FRUIT UNION IS GIVEN

PLANT CHANGES OWNERS TO SATISFY JUDGMENT

The old Salem Fruit Union plant was turned over to the Northwest Fruit Products company yesterday to be applied on a judgment for \$110,243.19 against the fruit union secured by the Phez company some time ago. The valuation of the plant was placed at \$35,000.

It is stated that the plant is not worth in excess of \$25,000, and is really the only available asset of the union, as well as the only settlement on the Phez company's

JUDGMENT THAT IS LIABLE TO BE MADE

Judge Kelly, at the same time he issued the order to deliver the plant to the Phez company, confirmed the sale of the fruit union plant to W. C. Winslow for \$5009. It is understood that this sale was made to protect attorneys on their fees.

ARMORY FUNDS PROVIDED

WORK ON NEW SILVERTON BUILDING STARTS SOON

Funds for the erection of a new armory at Silverton have been collected by Charles Reynolds, finance officer for the Silverton post of the American Legion, and bids for the construction of the building will be opened on July 20. It is hoped that the armory will be completed some time this summer.

The state has appropriated \$10,000 toward the building fund, and Silverton and the county have each appropriated an equal sum. The armory will be used for general drill purposes by Company L of Silverton, and also as a club room for the American Legion post, and as headquarters for the American Legion auxiliary.

What a fine world this would be if people would spend as much energy practicing their religion as they spend quarreling about it.

SPORTS DONE BROWN

From April 15 to June 23 without a defeat. That is the remarkable pitching record of Sammy Gray, rookie pitching ace of Connie Mack's surprising Athletics.

Now wait! You'll say, of course, that an injury which kept him out of the game a few weeks helped him to continue that long with a clean record. But consider this: He had won eight straight games before he was forced out of the game. And recent records failed to give several veteran hurlers, of much greater reputations as many victories over the same length of time, with no time out for injuries or illness. When Gray returned he won another game before the unplunging Washington team defeated him.

That boy has a record of which he may well be proud. That defeat dropped to a tie—temporarily, at least—with one other pitcher for the honor of leading the league in percentage of games won. That man was not a rookie, but an aged vet, one of the two or three spitball pitchers remaining in baseball—Stanley Coveleskie.

Which shows, after all, that youth and age sometimes do not enter it at all—that skill is a matter of brain and courage.

Georges Carpentier is being urged to come to the United States once more to meet Young Stribling in the south. If Georges is wise he'll demand a referee who guesses only once and an agreement that all the home boys leave their runs outside.

The Cub bosses believe that George Gibson, ex-big league pilot and catcher, has already begun to deliver the ivory that he was sent out to collect when the Cubs began to grow gaunt and run

from the other National league clubs.

The other day Gibson sent to the Cub fold one Art Jahn, outfielder and singer of the Flint club of the Michigan-Ontario league. After first appearances considered, Mr. Jahn seems to be a likely looking prospect. If he doesn't prove to be ready for immediate use.

Jahn has had but two years experience in pro ball. His hitting has been remarkable, even in a minor circuit. He hit for a .385 average up to his departure from Flint and had collected 28 extra base hits, eight good for home runs, 10 for triples and 10 for doubles.

The Cardinals and one or two other big league clubs are bidding for George Boehler, star pitcher of the Oakland Pacific coast league club. The fact that he was once with the Pirates and Tigers isn't held against him.

The other day the Boston Red Sox decided to break a losing streak after going through nine games without tasting victory. And who do you think they picked on—the Yankees!

Which is as it should be, after all, in the minds of the Red Sox fans. While Harry Graze owned the Hub team and was under obligation to the Yankee pilots, the Boston outfit served as a farm for what New York couldn't use in the way of ball players.

A movement is spreading on the part of golf clubs to limit the tournament activities of their professionals to a certain number of days or weeks a year. "We said that those who pay the club dues are getting tired of correspondence lessons.

NON-PARTISANS TO MEET

PLAN IS MADE FOR CONVENTION TO NAME SENATORS

BISMARCK, N. D., July 7.—(By Associated Press.)—Tentative arrangements for a non-partisan league convention to be held in Bismarck July 22 to name a candidate for the unexpired term of the late United States Senator E. F. Ladd, were agreed upon at a gathering of league leaders here today at the call of Roy Frazier, chairman of the republican state central committee.

