

EDUCATOR ADDRESSES SALEM KIWANIS CLUB

ALL MEN CREATED EQUAL IS FALLACY MILLER SAYS Schools of Today Should be Three Track Affairs Contention of Speaker

H. A. Miller, director of student classification and principal of the Grant school, appeared before the Kiwanis club yesterday and explained part of his work in the school system of today.

Mr. Miller contended that the fallacy of all men being created equal was falling into the discard as shown by the research work being carried on among the school children of the United States.

At the present, attention is being paid the dullards of the classes, and nothing done to help the exceptionally bright towards entering a higher grade.

The public school of today should be a tree trunk affair, which would take care of these below normal, the average pupil and the students that are above the average in intelligence.

With the establishment of such a system to care for the weaklings of society and to fit them to an education and a place in the world, democracy would be safeguarded.

Mr. Miller illustrated his talk by several examples of conditions in the Salem schools that had come before his attention.

He was introduced by George Huz, city superintendent of schools.

FRESH FRUITS SHIPPED GOOSEBERRIES STARTED EAST LETTUCE MOVING

Fresh fruits are being moved from the Salem district, the first carload to green gooseberries for eastern shipment left this week from the Hunt cannery.

Several other carloads are planned in the near future. Another carload left from the Pacific Fruit & Produce plant last night while the new Pacific Cannery & Produce company in West Salem started shipping fresh gooseberries Tuesday.

This plant is now ready to receive strawberries. A carload of lettuce from the Labish meadow district was loaded and sent out Tuesday.

This is the forerunner of from six to eight carloads. This industry is in its infancy and there are but 25 acres planted this season.

The acreage will be increased next year.
