### RUBBER RESERVE OPENED

### GOODYEAR COMPANY WILL GUARD AGAINST DECLINE

NEW YORK, July 28.—Alarmed by the recent soaring prices of crude rubber, the Goodyear Tire & Rubber company announced tonight the establishment of a "special raw material reserve" of \$3,000,000 to safeguard against a possible decline in rubber values.

"Due to restriction of output," said Chairman E. G. Wilmer, "the current cost of crude rubber is very much in excess of the cost of production, the board of directors has therefore deemed it advisable to appropriate out of the last six months' earnings a 'special raw material reserve' of \$3,000,000 partially to provide against a possible and material decline in crude rubber values. This action is taken notwithstanding our present inventories and commitments insure us our requirements of rubber for the balance of the year at prices considerably under today's market prices."

The local market price of crude rubber on July 22 mounted to a record high level above \$1.20 a pound. A sharp curtailment of buying at that figure, however, brought about a decline, and the price today was back to 96 cents a pound.

Production and sales of the Goodyear company for the first half of 1925 were larger than for any corresponding period in its history.

Net sales of the company and its American and foreign subsidiaries totaled \$94,271,132. Net earnings of the parent company, after charges but before dividends were \$9,911,407. The profit and loss surplus at the end of the period stood at \$25,981,355.
