Lincoln School "Dads" Will Play Sons Tonight

The fathers and sons of the Lincoln school are to meet in a baseball game this evening on the Lincoln school diamond. This is an annual affair and looked forward to by all concerned. It is a well-known fact that the fathers lose out in the game, because the kids are much better baseball players. Of course there is an exception to this, which the fathers are planning to prove tonight by getting a decisive score.

Thielson claims the Rotary club has several duffers, who can put it all over the Portland players.

JUNIOR TWILIGHT MEN WILL PLAY FOR TITLE

RIVER RATS AND FIELD MICE SEEK CHAMPIONSHIP

Three-Game Series Slated After Misunderstanding Are Smoothed Away

After much discussion and controversy, which included protested games, protested players, and a mix-up in the averages, the Junior Twilight League is finally ready to play off the championship match. A game played three days ago, between the River Rats and the Field Mice, and won by the Rats, was protested by Miller of the Mice. Played off today, the contest was won by the Field Mice who will play Friday afternoon with the Oregon Journals, the first of a three game series to decide the championship of the league.

The cause of many sore arms was learned today, when it was discovered that the boys had been playing on a diamond that was 19 feet too large all around, and the distance the pitchers had been throwing was eight feet too long. This has been remedied, and the field is in fine shape for the championship game.

Batteries: Field Mice—Heath and Benner. River Rats—Lennon, Jones and Baker.

Umpires: R. Bishop and East. Scorekeeper, C. K. Bishop.

Papermakers Endeavor to Make Eagles Scream

The Sundown league will stage a contest tonight on the Oxford Park diamond when the Eagles and the Papermakers vie for honors. POWER LINE WORK IS BEING PUSHED HARD

INSTALLATION TO DAYTON COMPLETED BY JUNE 5

Construction of Central Plant in West Salem Will Begin Immediately

The high-tension transmission line of the Portland Electric Power company between Salem and Newberg will be installed as far as Dayton by June 5. By that time it is expected that juice will be turned on the completed portion of the line ready for customers' use.

In addition, immediate work will be started on the construction of the central distribution plant in West Salem, where several carloads of machinery will be installed.

With the completion of the high-tension transmission line between the two cities, the line will be completed from Vancouver, Wash., to the Mexican border. It will insure service to Salem, which cannot be so easily interrupted, because auxiliary lines from Estacada are in use. With the completed distributing station, another feeder can be brought in to the city and use made of electricity generated in southern Oregon.

It is expected that the work on the distributing center and the transmission line will be completed within a period of three or four months. Every effort is being made to have the work quickly completed.

GROTTO IS SWAMPED BY LEGION PLAYERS

ONE-SIDED SCORE OF 20 TO 0 FEATURES LEAGUE

Losers Weak in Infield and Unsteady at Bat; New Hurier Is Going Strong

The American Legion took a one-sided victory from the Grotto last night by a 20 to 0 score on

the Oxford park diamond. The Legion is going strong and has virtually clinched the championship. One factor contributing to the Legion's success was the newness of the Grotto team. They were weak in the infield, and somewhat unsteady at the bat. As a result they gave a lop-sided score to the contest yesterday.

Jenkins, a new pitcher for the Legion, put across a good game last night and kept the Grotto from hitting too many of the balls. Jackson, for the Grotto team, was a bit unsteady on the plate

and allowed Parker and Gibson to bring in two home runs. However, the Grotto got a three bagger when White went around to third base, when he socked one to center field.

This means that its power-impulses are not sledge-hammer like. Its explosions progress—with a resulting power that is smooth. With Union, your motor starts quickly—accelerates with a swift, vibrationless pick-up—and easily attains an even, gliding speed. If a better gasoline were possible, it would be made by the Union Oil Company. And sold wherever you see the sign "Union Gasoline."
