U. S. S. Shenandoah Ready to Go to Amundsen's Rescue

The navy department is prepared to undertake an expedition for the relief of Roald Amundsen, famous explorer, and those who accompanied him on his arctic quest of the North Pole. An appeal to the navy for help, made either by the government of Norway, which is sponsoring the Amundsen expedition, or some accredited organization or group, would result in the immediate dispatch of the U. S. S. Shenandoah, or its sister ship, the Los Angeles, to the Arctic. Plans made for the relief expedition call for the use of the Shenandoah, shown above.

RADIO TALK ON DRESS SELECTION

By E. Belle Alger

When planning garments one should study requirements of figure types and learn to know which lines are best suited to each. There is little difficulty in planning for the figure of average proportions. We find among people of extreme types a tendency to see their ideal in the opposite type. Mrs. Smith whom we designate as stout is apt to want to copy a design worn by her friend who is tall and slim, thinking that she too will appear to have those proportions. To overcome this falling one should study herself and learn to choose those lines which will accentuate good points and make less conspicuous those which make of one the extreme type that she is. One should be careful not to use this means to cover defects in figure caused by poor posture or carriage, but rather overcome the difficulty by correct exercise and proper attention to carriage.

The human figure is basis of clothing design and the relation of its various principal parts must be recognized. The articulation of these several parts must also be considered when designing clothing if it is to be pleasing and comfortable.

Texture is known as "the characteristic disposition of interwoven threads." It is often used to express the feel of a material such as: soft, stiff, rough, smooth, etc. Many materials combine two or more qualities such as soft and thin like chiffon, or thick and rough like coating.

In designing a dress the texture of material to be used is an important consideration. The following factors enter into the choice of texture: type of dress, figure of wearer, occasion for which dress is being planned, cost of material, age of wearer and combination of textures.

Certain dresses to give us the greatest service must be made of

a material which can be easily cleaned. This requires a certain body and durability.
At the present time figured or patterned materials are so widely used that it behooves one to study them and understand their possibilities. The following suggestions are planned as a guide in the selection of dress materials:

1. Stiff and highly lustrous materials emphasize lines and wrinkles, therefore to be avoided by the older woman.
2. Soft materials are becoming to older faces.
3. For every young children choose materials that are easily cleaned, soft, fine and thin and comfortable to tender skin.
4. For older children provide substantial materials that are easily cleaned.
5. The average figure is not restricted in her choice of textures.
6. Fine dainty materials especially suited to small figures.
7. Patterns with up and down movement add to apparent height.
8. The stronger the contrast of hue, value or chroma the more conspicuous the pattern.
9. Large pattern dwarfs small people.
10. Large pattern increases apparent size of large figures.
11. Avoid combination of two patterned materials.
12. Trim patterned material with plain material as it enhances interest in the patterns.

Stubborn Skin Irritations Healed With Cranberries

The mild acid juice found in Cranberries seems to kill the tiny skin parasite which is the direct cause of Eczema and most skin irritations. With the cause removed, the healing takes place quickly. Cranolene Healing Cream, used externally, is based on this discovery. In this cream the cranberry juices have been combined with soothing, cooling, healing oils. Instantly stops the itching and speedily restores the skin to natural health and color. Cranolene sold by druggists 35c. \$1 and \$2.50 or sent postpaid on receipt of price.
