

### CITY AUTO CAMP GROUND IS READY

Thirty-Six Visitors Register Since Ground Opened on March 2

The Salem auto park is in tip-top shape and ready for the influx of tourists. Grounds and buildings have been cleared of the mess that resulted from the winter storming. Paint has been applied to the bare boards, the camp stoves repaired and the ground placed in fine shape. A keen-eyed inspecting officer would have to put his stamp of approval upon the shape

of the grounds at the present time. Since the opening date 36 automobiles have registered at the grounds, including those last night. Some registered for more than one night, but on the whole just for a few hours. The records show that the cars have come principally from Washington, Oregon and California. Ten cars registered from California, nine from Oregon, four from Washington and the others from Ohio, Iowa and Missouri. Practically every building on the camp grounds has been gone over with paint, the grounds raked clear of leaves, the debris taken from around the different corners. It is safe to say that the camp is in as fine shape as it ever has been.

**Studebaker Quality**—Is a delight to the motorist who desires the most economical transportation. The Certified Public Motor Car Market has some attractive buys in Light and Special 6 Studebakers. Call or phone for a demonstration of one of these guaranteed used cars. M28

If your druggist tries to sell you a substitute send direct to us, we ship prepaid all orders for \$1.00 or more. RU-BON CHEMICAL CO. Kansas City, Mo.

### DRUGS EXCITE THE KIDNEYS. DRINK WATER

Take Salts at First Sign of Bladder Irritation or Back-ache.

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative passages clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for years to help flush and stimulate clogged kidneys so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.—Adv.

### First—Stop Pain Don't suffer for an hour

When pain comes, stop it. Be ever ready to stop it quickly, night or day. Don't suffer any pain which a moment of rubbing can stop. These include pains allied to rheumatism, to soreness, to lameness, to chest colds. They can be stopped at once. For 65 years they have been stopped by rubbing with St. Jacobs Oil.

As for curing the cause of the trouble. Nature usually does that. But don't suffer while you wait. St. Jacobs Oil causes counter irritation. Then it draws the blood to the surface to relieve congestion. In a minute or two you feel that the pain has abated. You rejoice in relief.

Perhaps there are other ways. But this is the one way that millions have used—have proved it for 65 years. You can rely on it. Your druggist guarantees it. Why take chances when you know that nothing can be better?

Don't wait for an emergency. It may mean a night of pain. Have St. Jacobs Oil over ready. Apply it as soon as you feel a pain, or a chest cold. Be ready to soothe it, to check it at once. There will never be a better way. Go get it now to be prepared when pain comes. It may save you and your many unhappy hours.—Adv.

### ALLEGED ROBBER BEATEN SEVERELY

Defendant in \$14,000 Hold-up Manhandled by Forty Other Prisoners

SEATTLE, March 21—J. M. Dooley, one of four defendants convicted of participating in a \$14,000 hold-up of two messengers of the Bon Marche, a Seattle department store, August 8, was severely beaten and manhandled by sixty prisoners in the King county jail here today.

When officers quelled the riot in tank No. 8 the prisoners said they punished Dooley for stealing the second time from his cell mates.

"A week ago the prisoners caught Dooley stealing and gave him a reprimand at a 'kangaroo court,'" Sheriff Matt Starwick said. "Dooley became sullen and refused to associate with the men. The prisoners appointed men to watch him. When they found him stealing a second time they gave him a short trial and sentenced him to a beating. The sentence was carried out."

Dooley, Ed Fasick and Mrs. Esther Fasick were sentenced to from 25 to 50 years in prison February 28 and a fourth defendant, John Callahan, was sentenced to 20 to 50 years. The four are in the county jail awaiting the filing of appeals.

Fairgrounds road. Everything is to be in readiness for the machinery, when it arrives. The plan, as most readers know, is to begin spinning about July 1st.

"The Willamette valley is the best place in the United States to raise flax," declared D. M. Sanson, linen manufacturer of Canada and New York, in an address before the members of the Eugene chamber of commerce at Luncheon yesterday, said a dispatch with a Eugene date line in the Oregonian of yesterday. What Mr. Sanson meant, of course, and probably said, was that the Willamette valley is the best country in the world for both the production of flax and its manufacture into the articles of commerce—a combination that marks this section as the future greatest flax and linen center in the world.

Mr. Sanson is to be the speaker at the Monday noon luncheon of the Salem Chamber of Commerce.

Do not be surprised at any development that may come in the flax and linen industries. The whole linen world is now alive to what we have here in opportunities for big operations.

The Englishmen are telling us that the Americans are becoming the fattest of earth's humans. Years ago Uncle Sam and all Americans were shown as lean and wiry creatures with hardly a surplus ounce of flesh. Now even the European cartoonists have taken to upholstering Uncle Sam and in some cases they make him as

### Bathing Screen For the Baby

This new idea of baby's bathing screen answers many needs. It may be made at home by taking three wooden frames, each forty inches high and twenty inches wide, and covering them on one side with white allecloth. A nursery design for decoration may be cut out of wall paper and glued across the top of the screen. The allecloth should be glued to the frame and the back of the screen covered with cretonne in a nursery design. This also can be glued on each frame. If the best quality liquid glue is used the screen will be firm and strong. The sections should be hinged together. The pockets on the inside hold all his necessities: powder, cotton, blue ointment, fresh clothes, linen, towels, and a pin cushion for used needles. A supply of fresh ones hangs close by. The pockets are of oilcloth so they can be cleaned by sponging. Nail pockets securely to the frame, then turn over the top of the oilcloth and glue it down so the nails will be covered. Finish pockets by turning over usual hem width, gluing instead of sewing.

