

STATESMAN'S SATURDAY MORNING MARKET PAGE FOR BUSY HOUSEHOLDS

The June Wedding Breakfast

Happy is the bride who has as joyful and sunny a day in June for her wedding today as is today. She is usually so busy in advance, planning her trousseau and attending the showers in her honor, and no doubt selecting the furnishings for her new home—she is scarcely aware that the wedding breakfast, too, needs careful planning—in fact most brides leave that entirely to mother knowing she will plan just the very nicest possible menu—and every detail will be complete.

It takes much careful planning and discrimination to prepare and serve the refreshments which are to follow the wedding. Next to choosing the guests, which are to gather for the ceremony, and which of course are the nearest and dearest, and after the hour of the wedding is decided upon, the next consideration is the type of hospitality to be offered to one's friends.

The simplest collations are those served as early morning breakfasts at nine, nine-thirty or ten, and by the way, the summer wedding in a truly hot climate is an easier affair to sponsor if the details of the cooking and serving can be disposed of at an early hour.

To decorate for the early wedding breakfast, there are all the lovely spring and summer flowers from which to select the color scheme. The pastel shades and tints of cherry, plum and apple blossoms add a charming touch among white flowers for such a feast.

And what does one serve at the early wedding breakfast? For the very early wedding feast one serves an honest to goodness breakfast. It is not necessary even to have brides cake, bon bons and nuts—all seem to be out of keeping, yet with those serving the wedding breakfast, it need not lack in festive or bridal atmosphere.

- RECIPES
Veal Birds
Choose thin pieces of veal steaks cut two by four inches. Spread with bread stuffing and roll. Fasten with toothpicks and follow directions for mock duck as follows: Dredge with flour and season. Sear in fat until a golden brown. Place in a baking dish and add water or milk to half cover. Cover pan and bake in a moderate oven, (300 degrees F.) for an hour.

- Bread Stuffing
4 cups soft bread crumbs
Salt Pepper
1/2 level tsp. Calumet Baking Powder
1 cup chopped onion
Sage or other herb
1/2 cup melted fat Water

- Corn Oysters
1-3 cup corn 1/2 t. salt
1-3 c bread crumbs 1-8 t. pepper
1 well beaten egg 1/2 t. sugar
Mix the corn, egg, bread crumbs, salt, pepper and sugar. Shape into cakes two inches in diameter and one-half an inch thick. Griddle a griddle or a frying pan thoroughly, and when very hot, place fritters on the pan. When brown on one side, turn over onto the other side. Serve hot, plain or with syrup.

- Rhubarb Puffs
Use one cupful of flour, one teaspoonful of baking powder, one-fourth teaspoonful of salt, one-fourth cupful of sugar, one-half cupful of milk, one tablespoonful of melted butter, one egg (beaten), rhubarb sauce. Combine all the ingredients, except the rhubarb in the order given, and beat the mixture until it is smooth. Grease individual molds or cups, and into each put three tablespoonfuls of rhubarb sauce and then one tablespoonful of the batter. Steam the puffs for 20 minutes, and serve them warm with cream and sugar or with foamy sauce.

- THINGS TO REMEMBER
Before washing cotton stockings put a handful of common salt in the washing water. This will set the dye.
Candles will burn better and more slowly if they are stored in a dry place six or seven weeks before they are to be used.
To remove axle grease apply lard to spot, and wash in warm, soapy water. If in silk, place a pad underneath spot and sponge with chloroform until soil is removed.
To improve the flavor of currants and raisins in puddings and cakes, place them in a bowl, pour boiling water over them and leave to soak over night. Drain and fry in oven before adding to other ingredients.
Cloth that has become mildewed can be restored by putting lemon juice on spots and exposing to strong sunshine.
A new spool of cotton will often tangle when used on the sewing machine. Cut a piece of cloth larger than the spool and put on the post under the spool. It will keep it steady.
When polishing furniture rub the same way as the grain. The

- When polishing furniture rub the same way as the grain. The furniture will get bright more quickly.
To remove tar or grease marks from the most delicate fabrics soak a piece of white rag in eucalyptus oil and rub it on the affected part until the latter is quite clean.
Save the broom handles. They will come in handy for moving heavy furniture and trunks. Two handles act as rollers.
One tsp. of cornstarch added to 6 tps. of salt will prevent lumping of salt in shakers.
If the ends of paraffin candles are kept and melted they can be used to saturate dustcloths.

