SALTS FINE FOR ACHING KIDNEYS

When Back Hurts Flush Your Kidneys as You Clean Your Bowels.

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine, so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to help keep their kidneys clean.

A well known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.—Adv.

SALEM TO HAVE A SALTING PLANT AND PICKLE FACTORY, MAY BE BIG

The Oregon Packing Company is Now Contracting for Cucumber Acreage, and There is no Difficulty in Getting All the Growers They Will Be Willing to Contract With—Paying Good Prices to Growers

A definite scale could not be learned last night. There are mainly two kinds of cucumber pickles, sweet and dill. Besides receiving the cucumbers in the Salem plant for salting and shipping to other plants for further processing, the Salem plant will put up dill pickles this year. Likely in the course of time, if not this year, sweet pickles will also be packed here.

The salting product will go to plants at San Jose, Cal., and other places where the company has plants, and where they will be put up under the various processes and labels. A pickle factory for Salem, that may become an immense institution, is something worth rejoicing over.

A good price is being offered for the cucumbers, though the

Games and a delicious lunch added to the pleasure of the evening. Friends of Mrs. Victor Sedore will grieve to learn that she is in the Dallas hospital, where she will shortly undergo a serious operation.

Mr. W. H. Beard left on Monday morning for a business trip to southern Oregon, visiting Medford, Grants Pass and Klamath Falls, and will also visit his daughter, Mrs. Garnet Best of Corvallis. Don't forget to call at the Bank of Falls City and secure squirrel poison. The "diggers" are coming out to enjoy the spring weather and now is the time to feed them well, to avoid having them feed themselves on our choicest crops later on.

The Civic Pride committee of the Commercial club and the Parent-Teachers' association met together on Monday evening and decided on a program for beautifying our city. Cash and other prizes will be offered for various improvements, permanent and seasonal. A full list of these prizes will be published next week. Everyone is urged to make entries of some kind. Mr. G. D. Mott, at Mott's store, and E. E. Watt, at the post office, will take your name and address.

MILDEW SPRAYS FOR GOOSEBERRIES

Mildew sprays on gooseberries must be applied immediately to be effective in checking this disease. Before blossoming sprays control mildew, and no sulphur is on the berries when they develop. Complete control of mildew was obtained by before-blossoming sprays and dustings used in experimental work last year on the farm of W. L. Rowell on Kiger island in Benton county.

Any sulphur on the berries makes them unfit for canning, according to canners. A large per cent of "springers," or bulged cans, develop when this class of product is used. Even though the cans show no outward effect of the sulphur, the product is not considered fit for merchandising.

The first spray, lime-sulphur, 1 to 25, should be put on now before the blossoms open. This should be followed in two weeks by another spray, and still another application should be made in from 10 days to two weeks if this can be done before blossoming. If dry lime-sulphur is used it is proportioned at the rate of four pounds to 25 gallons of water.

Mildew hibernates in the leaf buds of the plant. It must be checked early and must not be allowed to spread on the leaves and then to the berries. When mildew gets on the berries it cannot be eradicated satisfactorily because a lime sulphur spray would make the berries undesirable to canners.

H. P. Bars, professor of botany and plant pathology at Oregon Agricultural College points out that the treatment for mildew must be thorough. The liquid must drench the plant.

NEW COMER GIVES SALEM HIGH PRAISE

Says This Is the City of Truth and Love and Peace; and of Friendship

Editor Statesman: In reading the Editorial of the People of Mr. Frank Willman in the Sunday issue wherein he bids farewell to his home city and the friends he has made here, it occurred to me to wonder if he could realize what benefit he was bestowing on the comers to this city, and he very well makes the point that "not alone is it Salem's beautiful civic center and wide streets which appeal."

Coming, a stranger, into your city some six months ago, I thought I sensed the things which his letter assures me you have, and I am so glad to find my intuitions true. Some strangers may call you slow and unprogressive, but it is such a pleasure to find a real city which still clings to the fundamentals, like loving and trusting your fellow man and judging him by his mental and moral qualities rather than his purse and flashy dress.

One just naturally feels sincerity in the air here. To pass along the streets and see your women in modest apparel, devoid of paint and "bobs" (generally speaking) and the business so kindly and courteous, wholly devoid of snobishness, is very refreshing indeed. I never before realized how important it is to a city, the kind of real estate men it has, for usually they are the first stranger meet, and most of Salem's real estate men are a credit to you.

I have thought since coming here what a help to your Chamber of Commerce might be in boosting your community if they could hear of the impressions made on the new comer's mind. To me, Salem is the city of truth and love and peace, and it is to be hoped that the strangers attracted to this community also feel this, and locate because it is those qualifications in the community they are seeking.

Mr. Willman has bestowed the greatest compliment any man can give to the city he is leaving; and many is the weary wanderer who would give more to find what you have here in abundance than for all the financial resources. With deepest sincerity from a stranger, MRS. AURA C. PERRY Salem, March 10, 1925.

HAZEL GREEN

The Woman's Missionary association will meet with Mrs. G. G. Looney, Thursday, March 12 at 2 o'clock. The subject is "Education." Mrs. Louis Kobow will have charge of the program. Special music by Mrs. Ralph Van Cleave. This being the annual business meeting, the officers will be elected for the coming year.

The school will have a program Friday evening, March 13. There will be two dialogues, music by local talent and a cafeteria supper. Mrs. Phoebe Paynes' many friends here will be sorry to hear of the death of her daughter, Naomi, at Oceanside, California, last week. Mrs. Payne left here for California about three months ago hoping the climate might help her daughter.

Jack McCallister's residence burned to the ground last Saturday. Only a few articles were saved. The fire originated in the upper part of the building and when it was observed, there was little time to save any thing. Only a few weeks ago the McCallisters lost their barn by fire. Bad luck surely seems to be their portion. It is to be hoped that sympathy will be shown to this family in a practical manner. We are placed here to help each other when help is most needed.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking only small strands at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Adv.
