

PLUMBING INSTRUCTION PLAN IS CONTEMPLATED

CIRCUIT TO BE MADE THRU WESTERN OREGON

Salem Suggested as Center of Movement; Towns Served to Meet Expenses

CORVALLIS, Oregon, Agricultural College, July 29.—Salem is to be in a circuit for plumbing instruction, according to a proposed plan of A. R. Nichols, state supervisor of trades and industries. The plan is to organize a circuit which would include all of the larger towns where there is need of such education, and where the Master Plumbers association are making for service. This would make Oregon second in the movement, Wisconsin being first.

"The instructor would go to Salem on Monday for a class for apprentices in the afternoon and for journeymen at night, then to Corvallis on Tuesday for afternoon and evening classes. The arrangement would alternate each week so that both groups would share in the travel. Wednesday the teacher would go to Eugene for afternoon and evening classes, to Roseburg on Thursday, and to Marshfield on Friday, then back to Corvallis on Saturday."

That the man would travel 445 miles each week is the estimate of Mr. Nichols. To get a competent man a good salary would have to be paid. The state board would be willing to pay half out of federal funds. The school district in which the work was done would need to put in its share of the expense. The five school districts served would each put up one-fifth of the cost. Each district would receive from the state board a reimbursement for half of the cost of instruction.

The expense of travel would have to be handled by the different plumbers organizations. The necessary traveling expenses, not including meals or lodging, should be divided among the five towns served.

"This would benefit not only the master plumbers, the apprentices and journeymen, but would be a benefit to the plumbing trade as a whole," says Mr. Nichols. "The state board stands ready to cooperate with the Master Plumbers' association in any such movement, and if a better plan can be worked out, the board would like to assist in carrying it out. In each of the larger centers plans would need to be made to accommodate the men from the smaller outlying towns as this would be a real service to the plumbing industry of Oregon."

DOG LICENSES SOUGHT

ANNUAL RUSH IS BEING MADE TO COUNTY CLERK

The rush for dog licenses is on. Of the 2499 dogs reported for the county, licenses have been obtained for 2212. Last year there were over 3600 registered with the county clerk.

On August 15, a man will be sent out by the county court to check against a list prepared by U. G. Boyer's office. All dogs not having licenses will be reported, and a fine of \$10 assessed against the owner. If a license is not then obtained, the dog will be killed.

WORK DODGER IS SUED

ANNA ANNIS SEEKING FREEDOM FROM SPOUSE

Declaring that her husband spent a major portion of his time loitering about in a determined effort to avoid work, Anna E. Annis has filed suit for divorce from Harley Annis. They were married in Vancouver, Wash., in April, 1922.

According to the complaint Annis continually asked his wife to advance him money, and when she failed to do this, he cursed and abused her. The complaint also alleges that Annis was constantly growing, all of which is said to constitute cruel and inhuman treatment. Mrs. Annis left her husband in April, 1925, she says, after she could live with him no longer, according to the complaint.

VIOLATORS OF CITY LAWS ESCAPE JAIL

(Continued from page 1)

the first six months, or about \$250. The cost of keeping a prisoner for one day and furnishing him with the two meals supplied

Do They Look Alike to You?

There's a "congressional type" of woman, it appears. Note how the three women members of the new congress resemble each other. At top: Mrs. Edith Nourse Rogers, Massachusetts; center: Mrs. Mary Norton, New Jersey; below: Mrs. Julius Kahn, California.

amounts to a little more than 70 cents per day.

A further question which is coming to the fore in debate is whether the city should continue to furnish lodging for the night to all persons who apply for it. It is pointed out that the city is incurring this expense when it is unable to provide adequate law enforcement. On the other hand, it is argued that to refuse vagabonds the privilege of remaining in the jail for the night would likely result in the increase of crime for without shelter these persons, now under the supervision of the police, would be compelled to roam the streets.

Transfer of a large number of cases to the justice court for sentence of those convicted to the county jail will not, however, completely solve complications, for the county jail is nearly full and can take only a few more prisoners. The maximum capacity of the jail is about 70 men and in order to accommodate this number several must sleep on cots in the main corridor. The jail was built to accommodate only 25 as a maximum and there are already 22 men serving sentences now. Sentence of city prisoners to the county jail through the justice court, therefore, will arouse a housing problem as serious as the one which officials wish to avoid. There are adequate funds, however, for the support of all county prisoners. Justice of the Peace Brazier Small declared yesterday, and there will be no objection on the part of his court if city prosecutors wish to transfer their cases.

STURCH PLANT TO BE COMPLETED AT ONCE

CONGREGATION FAVORS WIN-NEY FINANCIAL PLAN

Construction of the Court Street Christian Church to Proceed, Says Pastor

The proposed new church plant of the Court Street Christian church will soon be under construction. This has been made possible through the adoption of the Winney financial plan.

Last Sunday Henry L. Winney of Santa Monica, Cal., presented his plan to the local congregation and it was unanimously adopted.