- CHILLED HAM MOLD
1 pt. finely ground lean cold boiled ham.
3 small minced pickles.
Paprika to taste.
2 hard cooked eggs chopped.
1 minced pimiento.
Salt.
Mix all ingredients thoroughly. Remove all fat from the ham stock, strain and add just enough of the stock to hold the ingredients together. Turn into any kind of mold which can have a weight placed upon it. Let stand overnight. Turn onto a platter, surround with watercress and serve with a sauce made by mixing two-thirds of a cup of tomato catsup and one-third of a cup of horse-radish sauce.
COMMENCEMENT SALAD
1 lb. red cherries
1 pt. strawberries
1 c. shredded pineapple.
2 sprays mint
Meringue dressing
Pistachio nuts
Pit and drain the cherries. Slice the strawberries. Cut the mint in small pieces. Combine the ingredients and chill. Just before serving, sprinkle with powdered sugar and shake lightly. On each serving put meringue salad dressing and sprinkle with finely chopped nuts. Garnish with strawberry leaves.
DEVIL'S FOOD DELIGHT
Between two medium thick slices of plain unfrosted toast place a slice of vanilla ice cream. Over all pour hot fudge chocolate sauce and sprinkle lightly with chopped roasted almonds.
FRUIT PUNCH
1 cup shredded pineapple
1 cup sliced orange
1 cup strawberries cut in halves
1 cup sugar
1/2 cup water
Boil sugar and water five minutes. Add ginger and, when cold, pour over fruit. Let stand in a cold place one hour. Garnish with tiny strips of candied citron.

ARTILLERYMEN ACTIVE AT CALIFORNIA FORT
POST ASSIGNMENTS MADE AND READY TO PRACTICE
Greatest Difficulty Is in Getting Men for Tugs Because of Seasickness

FORT BARRY, Cal., June 16.—(Special to The Statesman.)—All preparations are now complete for the annual two weeks of target practice with the large coast defense guns engaged in by the Oregon coast artillery. The two Salem detachments are now assigned to their respective work, the headquarters detachment to handle the lines of communications and to man the observation posts and the medical corps to care for the health of the entire camp.

The batteries are now assigned to their respective guns and are getting ready for the final work of shooting the service ammunition. Batteries A and B, from Ashland and Albany, will handle the 12-inch disappearing rifles and batteries C and D, from Marshfield and Newport, will man the lighter 6-inch guns.

The daily program has been arranged for the companies and includes infantry drill, as well as practice on the big guns. The first call comes at 5:45 in the morning at which time the men get up and report for some calisthenics before breakfast. After the morning meal the men go to their respective posts and report for duty, which consists of artill-

ery and telephone drill. Later the practice will be the regular work of firing the guns. Noon mess call comes at 12:15 and the men report for duty again at 1 o'clock. The afternoon program consists of artillery or infantry drill. Athletics will be a feature of the afternoon's work later in the encampment.

A number of interesting contests are to be held, including the customary equipment races and other stunts. A feature of these contests, however, will be the relay race between Fort Baker and Fort Barry, a distance of about five miles over the course that is to be run. Each team will be composed of 10 men and the winning team will be awarded a silver cup, which is to go to the company they represent.

One of the most interesting features of the encampment will be the manning of the tug Barret, which is to tow the target for the big guns to practice on. A number of the Oregon guardsmen will be required for this service and the majority of them will be taken from the Salem headquarters company. Considerable seasickness usually results on the first day out, until those who are not subject to this illness are finally discovered and placed on board. In fact it is the usual custom to send out about twice the number of men needed the first day and to send out lunch enough for half of them.

After the first confusion of getting organized, everything is now going smoothly and the encampment is expected to be one of the most successful held by the Oregon men.
