. Good for old and young. You have a cough, why not try it. Refuse substitutes.—Adv.
