## TWILIGHT LEAGUE ADDS GROTTO TEAM

Six Contestants Now Lined Up for Season; Room for One, Two More

As the weather grows warmer baseball seems to take on more enthusiasm. A new team has been added to the Twilight League. It is the Grotto team of the Masonic lodge, managed by E. A. Paulsen.

The teams lined up to date are as follows: Legion, YMCA, O.N.G. Valley Motor, Bankers and Grotto. They are still looking for one or two more teams. There may be a possibility of the Elks putting in a team, they have quite a strong organization here and are quite an enthusiastic bunch of baseball fans.

Anderson & Brown are giving a new \$7 Babe Ruth fielder's glove to the player making the most home runs during the season. The glove will be on exhibition at the store.

President Barrick and "Bob" Boardman expect this to be one of the best seasons in the Twilight League history. Anyone wanting to get in a team will call Dr. Barrick at 342, or "Bob" Boardman at the YMCA.

## SECRETARY TALKS ON FARM TOPICS

Devoting Some Land to Flax Instead of Wheat, Is Urged By Jardine

WASHINGTON, March 26.—Warning that confusion results from discussion of too many ways of helping the farmer, Secretary Jardine today outlined "a few simple principles that we all can talk about."

"I have no panacea for agricultural relief," he emphasized, "and I don't believe that anybody has."

"The most painful period of readjustment is now over and prospects look much brighter for the farmer," he declared. "There is real encouragement in the progress that has been made during the past two or three years. We can look to the future with confidence, but we must recognize that there are many phases of the agricultural situation that still challenge the best thought of the nation."

Cooperative marketing and standardization of agricultural production he held, are necessary to eliminate waste, which he regards as partly responsible for the

Mr. Strahorn said that early extension of the lines is planned and that beginning of construction now awaits only the granting of necessary rights.

A possibility that the defense may attempt to contest the charge of the state that Dorothy Ellingson actually shot and killed her mother appeared in a new phase of interrogation opened by the defense in examining a juror.

Walter McGovern of defense counsel asked Mrs. Julia Ott, a prospective juror, whether she would be prejudiced against a verdict in favor of the girl should the evidence disclose that Dorothy did not actually shoot her mother, but had admitted the act to shield some one else.

This was the first intimation that the defense contemplated resisting the state's establishment of the body of the alleged crime. At the time of her arrest in January the 16 year old girl freely discussed the quarrel with her mother over her life of jazz and joyrides, which, the girl said, led her in a fit of temper, to shoot her mother in the bedroom of their home.

Dorothy failed to reveal a flicker of interest when one of her attorneys in examining a juror, brought out a new line of questioning when he wanted to know whether the juror would be re-

The Trick of Quick Starting Only part of your gasoline problem! There's your motor to be considered—and this is vitally important. Go a little farther into this question of gasoline.

Non-detonating gasoline delivers power impulses continuously throughout the full stroke of the pistons. It doesn't deal one sudden, crashing blow. Strong, smooth power results.

A swift, powerful, continuous thrust drives the pistons all the way down. No sudden crash against the piston head, the force of which is spent and gone in one explosion.

No vibration, none of the wear and tear, and no "knocking" due to those sudden crashes. A smooth, quick pickup and a gliding, powerful, stressless speed comes from Non-Detonating Union Gasoline. Its use insures your motor's best performance. Sold through Union Service Stations and independent dealers everywhere.
