Petitions Bear 30,000 Signatures With 19,832 Certified

## MARION COUNTY IS THIRD

Names of 1347 Obtained Here: eeded Revenue Denied State Until the General Election in 1926

Bearing approximately 30,000 signatures, of which 19,832 have been certified, referendum netitions attacking the bus and truck measure passed by the 1925 legis-lature, were filed with the secretary of state Tuesday. The petitions were filed by the Oregon Motor Stage association and the Auto Freight Transportation association.

Multnomah county led in the number of signatures, having 6604. Coos county was second 1675, and Marion county third with 1347. Approximately 9000 signatures were necessary.

Filing of the petitions automatically deprives the state of any additional revenue from increased fees upon automobile stages and trucks until it is referred to the people at the general election n November 1926 unles a special election is called.

In view of the petitions having over-abundance of signatures, no attention will be paid to the 900 requests received by mail from signers to the petition who have changed their minds and ask that their names be stricken from the petitions. The requests for withdrawal, it is understood, were inspired by the county judges and commissioners of the state, who furnished the postal cards for this erendum.

Monday petitions referending in Oregon and California. filed while it is expected that petitions delaying the so-called tithing bill will be filed today. This bill requires all self-supporting departments and commissions to pay 10 per cent of their fees into the general fund of the state. Petitions must be filed by o'clock Thursday afternoon.

### SHEPHERD TRIAL IS SET BACK BY JURY TROUBLE
