On the south bank of the stream is to be a sand beach and directly back of this a long dressing house with rooms for 100 bathers. On the north shore, near the Twenty-first street bridge, will be a crib for the use of children and inexperienced swimmers. Shower baths for bathers will be provided in a separate building.

If the venture proves a success canoes and row-boats will be purchased and reuted out at the pool. It is possible to navigate a cance up the stream from the swimming hole to a distance of at least a half mile. There are many who would like to enjoy the sport of canoning, but who are afraid to venture out on the Willamette river, and it is expected that if Four Applications Made this innovation is added it will become very popular among this class of patrons. The swimming pool will be

completed before the warm weather arrives.
