DISPUTE LEADS TO DEATH

INDIAN FATALLY WOUNDED FOLLOWING ARGUMENT

BONNERS FERRY, Idaho, June 23.—Charlie David, Kootenai Indian, was shot and killed about four miles south of here last night, presumably as the outcome of a dispute with Peter Andrew, fellow tribesman, as to who should drive the car which they owned in common. David was shot through the heart with a 22-caliber rifle, and died almost instantly.

A party including several other Indians in addition to David and Andrew was en route to Sand Point when the dispute arose. Andrew disappeared after the shooting and is being pursued in the timber by Sheriff Washburn and deputies.

VETERAN SESSION OPENS

MANY SUBJECTS DISCUSSED AT FIFTH CONVENTION

OMAHA, Neb., June 23.—(By the Associated Press.)—With formal exchange of greetings over with, delegates to the fifth annual convention of the disabled American Veterans of the World War started preparation for strenuous sessions in discussions of relationship with the veterans' bureau on compensation, hospitalization, rehabilitation, insurance and with congress on legislation.

National Commander Frank J. Irwin sounded the keynote of the convention in his annual report today when he expressed himself as partially satisfied with the past year's results, largely through the compilation of a new schedule of compensation ratings whereby both the pre-war vocation of the veteran and his present disability are considered in arriving at his compensation degree. However, he urged the veterans to make a stand against the proposed merger of the veterans' bureau in the department of education and relief.

NORTH MYSTERY SOLVED

REMAINS OF MISSING EXPLORERS FOUND BY TRAVELER

NEW YORK, June 23—(By The Associated Press)—Another mystery of the polar regions was solved today when H. A. Snow, big game hunter and explorer, just returned from a two year's photographic exploration of the Arctic regions announced the discovery of the remains of missing members of Vilhjalmar Stefanson's north pole expedition of 1914, on Herald Island.

Snow's discovery clearns up the old 11 year mystery of the fate of the five members of the crew, one of the two parties in which the expedition was divided, who quit the ice locked and sinking "Karluk," and started out on the long trek back to civilization.

The first party, led by Stefanssons completed the long journey after terrific hardships. The other party, led by the ship's doctor, never was heard from.
