

JURORS IN LYNN LIBEL CASE UNABLE TO AGREE

REPORT STILL STANDS SEVEN TO FIVE FOR ACQUITTAL

Case Against Arizona Publisher Will Be Tried Again, Judge Says

YUMA, Ariz., June 18.—(By Associated Press.)—A jury which went into secret deliberation at 9 o'clock last night on the trial of George W. Lynn, Yuma publisher, for criminal libel, reported in court at 10:45 a. m., today that not a single one of its members had changed opinions after their first ballot was taken, and was discharged by Superior Judge E. E. Elmo Bollinger. Jurors said they stood seven for acquittal and five for conviction.

The court announced that the case will be sent for retrial sometime in the fall, when another attempt will be made to sift the evidence for and against the state contention that Lynn libeled E. F. Sanguinetti, wealthy Yuma business man, when he printed an editorial in the Yuma Herald concerning alleged dangerous quantities of formaldehyde in milk from Sanguinetti's dairy.

Another criminal libel charge based on an article in Lynn's publication to the effect that Sanguinetti paid proportionately lower taxes than others in Yuma county also will be dealt with in the fall.

The defense today moved a demurrer to the second complaint on the ground that it did not contain cause of action. This was overruled temporarily, the court announcing the defense would be given time to assemble its arguments.

PLEA FOR CONSERVATION OF RESOURCES IS MADE

(Continued from page 1)

on the activities of pocket mice in the Pacific northwest there is being evolved a race of strong, healthy and energetic people that will bring about an industrial development and a civilization of grandeur and magnificence never before noted in the annals of mankind, said Erwin L. Weber, consulting industrial engineer of Seattle, who addressed the American meteorological society at a meeting in connection with the sessions of the Pacific division of the American association for the advancement of science.

This industrial development will not be brought about through any miraculous agencies, said Mr. Weber, but will come through the inevitable laws of nature, the laws of cause and effect, of evolution, of surviving of the fittest, and of adaptation to environment.

More careful study and observation by federal and state agencies of what happens to the vast quantities of fry released by fish hatcheries intended propagation was urged by Dr. J. O. Snyder, head of the zoology department of Stanford university.

Dr. Snyder said that fish egg hatcheries are probably instruments of depletion rather than of conservation because of the inclination to release billions of trout and salmon fry without checking up on the vast quantities of them that die with a view to overcoming such agencies as may be responsible for their destruction.

"The relation of the liberal college to science is primarily not one of aiding in research, but of making the knowledge obtained by research significant in the

Accused in Death of Father's Choice for Her Husband

Dorothy Perkins, 17, is on trial in New York for the alleged murder of her father's choice for her husband. The state contends she killed Templeton because she preferred the attentions of a 35-year-old man. She denies the crime.

thinking young people who are expected to be the leaders of the next generation," was the message of Norman F. Coleman, president of Reed college, in his address of welcome to the delegates.

"The scientists have ordered the universe and made the world a homely place in which to live; they have ruled the belief in evil demons. This is the discovery of truth and the world is heavily indebted to the scientists for it," Mr. Coleman said.

ACCUSED DENTIST SUED

\$115,000 IS ASKED FOR MIS-TREATMENT TO PATIENTS

LOS ANGELES, June 18.—Troubles multiplied today about Dr. Thomas Young, dentist, who is in the county jail awaiting arraignment of an indictment charging him with the murder of his wife, Grace Grogan Young, whose body was recently recovered from beneath the concrete bottom of a cistern where Young told officers he concealed it.

Josephine Brathover, a former patient of the dentist, filed suit for \$115,000 alleging Young broke her jaw last September while extracting a wisdom tooth. Attorney Paul Schenck announced he was preparing suit for \$100,000 damages for Mrs. Elmer E. Mellette, widow of another patient who had died shortly after Young had treated him. An autopsy revealed, the attorney said, the presence of a gold crown in one of Mrs. Mellette's lungs. Finally, officials of the state board of dental examiners admitted that when Young was taken into custody in connection with the death of his wife they had in preparation a citation summoning him to show cause why his license should not be revoked.

Another criminal libel charge based on an article in Lynn's publication to the effect that Sanguinetti paid proportionately lower taxes than others in Yuma county also will be dealt with in the fall.

The defense today moved a demurrer to the second complaint on the ground that it did not contain cause of action. This was overruled temporarily, the court announcing the defense would be given time to assemble its arguments.

FAKE PAPERS SAID USED

CANADIAN LIQUOR VESSELS DECLARED EVADING LAW

VANCOUVER, B. C., June 18.—Report was received here today that Mexican authorities at San Francisco had reported to Ottawa that vessels clearing from this port with liquor cargoes, giving Mexican ports as their destination were operating under spurious papers.