This week Mr. Winney is busy installing his system and organizing the local forces. Every member has been informed of the plan and teams of two are going out in the interest of the campaign. Friday at 8 p. m. a financing association will be organized and through which the whole plan is to function.

The pastor, in commenting on the new plan, was very enthusiastic in his praise of it. He remarked: "I have a vision of the possibilities in our local field and our handicap is lack of adequate equipment. With this Winney financing plan I feel that our vision will soon be realized, and that without the usual serious spiritual loss to the congregation which follows high pressure campaigns. It will also enable us to proceed with our building operations on a cash basis."

Not only the pastor, but other leaders are enthusiastic and anticipate a hearty response from every member and that the full quota of shares will be sold in a short while.

SEEPAGE OF WATER IS REPORTED AT Y. M. C. A.

CONTRACTORS ON BUILDING GIVEN TROUBLE

Waterproof Base Is Laid Tuesday; Job to be Finished by Contract Date

Seepage of water into the foundation from small springs encountered in the excavation for the new YMCA building at Church and Court streets has caused the contractors trouble which was overcome only yesterday and which has resulted in the laying of an entirely waterproof base for the entire building. Recent progress was yesterday inspected by George Post, representative of the architects, and declared entirely satisfactory.

Gathering of the seepage water in the excavation hole necessitated the operation of pumps for several days while the concrete foundation was being laid. The concrete bottom of the building when completed will have the shape of a basin so that it will be completely waterproof. The cement foundation under the swimming pool is to be of one foot in thickness to prevent possible damage in the future from water seepage. Under the remainder of the building the cement will have a thickness of eight inches.

Work has progressed satisfactorily and present indications are that the job will be finished on the contract date, about December 31, builders declare.

Y.M.C.A. CAMP NEWS

—BY— THOMAS CHILDS

YMCA BOYS' CAMP, Neskowin, Ore., July 27.—In spite of clouds and fog at intervals we have not been bothered with rain yet, although at times the dew is so heavy it might as well have rained. We have taken a short hike every day since we came. Today we went about five miles south along the coast through some fine woods. We wanted to get down into a cave after mussels and starfish but were unable to make the grade. All we got was a big appetite. Some of us are going back tomorrow at low tide.

We played the Jewish camp again the other night. They held us to a 5-5 tie in ten innings. The winners were to get ice cream but we had to stop on account of darkness. The tie is to be played off tomorrow night.

We have a good joke on Mr. Boardman. I would have told it in my first letter except that he got to read it and I was afraid of the result. Part of the joke is on us but I'll tell it anyway. The first day or so of camp Chief Bent took three or four of us to get a flagpole. We waded through a swamp and after tearing out a lot of brush we managed to cut one. We nearly broke our backs getting it to camp and setting it up. Then we started to raise the flag and found that our flag was nothing but a piece of bunting. Mr. Boardman had gone to the Commercial club or somewhere for it and hadn't bothered to open it, so he got the bunting by mistake. Now Hester has to play "To the Colors" to a hunk of red, white and blue cloth instead of the flag.

We had a lesson in life saving and one in knot tying today. We had to practice artificial respiration and the victims were physical wrecks when it was over.

"Beans" De Harport made a bow and wanted to go on a bear hunt but couldn't make an arrow.

On the hike yesterday three or four of the fellows organized a little party and went on a hike of their own. When they got back to camp they found we had a little surprise for them in the shape of two hours extra duty. The rest of us stood around and laughed while they worked. The cook was too tender hearted, though, and spoiled the good effect of this fatigue duty by giving them extra pie.

The camp indoor league has been organized and the first games will be today. There are six teams of about equal strength so there will probably be a lot of competition.

About the only thing we ever saw in the movies that wasn't overdone was the volunteer fire department.

FORMER SALEM GIRL DIES AT LONG BEACH

MRS. L. GRANT CROW SUC- CUMBS TO SHORT ILLNESS

Was Popular in High School Activities Here and Later as OAC Student

Funeral services of Mrs. L. Grant Crow, formerly Mary Elizabeth Bayne of Salem, who died at Long Beach, Cal., early Tuesday morning, will be held in this city Saturday or Monday, it was announced late yesterday. The remains will arrive Saturday. Word of her death came as a shock to a host of Salem friends who have known her for many years during a prominent career in Salem high school and later as a student at OAC. She is the daughter of Mr. and Mrs. John Bayne of this city.

Death was due to peritonitis contracted during seerf bathing at Long Beach. She was ill but a few days and efforts to effect her recovery by an operation were futile.

Mrs. Crow spent her entire life in Salem until last year when she left to accept a teaching position in the high school of Marysville, Cal. She was married last Christmas to L. Grant Crow of San Francisco. During her attendance at Salem high school she was prominent in student activities and was one of the founders of the T. A. club. In 1923 she graduated from Oregon Agricultural college with high honors. During her freshman year she was awarded the Waldo cup presented annually to the most representative member of the class and in her senior year was chosen as secretary of the student body. She was a member of the Delta Delta Delta sorority.

