

HEALTH STAFF IS BUSY

MANY COUNTY CLINICS HELD DURING PAST WEEK

The staff of the Marion county Child Health Demonstration report a busy week just ended. During the week clinics were held at Silver Creek Falls, Looney, Willard and Salem. A total of 122 children were examined at the various clinics during the week. Of this number 20 were members of the Salem summer school. Monday the regular clinic was held in Salem, on Tuesday a clinic was held at Looney where 23 children were examined. The staff for this clinic was composed of Miss Marguerite Looney, Mrs. J. F. Hochpaier and Mrs. F. R. Simpson.

On Wednesday a clinic was held at Silver Creek Falls where 44 children were examined. Mrs. O. P. Harris and Mrs. Schufless, being in charge.

Thursday was given over to the examination of Salem school children. Friday a clinic was held at Willard, where 35 children were examined. The committee in charge of the clinic was, Mrs. Helen B. Padgett, Mrs. J. C. Currie, and Mrs. Smith.

On Tuesday of this week a clinic will be held at Pratum.

RAIL SURVEY IS MADE

TENTATIVE ROUTE OF RAILWAY PROJECT OUTLINED

KLAMATH FALLS, July 18.—Preliminary survey work, which must be accomplished before a final survey is adopted, was started this week by a crew of the Oregon California Eastern railroad from Lakeview, west toward Drews valley, according to work received here today.

The work is in charge of E. S. Clark who conducted the recent survey through the Main country on the proposed Modoc northern route.

Starting Monday from a point near the Nevada California and Oregon railway depot in Lakeview the survey party proceeded west and a little by south. By Wednesday a tentative survey line had been run five miles west of Lakeview at a point three quarters of a mile south of the W. D. Smith ranch.

Report has it that the survey will proceed to Drews valley along a route just north of the Drews dam reservoir. Lack of a steep grade between Lakeview and Drews valley is said to be the cause of the survey line being located in this direction.

After the preliminary surveys are made N. H. Bogue, chief engineer for the Strahorn lines, will make the final selection of a route.

TRIBE ADOPTS GOVERNOR

MRS. ROSS MADE "PRINCESS" BY SIOUX INDIANS

CHEYENNE, Wyo., July 18.—Spokesmen for the 200 Sioux Indians assembled here for the frontier day celebration, announced the intention of the tribe to make Charles G. Dawes, vice president, a chief, and Governor Nellie T. Ross a "princess" today.

The titles will be conferred with full tribal rites, providing Mr. Dawes and Governor Ross accept invitations to join the tribe. The place and time of the ceremonies will be determined to suit their convenience.

Governor Ross is attending the Wyoming national guard camp at Poie Mountain reservation and has not yet been informed of the honor the Indians seek to confer upon her. The vice president will arrive here Thursday night.

This is probably the first time the Sioux Indians have offered to confer this honor upon "pale faces."

Oldest Woman Overseas Worker Attends Meeting

Mrs. Laura Belle Wood Galier Blanchard, New York City, 74, was the oldest American woman worker to serve overseas in the late war. She has been confined to her home since her return, but attended the convention of the Overseas Service League in New York City.

FIVE OF THE PRINCIPAL MEMBERS OF THE ALL-STAR COMPANY THAT WILL PRESENT SHERIDAN'S COMEDY, "THE RIVALS," AT GRAND THEATER

JAMES T. POWERS as Bob Acres

MRS. FISKE as Mrs. Malaprop

CHAUNCEY OLCOTT as Sir Lucius O'Trigger

LOTUS ROBB as Lydia Languish

THOMAS A. WISE as Sir Anthony Absolute

GOSLIN STAGES RIOT

WASHINGTON PLAYER BANISHED AFTER FRACAS

CLEVELAND, July 18.—(By Associated Press.)—Washington defeated Cleveland here today 19 to 6, making 24 hits off of three pitchers, one of whom was Byron Speece, obtained from Washington.

A disturbance occurred in the sixth inning when Goslin of Washington, thinking Pitcher Bert Cole of the Indians had tried to hit him with a bean ball, strode towards the pitching box with his bat raised. Umpire Tom Connolly pulled him back.

