POINTS OF HONOR, by Thomas Boyd. Published by Charles Scribner's Sons, New York. Price \$2.00 net.

A writer of war literature who is dependable in his interpretations is Thomas Boyd. You may safely put Boyd's "Points of Honor" in the hands of any ex-soldier who has seen the thing first-hand and he'll have no occasion to decry the gloss—for the gloss isn't there.

Each of these stories, separate, though dealing with the same group of characters, is a stark affair that goes where it sets out to go and then stops; says what it starts out to say, and is silent. In many cases the end seems unnecessarily abrupt. We said so to an ex-service man who had been reading the book with a keen appreciation of its worth.

"Great Scott," he exclaimed. "That's the way it happened 'over there.' Everything was abrupt and without warning." Boyd writes graphically with no unnecessary parading of words. Words are sheer implements with him, and the result is clean-cut and good to possess.

ETHAN QUEST, by Harry Hervey. Published by Cosmopolitan Book Corporation. Price \$2.00 net.

Harry Hervey does unaccountably wonderful things with his words. They glow, they gleam, they run, they carve, they effervesce, and are iridescent to the core. Hervey deals with the fluorescent interior of a dreamer's questing soul. He writes romance like romance is lived—colorful, aromatic, full of liquid motion.

Through it all he carries a universal figure. Ethan Quest is one who could never learn that it is often a deceptive glare that enchants far hills and white-caps. He wanted life dressed-over more than life can be. What he had he forsook; and what he found, was only for the forsaking. In the end, hidden motives, circumstances, grave, glorious and forlorn, made up his train of living.

Page after page has the naive abandon of a well-kept diary depicting an introvert's inevitable adventures. "Ethan Quest" is the kind of a book that one wants to read bodily, and then again bit by bit, the second time for the perfect delectation of it.

MINNIE FLYNN, by Frances Marion. Published by Bantam and Liveright, New York. Price \$2 net.

A book that promises insight to the moving picture world is, with that fact, assured of its sale. When the volume is of such authenticity as Miss Marion's "Minnie Flynn," the reader understands he is delving liberally into graphic biography and reads it as such.

Perhaps, the real reason a book such as "Minnie Flynn," written in the spirit of the times, is so in demand is that the actress, in the most unique way in the world, represents us at one time or other in every mood we know. In reading about her we think we are reading about ourselves, or, at least, about all the personages she has depicted on the screen.

"Minnie Flynn" becomes a composite personality, and like an orchestra, is sure to contain, for a time, a favorite instrument. The instrument on which Miss Marion does her best playing is that of the great human reactions in a girl's life. An in Miss Flynn's instance, Miss Marion plays her crescendo and diminuendo in telling notes. Frances Marion will be remembered as the successful scenario writer and popular film editor who wrote the screen version of "Abraham Lincoln" which the American Association of University Women sponsored at one
