Sensible Methods of Removing Wrinkles

If crow's feet appear prematurely about the eyes, apply a lotion made by dissolving an ounce of salolite in a half pint of witch hazel. This is the best, quickest and most effective treatment known, as it tends to restore normal conditions. It tightens and strengthens the skin, likewise the underlying tissues, the loosening and softening of which are the cause of a wrinkled condition. It also has a tonic effect, which not only aids in the same direction but, by improving capillary circulation, helps bring a healthy color to the face. The same solution, acting as it does, naturally affects not only every wrinkle and line, but hanging or flabby cheeks and chin, as well. When your face wears a tired expression, bathe it with this refreshing, revitalizing liquid. Ask druggist for powdered salolite. — Adv.

E. B. D.—Am I right in suspecting my husband? Is he keeping company with the woman I have in mind?

J. G. N.—Would it be the right thing for me to do to leave my wife, or tell her what I know to be the truth, and ask her to give up the other man?

L. D.—Should I continue with my music or take up dramatic art?

Ans.—Continue with your music, as I see a good future for you.

C. W. P. Jr.—Will I ever get any dividends from my Utah mining stock?

Ans.—Stick to what you are doing; study hard, and I see success your reward.

Ans.—He is alive and at present living in Melbourne. A letter to his old address there will reach him.

I. C.—Will I enjoy any success as a scenario writer? Do you advise me to go to Hollywood?

Ans.—I do not visualize any success for you. A trip to Hollywood would prove futile.

A. O. W.—Am I going to achieve any success in the undertaking I have planned?

Ans.—I see fair success, with greater following within three years, if you will apply yourself diligently.

F. E. L.—Where is the hammer I lost last week?

Ans.—It is not lost but just misplaced. Look behind the new chicken coop you were building and you will find it.

RULES EXPLAINED BY DEAN ALDEN

Chapel Address Monday Covers Regulations Laid Down by University

In a chapel address given before the Willamette University student body yesterday Dean George H. Alden, acting president of the university, explained the university regulations regarding the use of cigarettes, attendance of dances or pool halls, and the use of intoxicating liquor. He explained that these regulations were laid down by the university authorities and had been approved by the board of trustees and the Methodist Episcopal church, and has consequently it was his duty to enforce them.

He then took up the matter of the manner of enforcement and stated that while a number of students had been called in regarding the abuse of these regulations the information regarding them had not been secured through the stool pigeon system. He stated however that a number of students had been asked to use their influence toward eliminating the more flagrant abuses of the regulations but that these students had not been asked to report violations to the authorities.

The dean stated further that in his inquiries into the matter some students had mentioned a few names but that most of his information regarding violations had come from outside sources.

Dean Alden then went on to say that as these regulations were to be enforced here students who were not in sympathy with them were not those who got along well at Willamette and he thought it would be wise for such students to find another institution next year where such regulations were not enforced.

In discussing the use of student influence regarding the enforcement of regulations Dean Alden said that it would amount to student self-government if the method could be employed by the entire student body and that he would be in favor of a system of self-government at Willamette university.

VALLEY PRUNE POOL CLOSED

Prices Satisfactory; Willamette Association Finishes Twenty-Fifth Season

The Willamette Valley Prune association has just completed its 25th season and on March 30 it closed and settled for its 1924 prune pool at very satisfactory prices.

This association of prune growers was organized through necessity in the year 1900, as practically all prunes were shipped out in bags in original condition. Realizing the need of packing prunes in an attractive manner in 25-pound boxes it used the first steam processor for the processing of the Oregon prunes in the northwest and thus its product was put out under its Phoenician brand in competition with the fancy packs of California. In 1901 it shipped and introduced the first Oregon prunes to the English market, and its Phoenician and other brands have been on the markets of the United Kingdom since that time.

Phoenician brand is the oldest and one of the best known brands of Oregon prunes in the domestic and Canadian markets. The Willamette Valley Prune association has done much to advertise the Oregon prunes in the markets of this country, having exhibited and distributed samples at all the leading exhibitions since its organization. It has also been in the lead in the developing of the markets of the world and its brands are known wherever Oregon prunes have been introduced. The association is now developing the markets of the Orient with dry pack prunes in tin, and we are led to believe that there is going to be a good demand for this package, and it will undoubtedly be necessary to enlarge packing facilities on this particular line.

Its members are among the leading growers of the community many of whom have been using this organization for the marketing of their product since its organization. It has returned to its growers a better average price than any like cooperative organization in the northwest. Its grower members are proud of the reputation it has made and they strive to put out the highest quality product.

B. J. Miles is president of the association and has been connected with the board of directors for the past 20 years. H. S. Poisel and Thomas Noot have also been members of this association for about as long a time, and the late D. M. Crouse was also a director of the association and has been connected with it since its organization.

The settlement of the 1924 pool was made and checks mailed out on the following basis:

Nearly One Half of Amount Needed is Raised in First Day of Drive

At 6 o'clock last night the Kimball College of Theology had raised \$814.50 of the required \$2000 financial drive which started at noon yesterday. The drive is being put on to raise money to meet their current budget for the rest of the year.