Later Goslin grounded to Burns and Cole covered first. Goslin jumped on Cole's legs as he reached the bag, cutting one of them. Cole rushed at Goslin and the two were separated by Umpire Evans. Goslin was banished from the game. As he walked to the bench he was the target for pop bottles thrown by the fans. A sack of peanuts struck him in the face.

TWO SEEKING DIVORCE

SALEM MAN AND WOMAN ARE ANXIOUS FOR LIBERTY

Two divorce actions were filed in circuit court yesterday. In both cases the marriages took place in Salem. Margaret A. Bates is seeking a divorce from Arthur C. Bates, charging that during their married life her husband has nagged and scolded her, and sometimes struck her. They were married here in November, 1924. Mrs. Bates wishes her maiden name of Margaret Gardner restored to her, and wants a one-third undivided interest in the property.

Clarence F. Higbee has filed action against his wife, Virginia Higbee, alleging desertion in May, 1924. They were married in Salem in October, 1912. Higbee asks the custody of two small children.

LIME SHIPMENT ARRIVES

FIRST NATIONAL BANK RECEIVES 40-TON CARLOAD

A 40-ton car of agricultural lime has just been received by the First National bank of Salem from the state plant at Gold Hill, Or.

Much of the land near Salem is in need of lime to correct the acidity of the soil. The state plant supplies this lime at cost, but it has been necessary to buy in car lots. The shipment just received by the bank is for distribution among the farmers without any additional charge for the service rendered by the bank.

This will be a great convenience as it will permit the lime to be taken in smaller lots. Those that have used lime on their fields are loud in praise of the results, and many, especially in the Waldo Hill district, are now raising immense crops of clover and other legumes on ground that was formerly considered impossible to grow clover on. The lime is now in the warehouse owned by Dan J. Fry.

Bits For Breakfast

Salem keeps on building—Putting up a dwelling house a day, including Sundays.

Speed up the linen mill development, organize a beet sugar factory, and get a fair start in a few other lines out of many that ought to be pushed, and there will be need in Salem for two new dwellings a day.

A lady suggests to the Bits for Breakfast man that the last number at the band concerts ought to be a community sing. The idea is passed on. It is worth thinking about, to say the least.

There are over 15,000 Canadian women actively engaged in the industry of agriculture. Of this number only 1195 are native born. This is probably a larger percentage than is found in the United States.

Some one, the other day, was bragging about a woman having so many great grandchildren. Mrs. T. A. Ratcliff, on route 5, box 42, Salem, has nine great grandchildren. And she will not be 79 till September 7.

Talking about passing on ideas, this is attributed to Abraham Lincoln: If a man trades a dollar with another man, each has still a dollar; but if he trades an idea, each has two ideas.

Edward Bok, in his new book, "Twice Thirty," gives the history of the \$100,000 peace award. But he says it was led up to by a series of awards which he undertook to organize in Philadelphia after his retiring from active business. The first was a forum, for bringing high class lecturers and entertainments. It is one of the most successful in the world, growing with each year. The next was a \$10,000 annual award to the Philadelphia citizen doing the most or the best thing for his or her city; a sort of Philadelphia Nobel prize. The next was an annual award to policemen and firemen doing the most outstanding piece of work during the year. Another was an award for the best piece of advertising each year; the advertising to be based on truth; it is a sort of Pulitzer prize for the city of Philadelphia. Is there not a suggestion, or perhaps two or three suggestions, for Salem out of this list?

The improvement of the important roads of the country pays for itself in a remarkably short time, according to the bureau of public roads of the United States department of agriculture. Data collected in a survey of highway transportation in Maine indicate that on the basis of present traffic the 300 miles of most heavily traveled road in the state could be improved from an earth-road condition to a high-type pavement at a cost, with interest at four per cent, which could be repaid by the savings in operating costs of passenger cars only in slightly more than four years. The actual saving would be even greater than this. Records show that traffic on the Maine highways doubled in the period from 1916 to 1919, that it doubled again from 1919 to 1923, and a careful analysis indicates that it will double again in the period 1924 to 1930. As the traffic increases naturally the savings in motor-vehicle operation will increase. Rapid increase in highway traffic and large possible savings in motor-vehicle operation due to the improvement of important roads is a condition common to every state. Thomas H. MacDonald, chief of the bureau of public roads, says: "We pay for improved roads whether we have them or not, and we pay less if we have them than if we do without."

