### Repairs Are Made

The phonograph of the McKinley junior high school has been repaired, after being wrecked by vandals who entered the school some weeks ago. Besides damaging the interior of the school building the miscreants dis-

bered the phonograph, which had been purchased by the children of the school, and carried it with them to an old barn near Salem. The police were active in the capture of the vandals and in their capture the motor for the phonograph was recovered.

## Ladies Please Read

In the April issue of the Woman’s Home Companion appears a timely article with some very sensible advice to Ladies who wear glasses. It tells of how clothes and hats can be designed and of how glasses can be made to harmonize with these designs to best advantage.

We are glad to say that we can augment this idea with actual service. We have the latest style book on eye-glass designs, and can make glasses for you which will meet every requirement.

This movement is inaugurated, not with the idea of wearing glasses for style; but with the idea of having your glasses good looking if it is necessary to have them. Do not punish yourself when you have your eyes examined; have your glasses correctly made. May we help you?
