

# LEGION OPENS TWILIGHT LEAGUE BY DEFEATING THE GUARDSMEN 4 TO 0

## BIG CROWD SEES FAST FIVE-INNER

Teams Appear Strong; Bankers and Knights Will Meet on Wednesday

Opening the Twilight League at Oxford park, the American Legion team defeated the Oregon National Guard 4 to 0 in a fast five-inning game last night. A good sized crowd attended the opener.

Hooper, who hurled for the Loggers last year, pitched a good game, striking out nine men. He was given better support than he received last year. Lanke, a very promising youngster, pitched a good game for the Guardsmen, but was handicapped by poor infielding. The Guardsmen have a good aggregation but have had little practice together. A feature of the game was a double play by the Guardsmen in the second inning, blocking an attempt to steal home.

Wednesday night the U. S. National bank team meets the K. C. aggregation.

## GET FINE TROUT

Large Catthroats Are Landed by Coast by Local Fishermen

Sportsmen wishing to see a fine display of Cutthroat trout should stop in front of the Anderson Sporting Goods store, where one of the finest catches of the season is on display. The lucky fishermen to bring in the trout, which measure from 14 to 20 inches in length are Clifford Brown, commander of the American Legion here; Brayman Boise and Clarence Byrd.

The catches were made during the week-end on the Alsea river. The English Red Admiral fly was used, it is claimed.

# Where are the SUPERSTITIONS OF YESTERYEAR?

Superstitions don't last long, especially when it costs money to believe in them.

For example, the majority of Pacific Coast motorists have long since stopped paying tribute to the superstition that there is something mysteriously "better" about "eastern" motor oils merely because they cost more and are made in the East.

### Experience proves superiority of western lubricants

As a matter of fact, the most suitable crude petroleum so far discovered for the manufacture of a motor lubricant is the naphthenic base crude which this company obtains from Pacific Coast wells. And the most advanced refining process is the patented high-vacuum process used exclusively by this company in the manufacture of Zerolene lubricants.

### Zerolene is first choice of western motorists

Zerolene lubricates more cars in the Pacific Coast states than any other oil made. Six out of the seven trophies offered in the 1924 Los Angeles-Camp Curry (Yosemite) Economy Run were won by Zerolene-lubricated cars. The "anti-western" bogie simply doesn't hold up. Zerolene increases gasoline mileage, reduces upkeep, costs and lengthens engine life, in high priced cars and motor trucks alike.

Zerolene will do the same thing for your car. Why pay tribute to a superstition? Insist on Zerolene by name.

### Get the facts!

A series of independent and impartial reports showing the experience of large users with Zerolene has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.
