A Gleamy Mass of Hair
35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.—Adv.

Cast Removed—The cast which has been around the limb of Robert Bishop, 14 year old son of Mr. and Mrs. Chauncey Bishop, was removed yesterday. The cast has been worn for four months. Gives Good Reports—D. F. Kennedy, assistant superintendent of the E. C. Horst ranch, Eola, reports that the place is a game preserve. Chinese pheasants, quail and native pheasant are to be found on the river side of the county road from Brunk's corner to Independence. Two years ago this ranch was set aside as a game preserve and since that time the game has been multiplying rapidly. Other ranchers in the vicinity are in favor of the plan and are offering their ranches as game preserves.

Fight Is Expected—The city council has refused to grant H. Mazza a permit to operate a second hand store and junk shop at 320-326 North Commercial street. Over 200 tons of scrap iron is stored on the lots. A city ordinance prohibits the storing of junk on the lots in that vicinity, but the dealer declared the lease was secured long before the city passed the bill. The fight is the result and it remains to be seen what will happen.

D. M. Sanson, secretary of the Donegal Linen Mills, Lockport, N. Y., writes under date of February 23 to Governor Pierce as follows:

"Referring to our previous correspondence, and your kindness in having forwarded to us samples of Oregon straw, unthreshed and unretted, also retted, and samples of fiber, we beg to advise you that we had a very successful exhibition in the Grand Central Palace, New York, February 7 to 14, and the straw and fiber from your state attracted a great deal of attention and much favorable comment from those acquainted with the linen industry.

"We desire to take this opportunity of thanking you for your kindness in this matter. Oregon flax never fails to get praise wherever linen experts see it. The reason is that it is high class—as good as can be produced anywhere in the world.

Silverton Bond Issue Taken By Portlanders

SILVERTON, Ore., Feb. 28.—(Special to The Statesman.)—The \$35,000 bond issue of school bonds for the construction of additional school room at Silverton, has been sold to the Lumbermen's Trust company and the Western Bond and Mortgage company of Portland. The issue was divided as follows: \$15,000 at 4 3/4 per cent; \$20,000 at 5 per cent. A premium of \$364 was paid. The bonds are 20 optional after 12 years. The board has the privilege of retiring the 5 per cent bonds first.

Officers Take Horses to Warm, Comfortable Stable

When the officers arrived at the street, they found the horses were tied to a wagon, their harness left on them. They were not protected by a blanket or covering of any sort, which is required by the city ordinance. From all evidence, the owner of the animals had retired to a comfortable bed and left the horses standing in their harness. The animals had not suffered much, because they were protected by shaggy grey coats of hair, which showed that they had not been cared for during the past winter.
