

Pictures Belie Wild Accounts of Santa Barbara Damage

Early accounts of huge damage done to Santa Barbara, Calif., by the earthquake are shown to be exaggerated by these photos, taken after the excitement had subsided. They show the condition of the city from an airplane the injury is scarcely visible, most of the buildings damaged were old ones. - State street is seen from two angles.

WALTER P. CHRYSLER'S TRAFFIC TALKS. The United States Bureau of the Census has just printed a graphical representation of fatal automobile accidents which shows that Mississippi with an estimated population of 1,709,618 on July 1, 1923, had 78 fatal automobile accidents during that same year, which is 4.4 automobile fatalities per 100,000 population. That is the best record of any state for that year. California with a population of 3,805,153 had 1,239 fatal accidents (New York had 1,930 and Pennsylvania 1,592) which is 32.6 fatalities per 100,000 population, the highest record of any state. Under the head of automobile fatalities per 100,000 population in cities of registration states—states reporting to the Department of Commerce with a population of 623,675 in its cities and 84 accidents, or 13.5 per 100,000 population, had the best record of any state. Wyoming, with 30,314 in its cities, and 19 accidents, had the highest record of fatalities, or 62.7 per 100,000. Under the head of automobile fatalities per 100,000 population in rural districts of registration states, Tennessee with 1,913,231 of its population in rural districts, had 58 fatal accidents, or 3 per 100,000 population. This is the best record of any state. California with 1,600,081 in its rural districts had 618 accidents, or 38.6 per 100,000. Right here it is interesting to note that the best record in the cities is 13.5 per 100,000 population, and in the rural districts 3.0 per 100,000. The high record for cities is 62.7 per 100,000, while the high record for rural districts is 38.6 per 100,000.

the quality of the tire costs less in the end. Clark & Vincent, 600 North Capitol Street, Salem, Oregon. Time tells buy C&V. CLARK & VINCENT 600 North Capitol Street Salem, Oregon. serve you well.

Rickenbacker Announcing Sensational Price Reductions and New Models in the "Vertical-8-Superfine" \$200!—\$400!—\$600! NOW COMES within your reach, in price—as it has long been in your dreams of possessing—a Rickenbacker "Vertical-8-Superfine." IT HAS LONG been our ambition to do this—but until now impossible. TWO FACTORS render it feasible. First, design has been standardized, and second, we are now in volume production. CAR HAS BEEN thoroughly proven in every day, every-where service. MOTOR HAS BEEN enlarged so as to afford a still greater surplus of power and speed. DESIGN, CONSTRUCTION—every detail—has been proved and confirmed; so that now, we are certain this chassis will remain standard for the next ten years, at least. IN MANY VITAL FEATURES this "Vertical-8-Superfine" is years—yes, years—in advance of the times. IN THE REFINING PROCESS we were able to make several parts interchangeable with the Six, thus effecting many economies and rendering both types easier to service. HAVING REACHED THAT POINT, we are now in production in volume, on this model as well as the Six. THESE GREAT PRICE REDUCTIONS are just in line with the Rickenbacker policy to give the buyer full benefit of any saving we can effect in production, without reducing quality. THE NEW SERIES ("8-B") is refined to the last degree. MOTOR IS LARGER; cylinder bore now 3 1/4 in.—same as in the Six. AS PREVIOUSLY STATED, many important parts, such as pistons, valves, connecting rods, etc., of these two models are now interchangeable. THAT'S A TREMENDOUS ADVANTAGE to dealers in servicing, and to users in lower cost of upkeep—also enables us to manufacture to better advantage. SAME RULE APPLIES to many chassis parts—all of which is to your advantage. IT IS THIS COMBINATION of factors which makes the lower prices possible on this new series "Vertical-8." PRICES OF NEW MODELS are as follows: Phaeton \$2195, Brougham \$2395, 3-Pass. Coupe, New Body Design \$2995, Sedan \$2795. HERE IS THE WORLD'S GREATEST buy in a motor car of the finest type. REMEMBER, THIS CHASSIS is identical in every respect, with that in which Captain Rickenbacker paced the 500-mile race on Indianapolis Speedway, Decoration Day, at 87 miles per hour. HERE IS power plus. Here is super-speed—and wonderful sweetness. AMAZING ACCELERATION—matchless hill-ability—and equally rapid, equally smooth de-aceleration, thanks to the splendid wheel brakes. AND YET—this Rickenbacker "Vertical-8-Superfine" is priced \$2,000 to \$3,000 less than the only other "8" that compares with it in quality or performance. DRIVE THIS "Vertical-8-Superfine" yourself—experience the "new thrill" in motoring. F. W. Pettyjohn Co. 365 North Commercial—Salem, Oregon.
