

Smart Ensembles

The Ensemble Suit is most deservedly popular for there is no smarter or more practical costume for day-time wear. There is a wide selection—some of kasha or twill with matching or silken dress, and others entirely of silk—ottoman, crepe or satin.

Do not be confused in quality by the price. The same qualities are being sold in some of the larger cities for nearly twice the prices of these garments.

The many friends of Mrs. C. A. Kells, who have been expressing sorrow over her severe illness, will be rejoiced to know that she is somewhat better. Mrs. Kells is under medical care at her home, 920 Leslie street.

An interesting story has come to light concerning the first establishment of the WCTU children's farm home at Corvallis. Mrs. Mary Powers Riley of Shedd, Or., first thought out the plan, as the bitter fruit of a struggle of her own. The Roseburg News-Review gives the following completing paragraph:

The plan was conceived by Mrs. Mary Powers Riley, now a resident of Shedd. She was the oldest of a large family, left orphans, and struggled hard to keep the family together, owing to her aversion for the ordinary orphan's home. The smallest child in the family she took with her when sewing out, which proved so inconvenient owing to the child's propensity for mischief that she was finally forced to allow him to be adopted. Grown to manhood, this boy acted as foreman on a ranch in Nebraska for three years for Mrs. Ross Jacobs, now of Roseburg, and died not long ago in Salem. A brother of his, Mr. Progue, is an attorney at Salem. After Mrs. Riley's early struggles were over she planned the farm home for unfortunate children, and presented it to the WCTU, who later worked it out in its present form at Corvallis, where it has proved eminently successful.

Mrs. P. J. Kuntz entertained yesterday afternoon for one of the year's delightful meetings of Chapter G of the PEO Sisterhood. Mrs. Frank Churchill and Mrs. W. W. Moore shared papers for the afternoon. Mrs. Moore dealing with Oregon composers and Mrs. Churchill with music from the instrumental standpoint.

At the tea hour Mrs. A. C. Parr presided at the urn. Mrs. O. E. Price and Mrs. Frank Churchill assisted the hostess in the serving. Golden blossoms of deroncum centered the table, with yellow candles in crystal holders harmonizing with the crystal center bowl of flowers.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache Often Means You Have Not Been Drinking Enough Water.

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delightful effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.—Adv.
