Acid Is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity-acid stomach-and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation; then our meals sour like garbage in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas or have heartburn, flatulence, 21 Western state (ab)

He tells us to lay aside all di- 22 Winter vehicle gestive acids and instead get from any pharmacy four ounces of Jad 25 Lay hold of Salts and take a tablespoonful in a glass of water before breakfast, while it is effervescing, and furthermore, to continue this fer one week.