When liquor is shipped from a Canadian port, the carrier puts up a bond for twice the value of the liquor. The bond covers delivery at the destination appearing in the ship's papers. When the vessel returns with certificate that the liquor was delivered properly the bond is cancelled.

It was assumed here that the message to Ottawa alleged that all vessels ostensibly carrying liquor to Mexico were delivering it to points along the American-Pacific coast.

FUR AUCTION HEAVY

SEATTLE, June 18.—(By Associated Press.)—J. E. Atnew, general manager of the Seattle fur exchange announced tonight that \$200,000 worth of skins were sold at the June auction of the company yesterday. Many eastern and Pacific coast fur markets were represented at the auction. There was a very strong demand for beaver, lynx, mink, otter, ermine, fisher, wolf, and all better grades of all classes of foxes.

DRUG CLUB SAID FOUND

PROMINENT SOCIETY WOMEN DECLARED TO BE ADDICTS

SPOKANE, June 18.—Discovery of a drug users' club, located in an apartment house near the Lewis & Clark high school here, and said by the police to have included in its membership several women of some social standing in

Erases Wrinkles in Less Than 15 Minutes

Scientists have at last taken up seriously the problem of removing wrinkles and age lines. Many experiments have been made. The result indicates that the "tackroot method" is the best because it produces immediate results with perfect safety and comfort. It consists merely in spreading over the face a mixture of powdered tarroot, one spoonful, and lemon juice, one spoonful. In your mirror, before your very eyes, you can watch the wrinkles and sagging literally melt away—in less than 15 minutes!

The sensation from this brief treatment is most refreshing. The effect is far better than that produced by the most expert massage. Tarroot is so harmless you could eat it. And the cost per treatment is trifling—less than three cents when purchased in the original package at any drug store.—Adv.

this city, was announced today. Seven women were found in the apartment under the influence of the drug, which made them "silly drunk," the officers said. A day later they were able to talk coherently.

No arrests were made and the women promised to discontinue their use of the stimulant, the officers said.

MANIAC ATTACKS YOUTH

FIEND WIELDS HAMMER ON BOY; INJURIES SERIOUS

SEATTLE, June 18.—Harry Welch, 18, was attacked and seriously injured by an unidentified man who struck at the youth with a hammer as he lay asleep in his home here today.

Welch suffered broken bones in both hands, probable internal injuries and possibly a fractured skull. After inflicting a number of blows the head of the hammer which the fiend was wielding through an open window flew off and struck the wall. This circumstance saved the youth's life, police believe.

C. C. Randall and sons Claude and Ray were Salem visitors yesterday. Their home is at Amity.

WILD LIFE TO BE AIDED

THE PRESERVATION OF GAME BIRDS SOCIETY'S OBJECT

SPOKANE, Wash., June 18.—Resolutions recommending that steps be taken to organize four general groups of states in the east, south, central and west portions of the United States for the purpose of holding annual meetings to work for wild life preservation were adopted at the closing sessions of the Western Outdoor Life conference here late today.

At the annual meetings all the problems applying to wild life in the districts would be discussed and recommendations made for presentation to a national gathering.

The conference urged that congress establish game refuges, for migratory wild fowl throughout the United States and that measures be taken to prohibit "unwise drainage of swamp lands."

The department of agriculture was urged to exercise its authority towards reducing federal bag limits on migratory birds.

Another resolution asked regulations to prohibit "unnecessary slaughter of wild water fowl at present permitted where migratory birds hulk heavily during open season."

MOTHER AND SON FOUND

INSANE WOMAN AND BOY LIVE IN STATE OF WILDNESS

PRINCE RUPERT, B. C., June 18.—After fifteen years of isolation in the wilds of northern British Columbia, a 16-year old youth, 6 feet 4 inches tall and weighing 245 pounds, and a demented woman, his mother, were taken on board a boat for Vancouver. The boy will be placed in the provincial industrial home and the woman in a mental hospital.

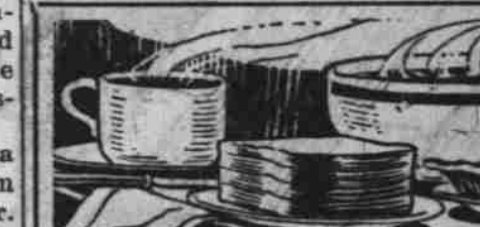

The two had been living in a hut in the forest eight miles from Vanarsdol on the Skeena river. The boy had grown up practically wild. His mother kept him dressed in woman's clothing and led him about by the hand.

When the boy saw a train for the first time at Vanarsdol he crawled aboard. He had no idea what a banana was and did not

know what to do with it when given one.

CLUB LEADER NAMED

PORT ANGELES, Wash., June 18.—Mrs. H. E. Maltby, Seattle, was elected president of the Washington state federation of women's clubs at sessions of the organization's twenty-ninth annual convention here today.