Mrs. Crow is survived by her husband; her parents, Mr. and Mrs. John Bayne; a brother, Kenneth of Salem; two sisters, Agnes of Salem and Mrs. Frank Claggens of Portland.

HEADQUARTERS CHANGED

YAKIMA, July 29.—Headquarters for the government's investigation of the sugar beet leaf hopper are to be transferred from Toppish, near here, to Twin Falls, Idaho, according to Walter Carter, entomologist in charge.

PEOPLE AND EVENTS SILVERTON

LILLIE L. MADSEN, Statesman Correspondent

SILVERTON, July 29.—(Special to The Statesman.)—William H. Drake, born April 6, 1847, was stricken with apoplexy at his home on Water street Monday night while crossing a room and died before his wife, who was at the rear of the house, could reach him. Until a few months ago he had never known sickness, and, although under a doctor's care recently, was apparently no worse Monday.

Mr. Drake was a well known resident of Silverton, as he came here from his birthplace in Pierce county, Ohio, 73 years ago. He crossed the plains at the age of 5 years with his parents, who settled on a donation land claim near Marquam, in Clackamas county. At the age of 17 he became apprentice to a blacksmith and followed that trade for 25 years. He was also interested in land and owned a number of farms although he did not work at farming to any great extent. He retired in 1905, but still retained some of his land holdings. In 1872 he was married to Lavina H. Small, who crossed the plains with her parents in 1854, and whose brother, Elwood Small, lives at Silverton.

Mr. Drake helped incorporate the city of Silverton and was a member of the Oddfellow and Masonic lodges, the latter of which will have charge of the funeral services which will be held from the undertaking parlors of Jack & Ekman Thursday at 2 p. m. Interment will be in the city cemetery. Besides his wife he is survived by a sister, Emma West of Portland, and nine nephews and nieces.

Bids for the armory to be built at Silverton this summer were opened at the Coolidge & McCaine bank Tuesday afternoon, and after consideration, those of the following were accepted: Harve, Grave & Lindsay of Eugene, general contract; L. E. Inman, plumbing and heating, and Silverton Electric company electric wiring. Amounts of the bids were reported as follows: General contract, \$24,400; plumbing and

heating, \$3,555, and wiring \$597. Work is expected to be begun within a few days and it is hoped that the building may be finished by Armistice day. The armory will be located on South Water street on a lot which was purchased several months ago by the Delbert Reeves post of the American legion and by it deeded to the state. The plans call for a fuel room, store room, kitchen, women's club room and rest rooms in the basement, drill hall, legion room and officers' quarters on the first floor, and on the second floor a larger drill hall, stage and gallery and captain's room.

Mrs. F. W. Keeler left Silverton Monday morning after a visit of several weeks at the home of her daughter, Mrs. J. A. Campbell. While here Mrs. Keeler, whose home is in St. Joseph, Mich., was entertained extensively at teas and parties, several of which were given for her during her last week at Silverton. On Tuesday evening Mrs. Campbell honored her mother with a bridge party of four tables to which a number of neighboring women and their husbands were invited. On Thursday Mrs. Keeler was again honor guest at a party given by Mrs. H. R. Irish. Twelve guests were invited for bridge.

PERSONALS

L. E. Hennis, patrolman in the Cloverdale road district, was in Salem on road business yesterday.

Mrs. Helen Tate of Stayton, daughter of J. T. Hunt, county judge, was in Salem yesterday.

Mrs. Blanche Allen, secretary to C. A. Kells of the YMCA, has returned from a two weeks' vacation spent at Neskowin.

A. G. Barrett returned yesterday from a business trip to Taft, Or. On his return trip he stopped at the YMCA boys' camp for a visit with the Salem lads.

Dr. and Mrs. L. S. Altman have postponed indefinitely their contemplated trip to Los Angeles.

Lee Crawford, who for several weeks has been working in the vicinity of Turner on a wood cut-

ting job, has been forced to return to his home because of pleurisy which developed in his side. Clayton Earnest of Newberg underwent a minor operation at a local hospital Tuesday.

Carlton Savage, private secretary to President J. S. Landers, of the Oregon Normal school at Monmouth, was in Salem yesterday.

BOARD POSITIONS FILLED

THE GOVERNOR'S OFFICE ANNOUNCES APPOINTMENTS

Appointments to various state boards were announced at the governor's office yesterday. These included Mrs. Albert R. Hunter, La Grande, to succeed the late Turner Oliver as a member of the Oregon geographic board; reappointment of A. B. Cordley, Corvallis, Sam H. Moore, Corvallis, and O. G. Gilbert, Shaw, state time board; Charles H. Seagrave, Oregon City, to succeed J. M. Creamer, Portland, and the reappointment of Robert E. Hunt, Roseburg; C. W. Lassen, Pendleton, and Dr. W. H. Lytle, state veterinarian, Salem, on the state veterinary examining board.

Lemons Bleach the Skin White

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quart of the most wonderful skin whitenener, softener and beautifier.

Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also as a freckle, sunburn and tan bleach. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.—Adv.