### Attractive Dinner Place Cards

Good looking place cards add to wish your cards. Cut small design in leaves of a decorative paper. If they are made of wall paper or cretonne as in the picture the guests will take them and treasure them among their quality liquid glue. You will have variety and charm in your place cards. Cut it into pieces the size you

portulant as John Bull ever was. The reason is that the Americans as a people are taking on fat. Many of the American tourists who are overrunning the European capitals are endowed with double chins. The English comment on the fact that, while our dough-boys were a hard and willowy lot of muscular scrappers, the present run of Americans are fat and soft. Rich foods and much riding in motor cars contribute to this end. Rich Americans are even forgetting how to walk, except those interested in the game of golf.

### EDITORIALS OF THE

Wants Article Republished Editor Statesman:

In your issue of the 15th inst., appears an article, quotation and editorial, which we think should reach the hand and engage the attention of hundreds who will probably never see it in its present form.

We refer to the article under the caption "The Prevention of Crime," on page seven, giving the words of Judge Fawcett, of New York, as published by the San Jose

### FASHIONS & FOIBLES

by Shirley Sharon

Sleeves are less than nothing in the life of Summer frocks intended for country gardens or city roof-garden restaurants.

It is a competing warm-weather fashion that sheds its sleeves in its silk crepe and crepe de Chine dresses intended for private life in the country or the semi-public life of city roof restaurants. The long, close sleeve is also used for this same type of ballroom dress made of silk alpaca with the full, which follows the Russian closing of printed crepe de Chine. One can also take advantage of the two sides of crepe satin by using the shiny side for the dress and the dull for the sides of the skirt. The short glove is worn with both the long sleeve and the sleeveless dress.

### SPECIAL MASONIC DEGREE TEAM HERE

Portlanders Have Charge of Ceremonial and Glass Last Night

A special degree team of the Royal Arch Masons, Portland Lodge No. 3, held ceremonial at the Masonic temple last night for the neophytes who has assembled here. Delegates from Dallas, Independence, Woodburn and Silverton were present.

The Portland delegation arrived in the city Saturday afternoon under the leadership of Arthur Malesworth, high priest; F. Patterson, past high priest and head of the state organization; C. B. Woodworth, L. T. Scott, formerly of Salem, and S. A. Woodworth. These men are members of the famous degree team which conferred the general chapter regalia at Albany some time ago.

W. C. Winslow, local attorney, is high priest of these local organization.

No one should become an undertaker unless his patience is well developed.

Mercury, and followed by your own editorial comments.

Altogether this is one of the most remarkable and praiseworthy articles we have ever seen upon the pages of any of our daily journals as related to the appalling increase of crime among the young, and suggesting any form of remedy or assistant corrective.

We discussed it, and wondered if the editor would entertain a suggestion to republish the entire article on a supplement sheet, to accompany an early issue of the Statesman, and perhaps, issue a larger number of the supplement of the Statesman, so that every home in the city and surrounding country could receive a copy.

I think we can arrange for the distribution of copies of the supplement without any great addi-

tional task to your office.

Appreciating the great power for good that the daily press exerts, and recognizing in this editorial the very best possible appeal to the public we make bold to make this request for the benefit of our children, our neighbors and friends.

### Appeal For Justice

Editor Statesman:

Some few weeks ago an article appeared in one of the Salem papers headed "Junk Dealer Refuses to Sell Scrap Iron Pile." This article would lead the public to believe that we were defying the mandates of Salem's mayor and city council, but such is not the case. I respect our mayor and our council and their laws, but I want to be treated just the same as other business men of Salem are treated—no better, no worse. I and my wife have been in business in Salem for three years at 320-326 N. Commercial street, and we have found that Salem was all for Salem people, and we have always been glad to be known as one of them and for that reason we are now asking space in your paper, which has the welfare of our city at heart, to publish this article. Since we located here we have bought from the state and from Salem people, water pipe, sewer pipe, stoves, furnaces, grates, and stored the same in the rear of our property, and I want to say right here that the difference in this iron that I bought and new iron is that this we have is second hand iron; that means practically the same as the difference between an old man and a young man. There is no filth or smell at all.

Of course I am more than willing to sell the iron, but I have paid my good money to the state of Oregon for some of it, and to the people of Salem for the balance, and I would like to get back what I am out, in cash, at the least for it.

Now then, we have always felt like never troubling trouble till trouble troubles us, and when trouble troubles us, we always have to look for the reason, and then try to find a way out of trouble; so after receiving a notice from the city officials to move our old iron, we took a stroll around the pile, and after wishing it was all new iron, so we could have it

moved inside our salesroom, and this wish did not come true, we breathed as hard as we could and we could not smell anything foul or bad, so we put on our glasses, and we could see second hand engines, water pipe, sewer pipe and machinery which had heretofore given good service to many, many people in Salem; then we faced about and took a squint at our neighbors joining on the rear, and our hearts just felt as if it were true that there were unsightly back yards in Salem on every

### GAHLSDORF'S STORE OF HOUSEWARES

Just then my glasses moved to another back yard, and oh, what a sight I did see, property owned and in the control of the city of Salem! Why, if I weren't a part of Salem, I would picture with indignation the feeling in my heart for our city officials living in glass houses and throwing stones. After our dream was all over, and we came to ourselves, we realized that one man, a brother business man of Salem, who is always poking his head into others' business, has caused us all this trouble.

### Over-stuffed Furniture

EVERY Davenport and Chair on our floor has been designed and made with a clear understanding of the requirements of modern home interiors. From the quality of coverings to the depth of the cushions and upholstery, from the life long strength of the frame to the enduring and beautiful finish of every suite and every piece, we guarantee you will be one hundred per cent satisfied.

We have just received many new patterns and colors in the fabrics and many with new and novel designs or two-tone effects.
