**IMPROVEMENTS OF CITY TO BE TOPIC**

**What to Do to Make Salem a Better City Is Subject for Open Forum**

An open forum will feature the regular meeting of the Chamber of Commerce Monday noon at which any one present will be given an opportunity to discuss means by which the city may be improved. One restriction is made, however,—the speaker is limited to two minutes.

Some ideas have been advanced concerning certain improvements such as the following: The one hour parking ordinance; community chest; organized charity; zoning system; public auditorium; community house at auto park; city planning; bridge program for Salem.

Other topics have been suggested, with the thought that helpful ideas may be blurted out at the meeting. The directors of the Chamber of Commerce are to be there to make notes, because the program for the coming year has something of concrete value and they are in a receptive frame of mind.

Charles R. Archer is to be toastmaster.

Burns 94% air and 6% common kerosene (coal oil).

will be drawn by all clerical employees and stenographers until the session adjourns, probably Wednesday, from present indications.

Passage of appropriation measures featured the morning session of the house, the chief of these being for \$175,000 for the Ashland Normal school. The measure received but nine negative votes and was reported out by the ways and means committee without recommendations.

Other bills carrying money were increasing the appropriation of \$5000 a year for the Hood River experiment station to \$12,000, placing it upon a permanent basis; an appropriation for \$6000 annually for an experiment station in Clatsop county; an appropriation of \$2400 for the next two years for the relief of Mrs. Clyde R. Bindinger, of Coos county, whose husband was killed in the line of duty when a heavy calibre gun exploded during the annual coast artillery encampment at Camp Lewis; an appropriation of \$400 a year for aid of Oregon deaf students in Gallaudet college in Washington, D. C.; purchase of a supplement of Oregon laws compiled by Conrad P. Olson, bringing the code up to date.

The salary of the state food and dairy commissioner was raised from \$3000 to \$3600 a year, though \$4000 was sought. Other salary increases were allowed for the county judge, county commissioners, assessor and school superintendent of Washington county.

Building or improvements upon lands under mortgage to the state cannot be sold under another measure passed while authority was given to Reedsport to close a slough lying within the city limits.

most the total Oregon pack was by the Salem canneries. We canned more than half of all the gooseberries put up in the United States. It goes without saying that Oregon packed the best gooseberries.

Oregon led also in strawberries, and nearly all the canned strawberries were put up in Marion county.

In loganberries, of course Oregon led. But her lead is likely to be disputed by Washington before long, unless there is a bucking up by our growers and manufacturers.

The figures for Marion county on canned pack of berries and generally are not yet available.

Riches was at one time in the employment of the Southern Pacific company at Silverton. Mrs. Riches will be best remembered as Miss Hattie Dahl, the daughter of Mr. and Mrs. H. Dahl.

You do not soon forget that which stands for perfect-coffee satisfaction—Golden West. The memory of that last delicious sip carries over to the next.

But, remember, too, that much of the quality you like in Golden West comes from the mountain sides of distant lands where the world's best-flavored high-grown coffee berries are selected. The rest is the result of 40-years of scientific blending and roasting, and of vacuum packing to carry that goodness to you.
