SMUGGLING OF ARMS CHARGED

(Continued from page 1) throughout the country. The civilian population shows eagerness to assist the forces of law and order and Sofia is guarded at night by militia. Although the government, by pegging exchanges has prevented a serious fall in the value of the leva, there is a feeling of nervousness among business men who in some cases are insured against the risk of disorders. It is stated on good authority that the government has succeeded in tracing several of the conspirators implicated in the cathedral outrage. Several of them have been shot and others captured have made such complete avowals that the task of the police in rounding up the remaining conspirators should be comparatively easy. The plotters worked in small groups of from five to 10 men, the respective groups not knowing the identity of the others. It was the work of one group to manufacture explosives, another to carry out assassinations, a third to blow up buildings, the fourth to spread propaganda, and a fifth to bribe persons likely to be useful. All those involved in the plot had been notified that about April 16 a tremendous explosion would be heard in Sofia and it would be the signal for beginning a reign of terror. The cathedral outrage occurred on that date, but as the principal government officials escaped injury the courage of the majority of the conspirators had failed and they did not fulfill the tasks allotted to them.

LEAVELL TWINS NOT FORGOTTEN

Frances and Virginia Are Five Years Old and Live Right Here in City

Twins are proving to be inexhaustible in Marion county, and just as The Statesman reporter believes that surely he has accounted for all of them, another set springs up and demands attention. The latest of these are two little girls, five years old, the daughters of Mr. and Mrs. G. H. Leavell, of Salem. Their names are Frances Culver and Virginia Hester Leavell. Does anyone else know of any more twins in order that the census can be completed and none overlooked?

The Hugar treaty between the United States and Great Britain was to remedy the evil, he said, and, though some arrests had been made which he thought were not quite within the terms of the agreement, the British government had refrained from protesting in view of the nature of the offenses. Regarding trade in opium, he declared it was absurd to say that the Indian government was "actuated by financial considerations." He placed the opium revenue in India at three per cent of the total, amounting to about eight cents per annum per head. He emphasized the Indian opium was very poor in morphine content and for this reason was not used for the manufacture of drugs.

Legion Auxiliary Makes Towels For Hospital Use

SILVERTON, Or., April 22.—(Special to The Statesman).—The American Legion auxiliary held its semi-monthly meeting at its hall Monday night. The auxiliary is now making towels and dresser scarfs for the Silverton hospital rooms. The hospital board furnishes the material to work with. The auxiliary also folded about 1000 gauze pads for the hospital. Besides the work the auxiliary is doing for the local hospital, it is also working on material for Hospital No. 77, at Portland. For the latter they are making tray cloths and hot water bottle covers. A special treat at the Monday evening meeting of the auxiliary was the musical program which lasted about an hour. Mrs. Gertrude Cameron presented her advanced piano students in a recital, and Mrs. Fred Lucht of Mount Angel sang a solo.
