OUR POULTRY BOOM AGAIN

calls attention frequently to the poultry boom in the Salem district-

And he does this because he considers it a healthy boom; pleasing sight, but we have yet one calculated to be of vast benefit to Salem and the sur- to learn something in the lessons rounding country-And to justify his modest part in helping to bring the

In this connection figures just published in a circular of cratic to do this. It is bolshe-

as follows: "Some 678,300,000 chickens were produced in the United States last year, which was 29,400,000 more than in 1923, according to estimates just released by

the United States Department of Agriculture. "Despite this increased production there were on farms January 1, 1925, approximately 427,000,000 chickens as compared with 470,300,000 on January

"The decrease in stocks on hand January 1 is attributed to increased consumption, and to larger stocks going into storage.

"Total stocks of frozen poultry in storage February 1 were reported 138,253,000 pounds compared with 99,486,000 pounds February 1 a year ago."

It is seen from the above that the boom in the poultry industry is general throughout the country-But how much more beneficial in the Salem district,

which is the best poultry country in the world, than in most men of character more and more districts! The reason is that our hens lay more eggs annually on an hardship.

average than the hens of any other section; and more per hen in her life time on the average. And they do this at a lower capital investment and a lower labor and food cost than the average throughout the country.

So let 'er boom-

Let the industry grow to beyond the \$20,000,000 annual important affail, which it is. This ther up the valley on the Peedee income mark that the Petaluma district in California has brings to our city ambitious boys reached, under conditions not as favorable as are found here.

DISGUSTING PROPAGANDA

The Institute of Margarine Manufacturers is out with a special interest and help to make great mass of propaganda, attempting to prove that there is a success. It takes a pile of money a war on between the South and the West-

The South to fight the West because the West is taxing not be hard on any one. oleomargine!

The claim is that oleomargarine contains cottonseed oil and peanut oil, products of the South. This is disgusting. Most brands of oleomargarine con-

tain no cottonseed oil at all, and some of them no peanut oil-And those that do contain these oils of the South carry a stuff. Just now Russia is red, very small percentage of these products; so small as to be almost negligible.

Oleomargarine is mostly coconut oil. One of the leading FRESHMAN GLEE brands carries on the package these words: "Mainly vegetable oils from coconuts grown in the South Sea Islands." And that is the truth as to all the rest.

The fact is that the South is not proposing to make any such war. It is merely the propaganda of the oleomargarine trust. Disgusting propaganda. Though it fools a lot of good cleared out. The mighty Sophopeople, as was shown in the last election in Oregon.

OUR RAILROAD RATES LOWEST IN WORLD

Transportation costs are lower in the United States than abroad, according to Capt. John W. Gorby of the American Economic Institute who has just assembled figures on rates and fares charged by American roads and those of government owned roads in foreign countries.

"The average rate per ton mile on our roads for the first classes will sing in the usual orsix months of 1923 was less than 11/sc," says Capt. Gorby. "This means that the roads hauled the average ton of freight in America 100 miles for about \$1.11. The latest returns at hand now show that the freight rate per ton mile in England is about 4c; in Sweden 41/2c; in Norway 5c and in Brazil over 6c.

"As to passenger rates the difference is still more strik- candy company. The loss was 17 Upon ing. The first class passenger fare from London to Axmin- fective wiring was given as the 20 Jewish holiday ster, England, and return, 144 miles each way, is \$14.72. The cause. fare from Chicago to Savannah, Ill., the same mileage, including parlor car service which corresponds to first class passenger service in England, is \$11.62, or \$3.10 less than the British fare. The fare from Paris to Biarritz, 508 miles, is \$32.67, while from Chicago to Leavenworth, Kansas, the same distance, is only \$17.54, a little more than one-half. In Italy, the fare from Rome to Florence, 196 miles, is \$21.95, while same distance from Gladstone, Iowa, to Chicago, is only \$7.07, or less than a third. These passenger fares, not hand picked but selected at random, show you that private on Friday morning at 4 o'clock. 43 Progressive pronoun ownership of railroads in America has resulted in cheaper March 6, 1925, at the age of 85 45 Tidy service to our people than may be expected, according to the years, 8 months and 3 days. A CASE IN POINT

The parties have about lost conrol of legislative bodies. There is such a mix-up now that men of different parties find they have common interests and go together to accomplish what they want, In the next congress there is going to be an effort at party discipline for the purpose of tightening the lines and re-establishing party responsibility. It must be done if we are to have parties at all.

However this is not a situation

exclusive in the United States.

The British parliament has been annoyed greatly by the lack of discipline among the members and the lack of ways of reaching even the party leaders to hold them in line. Just the other day drastic action was taken and a member was expelled from parliament because he persisted in interrupting speakers. This may sound trivial, and yet the offender had annoyed so long that there was nothing ed legislation, and if one man interrupted so frequently that business could not be transacted, the only thing to do was to fire him out all the labor members walked out with him, headed by ex-Premier MacDonald. It was not a of democracy. A man has a right to talk, but no man has a right to talk at all times, or at any inopportune time. It is not demothe United States Department of Agriculture are interesting, vik and entirely in disregard of authority. We take it that the British house of commons was

Rev. ERNEST H. SHANKS, Pastor of the First Baptist Church

MARCH 7, 1925 John 3:16-36. "The Witness of God's Love." The Love of God. 16-21. John Baptist's Witness, 22-36, Key: "Love. Memory verses: 16, 19, 21, 36.

THE greatest thing in the world is love."-Drummond. God's love is far beyond every possible measure of human love, and we have no unit of measure by which to estimate its length, breadth, height and depth. Yet we are told to know His love which passes knowing. It has been designated as "measuring the immeasurable." "The fullness of His love," is offered to all. "While we were yet sinners, Christ died for us." We should seek to know that that we may be "filled with all the fullness of God." Love gives. and the supreme love made the supreme gift. "You can give without loving, but you cannot love without giving." Christ was not sent to condemn, but to save. Men are saved or lost according to their attitude toward Christ. "He that believeth is not condemned." Those who refuse Him are now under condemnation.

God so loved the world that He gave His only begotten Son, that hosoever believeth on Him should not perish, but have eternal life. This is the condemnation, that light is come into the world, and n love darkness rather than light.
