(Back copies of the Thursday Editions of The Daily Oregon Statesman are in hand. They are for sale at 10 cents each, mailed to any address. Current copies 5c.)

"OREGON QUALITY" products are establishing themselves in world markets; they make our pay rolls they build our cities; they attract new capital and new people; they provide a market for the products of our farms. Oregon farms produce a wider variety of profitable crops of "Oregon Quality" food than any other spot on earth.

Working Force of the Capital Business College

BETWEEN EIGHT AND TEN THOUSAND PUPILS HAVE ATTENDED THIS SCHOOL

The Capital Business College is One of the Pioneer Institutions of Salem, and the Influences of Its Faithful Work Reach Far and Are Great—A Good Teaching Force

The Capital Business college is one of the pioneer institutions in Salem, having been established here in 1889. W. L. Staley has owned the school during all of the period since 1890, one year after it was established. During all of this time it has served the community faithfully and efficiently—young people, in preparing them for lucrative positions as stenographers and bookkeepers, and the business men of the city and state by furnishing them competent, young people to do office work.

of each student, not only while in school, to the end that their time and money may be well invested, but after the course is completed, as well.

A. W. Cooper has charge of the business department; Mrs. Ora F. McIntyre has charge of the shorthand and typewriting department; Mrs. Mona Yoder has charge of the English work and is assistant in both business and stenographic departments.

The school is in session throughout the entire year, closing only for the week during the holiday season; and in addition to this, on legal holidays. For six months of the year, October to April, the school conducts night sessions for

the accommodation of pupils who work and cannot take advantage of the day sessions.

Much of the work is individual, yet there is a happy combination of individual and class work which tends to bring out the best efforts of each pupil. There is sufficient individual work in the various departments and classes in the various subjects started sufficiently often so that it is possible for students to enroll at any time with practically equal advantage.

The regular fall work and new classes will be organized on October 5. Many inquiries are now being received from prospective pupils, and it is expected that there will be a large attendance the coming season.

Citizens and Our Schools

By H. C. TSCHANZ

Through critical eyes as if taking an inventory, there are citizens looking at Our Schools, analyzing and asking: Are they good enough for our children? How can I make them better? What is my individual duty towards them? Every thinking citizen already knows that schools are the backbone of citizenship, the framework of our democracy—an oligarchy of brains. It is the school, as a brain and citizenship factory, that is the best builder of the nation, the town and the home, through sowing the seeds of wisdom, thought, tolerance, moral living and social being. And to these, Our Schools, we give our richest treasures, those for whom we care far more than for ourselves, name-

ly, our children. The citizen as father or mother has all his hopes, joys and aspirations centered in the child; hence he cannot ignore an active interest in the community schools unless he breaks faith with them.

Our schools not only train the child but to them is given the power to build or destroy; to kindle the living potential spark of childish curiosity—the basis of learning—into a blazing flame of knowledge and wisdom and accomplishment, or else to smother and destroy it, thereby making out of the child a sluggard, an aimless plodder, broken in spirit much like the wild young range horse that hangs its head tragically, because subdued. The school life of a boy or girl may be made a longing joy to which the child eagerly looks forward, or a hated, dreaded burden which must be carried on its slender, tender young shoulders against its will. Does not the spirit of youthful enthusiasm towards progress and success live or die according to the breath breathed into the childish minds and spirits by the teachers of Our Schools.

Citizens, teachers, equipment, these are the tools of the school that, working together, turn out the finished product of the brain-factory—the educated child, either a success or a failure. And if

THIS WEEK'S SLOGAN

DID YOU KNOW That Salem is an educational center of great and growing importance; that this city is the home of historic Willamette University, larger now than ever before, with an addition recently of a million dollars to its endowment fund, \$350,000 of which was contributed by the General Education Board (Rockefeller), besides a quarter of a million dollars added to its building and other funds; that all our other educational institutions are growing substantially; that this city is becoming widely known as a music center and as such is attracting students from all over the coast; that we have a splendid system of public schools, and the people in 1922 voted bonds for \$500,000 in order to provide additional buildings and facilities as fast as the growth of the population shall demand; and that this growing reputation as an educational center is one of the great business assets of Salem, which was born a school town and has made progress as an educational center throughout all its history?

she is our co-worker she shall have proper community interest, leadership and respect. To bring about these things as citizens, we shall take an interest in Our Schools and what goes on there. If we are interested and talk school to the child, the child and his teacher will be more able and interested in doing their best. To this end we, the citizens, will support their work, games, plays and programs, realizing that child and teacher cannot do it all alone.

JOHN R. SITES Director of Salem Conservatory of Music Teacher of Voice Old Italian Method Correct Breathing, Tone-Placing, Bel canto, Coaching for Concert, Oratorio and Opera. Diplomas and High School credits granted. Phone 626. 1156 Court St.