RATE MISUSE IS DENIED

PACIFIC COAST MILLERS COMBAT RATE CHANGE

HELENA, Mont., July 18.—Pacific coast millers have built up an export business on the basis of the export rate on wheat from western Montana and demand its continuance, Examiner Jewell of the interstate commerce commission was told and again today by representatives of those interests.

Offering testimony to combat the proposal of the Chicago Milwaukee & St. Paul, the Great Northern and the Northern Pacific railways to abolish the 7 per cent per 100 pound differential which has applied since 1922 from western Montana on grain designed either for export direct or used in flour export, witnesses for the Pacific coast interests denied that any misuse has recurred or that the domestic rate is sufficient to enable them to compete with other mills particularly those of Canada, for the export trade.

Exports of flour and wheat from the Pacific coast particularly to the Orient are growing and, parallel to this growth is the use of Montana wheat in western export milling, witnesses asserted.

O. D. Fisher of the Fisher Flour Mills of Seattle declared that in his belief, despite the fact that economic conditions for the time have practically closed the Oriental market, China offers the greatest opportunity for the expansion of the use of flour and presents the greatest market open to the flour millers of the west coast.

Buy Made-in-Oregon goods; if they cost a trifle more, they are cheaper. It keeps your money in your state.

SEATTLE PAGEANT NEAR

NORTHERN CITY TO BE HOST TO KNIGHTS TEMPLAR

SEATTLE, July 18.—(By Associated Press.)—Seattle begins tomorrow on the last week of two years' preparation for the largest convention ever held in this city—the thirty-sixth triennial convocation of Knights Templar opening July 28. It is estimated that 100,000 Seattle residents and visitors will be guests of the city during the week beginning July 26, drawn by the manifold attractions of the clonave, the Wayfarer, a religious and historical pageant, the national swimming and diving championships and the sportsmen's show. Between 25,000 and 30,000 plumed knights are expected to march in a parade July 28, and 25 to 30 drill teams from all parts of the United States will compete for drill honors.

One of the symbolic characters will be the presentation of the international traveling beausant by the Western Gate preceptory of Victoria, B. C. to Bethlehem commandery of Seattle. An expenditure of \$250,000 is being made for the reception of the convocation.

Mr. Darrow here, an avowed agnostic both as to God and immortality—he has so said in court before the judge—represents the most militant anti-Christian sentiment in the country. He protested against the opening of court with prayer and has lost no opportunity to slur the intelligence of those who believe in orthodox Christianity and to hurl the charge of bigotry against every one who objects to the teaching of evolution in the schools.

"Mr. Darrow, in the celebrated Loeb-Leopold trial, argued that the boys were not responsible for what they did, laying the blame upon their ancestors and their environments and relieving them of all personality of power to decide between good and evil.

"Mr. Darrow's connection with this case and his conduct during this case ought to inform the Christian world of the real animus that is back of those who are attempting to enforce upon the schools the views of a small minority, regardless of the fact that the philosophy of life based upon evolution robs the individual of a sense of responsibility to God and paralyzes the doctrine of brotherly love.

BIBLE IS DEFENDED

IN BRYAN ADDRESS

(Continued from page 1.) Mr. Darrow here, an avowed agnostic both as to God and immortality—he has so said in court before the judge—represents the most militant anti-Christian sentiment in the country. He protested against the opening of court with prayer and has lost no opportunity to slur the intelligence of those who believe in orthodox Christianity and to hurl the charge of bigotry against every one who objects to the teaching of evolution in the schools.

FRECKLES

Sun and Wind Bring Out Ugly Spots. How to Remove Easily

Here's a chance, Miss Freckleface, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of Othine—double strength—from any drug or department store and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Barely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove your freckles. Othine Laboratories, Inc., Buffalo, N. Y.—Adv.
