The numbering on homes and business places has been gone over and straightened out at Silverton. The even numbers have been placed on the right side of the street and the odd numbers on the left. Main street divides the city north and south, and Water street divides it east and west, and numbering starts from these points. In each block 25 feet has been allowed between numbers, so that in the event of a lot splitting there will be a whole number for the added building. In Cowings' addition numbers start from 100 at Water street.
