Music Week, which will be nationally observed the first week in May, will culminate in Salem in a civic musicale on the night of Tuesday, May 5, in which seven organizations of the city will participate.

In planning for the observance of the occasion it is fitting that many press notices should come to the fore. Among these the following is of interest:

"Today is full of bright promise for the cause of American music," says Mme. Helen Stanley. "We are no longer the Cinderella of music. Europe is beginning to take us seriously, as is evidenced by the reception which is given our artists over there, and by the increasing interest in our American compositions.

"Then, too, foreign artists who come to this country confess that they have the surprise of their lives when they hear our great orchestras, our opera companies, and when they see what intelligent appreciation of music exists in the country.

"Gradually, cities spurred by local pride, are organizing their own orchestras and opera companies. Were one to count the orchestras that are now subsidized by the music lovers of various cities, the list would be surprisingly long. As for opera, that will come. The day is not so far off, when all the big cities will have their companies, and then there will be no need for our American singers to go abroad to get that most valuable and necessary part of a singer's equipment—experience. One can ordinarily understand that the New York and Chicago Opera companies can not risk their reputation by putting untried singers in title roles until they have had experience in playing leading parts. Therefore the apprenticeship in foreign opera houses is a necessity.

"As for myself, I gained my experience in the Royal Opera house of Wuerzburg, Germany. Consequently, when I came back to America, I was a thoroughly refined opera singer."

Mme. Stanley returned to this country to sing leading roles in the Dippel Philadelphia Chicago.
