Feel Achy After Every Cold?

ARE you lame and stiff; tired and nervous—constantly troubled with backache and twinges of pain? Have you given any attention to your kidneys? Grip, colds and chills, you know, are apt to be mighty hard on the kidneys. And if the overtaxed kidneys fail to properly filter the blood, impurities accumulate and throw the whole system out of tune. Then may follow daily backache, rheumatic pains, headaches, dizziness and annoying kidney irregularities.

In such conditions a good stimulant diuretic should help the kidneys flush the poisons out of your system. Use Doan's Pills. Doan's have helped thousands. Are recommended by folks you know. Ask your neighbor!

Here is Salem proof:

G. N. Ireland, 1092 Broadway, says: "I had attacks of kidney complaint and my back very often ached as if it would break. When I stopped sharp catches took me. My kidneys didn't act often enough either. I used Doan's Pills and they regulated my kidneys and relieved the aches."
