OBITUARY

Lansing
At the home east of Salem, May 13, Chester Field Lansing, age 75 years. He was the husband of Margaret Lansing, and father of James Lansing of Salem, Mrs. Katherine Robertson of Berlin, Ky., Mrs. Nellie Banta, of Salem, and Mrs. Margaret Pooler of Englewood of Chester, Thomas, and Edna Robertson, Chester and Katherine Banta, and Frederick Banta. Funeral services will be held Friday, May 15, 10:30 from the Rigdon & Son Mortuary, under the auspices of the Elks lodge. Interment will be in the City View cemetery, under Masonic auspices.

Seeley

On Tuesday this week, at his home near Wilsonville, Raymond Seeley passed away. Although a young man, he was well known throughout the state as a successful breeder of thoroughbred Jersey cattle. He leaves a wife, one child besides other relatives and a host of friends to mourn his loss. Funeral at Wilsonville today.

FUNERALS

The funeral of Sister Leah Rich, who died May 11, at the Deaconess hospital, will be held Friday morning, May 15, at 10 a. m. in the Kannonite church of Pratum. Interment in Pratum cemetery. Rigdon mortuary in charge.

GIRLS UNDER 16 BARRED FROM MATINEE

(Continued from page 1)
for me as he says he does?
Ans.—There is no reason why you should unjustly suspicion him.
A. M.—Would I succeed in any other business besides my present one?
Ans.—I don't think that change at this time would be advisable.
S. B. H.—What has become of the woman that borrowed ten dollars? Will I get it?
Ans.—South. No.
C. C. J.—Will you tell me if my husband cares for anyone else besides me and will I have any more children?
Ans.—He is quite true to you. You will have more children.
C. A. J.—Will you please tell me what to do to gain the affections of my wife?
Ans.—Take her out more often and endeavor to make her happy.
E. D. N.—Will my husband regain his health?
Ans.—Yes, but he needs careful watching.
H. J.—Where should we sink the well for oil on my property?
Ans.—If you were to take about three hundred steps directly east of the old well on your property and sink a well there you would discover oil.
M. K. M.—Will I ever receive anything from my personal property in the east?
Ans.—Yes, but not for some time.
H. F.—Will I ever marry?
Ans.—Yes, and possibly with the young man you are now writing to.
B. M.—Where are the lost papers?
Ans.—Your lawyer has them.
E. M.—Will it be advisable for me to take up the proposition offered me?
Ans.—Yes.
A. M. P.—Will my son sell his Idaho farm?
Ans.—Not as soon as he expected.
N. K.—Will my husband come back to me or not?
Ans.—With a little effort on your part, you could bring about an adjustment.
F. M. S.—Will I get a place in Seattle this summer where I can make some money?
Ans.—Yes, I see an opening for you.
H. L. P.—Do you think that my sweetheart is true to me?
Ans.—No; he is just simply kidding you. Seems that one of your standing would be able to recognize that. He's already engaged to Y. T. N. anyway. Didn't he tell you that?
W. J. S.—Will I be happy if I get married?
Ans.—Yes, but think twice before you leap.
E. D.—Will my husband ever stop drinking and living such a rough life, and settle down to business? Does he care for me and will we ever separate?
Ans.—Your husband is not such a bad sort after all. Try and create a different condition. Hold the thought in your mind positively that he will stop drinking and you will find that that thought alone will influence his future. Yes he cares for you.
J. C.—Is there anything one can give a person to make them love or fear you. I mean in case of woman to woman?
Ans.—Tear out this foolish thought entirely from your mind and treat everyone with a kindly feeling. I understand just what you mean, but you would do well to forget about it entirely.
J. N. G.—Will my husband get the position that he has in mind?
Ans.—I believe that he will before so very long.
L. F.—Who has my silverware?
Ans.—Your son-in-law.
J. F. W. A.—Will I get well and strong again?
Ans.—If you will be patient and watch yourself carefully, you will be on the road to recovery. Don't worry.
R. C. C. A.—Can you give me any information about my diamond engagement ring that I lost last winter in Spokane?
Ans.—Better see me in private, as I would not care to give you this information publicly.
G. P. A.—Who will I marry? Will I succeed in my present undertaking?
Ans.—Better forget about marriage if you wish success in this undertaking. You haven't met him as yet.
L. T. A.—Can you locate my brother?
Ans.—Your correct initials are

First Wright Airplane, British Museum's Prize, Inventor, Langley Machine, Smithsonian Official

Orville Wright has confirmed the report that the first heavier than air machine built by himself and his brother Wilbur was to be sent to the Science Museum at South Kensington, London. Defending his action, Wright said he refused to place the priceless relic in the Smithsonian Institute because of the fate of the original Langley plane. The Langley machine, he declares, was taken from the Smithsonian Institution and practically made over before more recent flying tests. Dr. Charles G. Walcott, secretary of the Smithsonian Institution, denies that the Langley plane was rebuilt. The upper photo shows the plane the Wright brothers first flew at Kitty Hawk, N. C. Below it is the original Langley plane. At the bottom at the left is Dr. Walcott and at the right is Orville Wright.

Bits For Breakfast

White coal and white linen—

This is a combination that will keep the Salem district forever white on the commercial map—

For it will lead to white sugar, white starch, white clover, white honey, white eggs, white sheep, white mint, and a white record of general prosperity—

A Gibraltar prosperity, based on distant markets for the diversified and intensified products of our soil, reached through manufacturing and merchandising and packing and jobbing and banking institutions in our towns and cities.

Thus our natural sources of wealth are more diversified than those of any other section, and they will never be exhausted. They will be renewed every year, or increased with the years.

The eyes of the world are being turned towards our water power development. In this respect Oregon is ahead of the world.

Thus our natural sources of wealth are more diversified than those of any other section, and they will never be exhausted. They will be renewed every year, or increased with the years.

V. C. This violates one of my rules as to answering your question. Anyway, you haven't any brother. If you keep having "wild parties" much longer you will be short of a job.

A. K.—My brother H. P. A., age 20, disappeared about five years ago. Is he dead or alive?
Ans.—Yes, he is very much alive. When he left here, he worked his way to the Atlantic coast and is now located in business, but traveling a great deal up and down the coast.

J. N. G.—Will my husband get the position that he has in mind?
Ans.—I believe that he will before so very long.
L. F.—Who has my silverware?
Ans.—Your son-in-law.
J. F. W. A.—Will I get well and strong again?
Ans.—If you will be patient and watch yourself carefully, you will be on the road to recovery. Don't worry.

Ans.—Your correct initials are

In my last Millerettes I promised to tell you more about the "inside" of the department store business as it is revealed to me by the "higher-ups."

There seems to exist nowadays a big quarrel between "Cash" and "Credit." You've heard the CASH side of it for so long that you've wondered why CREDIT did not cry out something in self defense.

Well, here it is—the credit side of the argument. Credit as you know seldom gets credit for the wonderful things it has performed, the most important of which is its power in reducing overhead costs. Exactly opposite of what cash has always claimed.

Every merchant strives to create a large volume of sales for it automatically reduces the selling expense, creates a larger buying power which in turn eventually reaches the ultimate consumer in way of lower retail prices.

Credit as it is handled at Miller's represented a large volume of business last year at a total loss of only one half of one per cent. A negligible quantity! Yet cash stores use this argument above all else as an excuse for bartering at "low prices."

Two Fifths of the World's Business is done on CREDIT. Why?

Watch for the next issue to be published very shortly. Meantime let COMPARISON be the umpire.

Yours truly
NORMA TALMADGE