Frazier who is also a member of the non-partisan executive committee, earlier in the month sent out a call for a non-partisan convention which was repudiated by the other two members of the committee. Ole Knutson of Grand Forks, chairman, and S. S. McDonald of Bismarck.

Today's convolve adopted a resolution demanding that the non-partisan executive body issue call for a league convention to be held not later than July 24.

Informed of the action of the meeting which was attended by nearly 50 league leaders, McDonald appeared before the gathering and announced he would not oppose the calling of a league convention.

DEATH HELD ACCIDENT

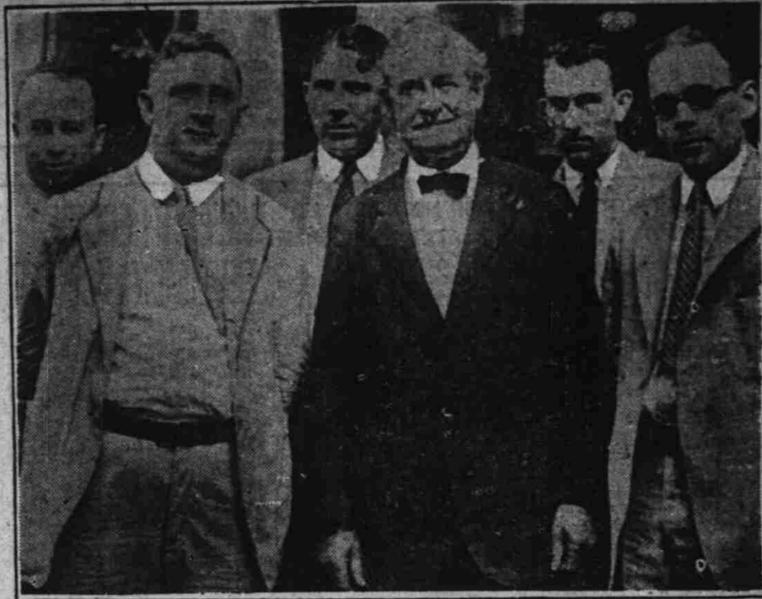

WEST SALEM BOY ATTEMPTED TO SWIM RIVER, THEORY

Frank A. Barrett, 15-year-old West Salem youth, whose body was found on a sandbar in the Willamette river Saturday, is believed to have met death in an attempt to swim the river from a point nearly opposite his home, according to an investigation of the drowning made by Sheriff Boyce and Hooker, District Attorney Helgeson and Deputy Sheriff Burkhardt.

According to testimony of Frank Lindsay, a companion, Barrett had made some purchases at the Ward K. Richardson store, on the east side of the river, these being edible and in small quantities. It is believed that the dead youth ate these, then placed his clothing on a plank and attempted to swim the river to save a trip of several miles by way of the bridge, as was a practice.

Explanation of finding the body face down on the gravel bar was made by the investigators in the theory that he had been seized by cramps and was unable to reach

retly upon revealed religion, that is, the christian religion, he asserted. "We have no knowledge of it outside the bible, which christians regard as the revealed will of God. It gives us our only conception of God and our only knowledge of Christ.

"Anything that attacks the bible attacks revealed religion. A successful attack would destroy the bible and with it revealed religion.

"The contest between evolution and christianity is a duel to the death. This trial is going to give information or the means of bringing out information by which this controversy would be decided.

"If evolution wins, christianity goes—not suddenly, of course, but gradually—for the two cannot stand together. They are as antagonistic as light and darkness; as antagonistic as good and evil."

Christians, he said, believing that "revealed religion offers mankind the only abiding truth, will

DRAINAGE MEET CALLED

ELECTION OF DIRECTORS TO BE HELD JULY 29

A meeting of the stockholders of the proposed new Salem drainage district, has been arranged for Wednesday, July 29, at 2 o'clock in the Richmond school house. Three directors will be elected at the meeting to organize the district.

Approximately 1500 landowners were represented on the petition for the drainage district. The fact that many of them own more than one tract of land in the district, however, brings the individual owners of land in the district down to somewhere around 800.

It is expected that while some of these owners may not attend the meeting for various reasons, a good majority of them will be there.

JAPANESE TEST BOMBS

TOKYO—A three-day air-bombing exercise recently was held over Tsurudo, a suburb of Kanagawa. Two planes were employed each carrying 32 bombs weighing 300 to 400 pounds.

The object of the exercise was to study various relations between the reaching point of bombs thrown from airplanes, and the speed as well as direction of the winds, also to improve bomb throwing devices aboard flying machines.
