## THE DREAMERS

We are all of us dreamers of dreams,  
On visions our childhood is fed,  
The heart of the child has been haunted, it seems,  
By the phantoms of dreams that are dead.

From childhood to youth is but a span,  
And the years of our youth are soon sped,  
Yet youth is no longer a youth, but a man,  
When the first of his dreams are dead.

He may live on and construct and plan,  
When the fine blood of living is shed;  
But God pity the little that is left of a man  
When the last of his dreams are dead.

**THE CIVIC COMMITTEE** of the Salem Woman's club met on Thursday of last week at the home of Mrs. U. G. Boyer to complete the work on the questionnaire concerning living conditions in Salem. The questionnaire, comprehensive in its details, is being prepared through a movement sponsored by President Coolidge by Federated Women's clubs throughout the country. The two chief purposes are to secure data on which to base statements concerning the real standard of American living and to tabulate more complete census reports in relation to actual living conditions.

Among the many points which have been investigated are: 1. The water supply, rates, etc. 2. Furnaces, kind of fuel used. 3. All electric fixtures, such as washing machines and electric irons. 4. Plumbing. 5. Disposal of garbage. 6. No. of automobiles and telephones. 7. Library facilities. 8. Kind of programs outlined by the local Woman's club.

Of course, in some points the committee found it necessary to specify that their report was only an estimate. However, a large amount of very accurate detail was made possible through the cooperation of Salem business headquarters, companies, and officials, a service that the committee greatly appreciated.

After these surveys have been made throughout the country — one hundred and fifty clubs in Oregon having been invited to participate — the matter will be simmered down and the conclusions written as subject matter for an article which will appear later in the Woman's Home Companion.

This week the Civic committee of which Mrs. A. M. Chapman is chairman, will be in charge of the story hour at the Fourteenth street playground. Tomorrow Mrs. Winifred Pettyjohn will take charge; on Tuesday, Mrs. U. G. Boyer, on Wednesday, Mrs. Ronald Glover, on Thursday, Mrs. A. M. Chapman, on Friday, Mrs. L. O. Clement, and on Saturday, Miss Ethel Fletcher.

Mr. and Mrs. Al Stewart of 242 Center street have had as their interesting house guests for the past two weeks Mrs. Stewart's mother and sister, Mrs. W. Britt and daughter Helen, of Merrill, Wisconsin, at which place Miss Britt is the proprietor of an art specialty shop and a former well known court reporter.

Mrs. Stewart's brother, Henry Britt, of Daggett, California, prominent in mining circles of that section, joined his mother and sister at Butte, and continued the journey with them here, where they have visited before, as well as other sections of the northwest. During their present visit, numerous motor trips have been taken to the mountain and beach resorts and neighboring towns. Laving today, they will route via Denver & Rio Grande, and visit the Royal Gorge, returning thereafter to their respective homes.

From Mr. Britt, an experienced mining expert, much interesting and authentic information is derived regarding the business of mining, and details relating to this important industry — one of the vital problems of the nation. Before turning his attention to mining, Mr. Britt was engaged in the pharmacy business. He has also traveled rather extensively. In his present business he has operated chiefly in Montana, Idaho, Nevada, Arizona, Utah and California, where he is at present located.

A wedding of interest to many Salem friends was solemnized Tuesday afternoon, July 28 at the home of Mrs. Annie Martin, 1605 South Church street.

Surrounded by a group of intimate friends, Miss Mary F. Wilson and Bruce Eric Sundquist, both of Salem, were united in marriage by the Rev. J. J. Evans, using the double ring ceremony.

The wedding was informal but very charming and the bride, dressed in a gown of white satin and carrying a bouquet of Regal lilies, Cecil Brunner roses and King Royal dahlias, made a pretty picture amid the huge bouquets of Shasta daisies and crimson glad lilies which filled the room.

Preceding the ceremony Miss Ellen Foster sang "Just For You", accompanied by Carl Lemke, who followed that selection with the wedding march.

After the ceremony a dainty luncheon was served.

Mr. and Mrs. Sundquist left by motor at five o'clock for a week's trip to Portland and the beaches.

Mr. Sundquist is associated with Theo M. Barr here and Mrs. Sundquist is a member of the faculty at the State School for the Blind. They will be at home to their friends at 255 Superior street, after August 15.

During her first year in the east she took her organ work with Emory Gallup, the organist at St. Chrysostom's church, and during her second year with Frank W. Van Dusen at the American Conservatory. Aside from her organ work she took advanced work both in theory and piano. As an additional pursuit she studied accompanying with Miss Grace Grove.

Brooklyn, N. Y. — Mr. Joseph F. Glus writes, "In the past 20 years I have been constantly troubled with constipation. Every remedy I tried would work O.K. for a while — but soon failed. The only remedy I have been able to use steadily with good results have been Carter's Little Liver Pills. I don't guess when I take them — I know I'm going to feel relieved." At all Druggists. —adv.

## Special Fall Announcement

With the new season comes a note of elaboration, a new depth and richness of color to the mode. This and the definite change in silhouette marks the transition from summer to fall and winter fashions.

Sunday afternoon will offer one the advantage of seeing the latest modes for we have assembled an early showing for the approval of Salem women.

The past season has accustomed us to the flaring line — and this is emphasized again with the introduction of these new modes. Only now the flare appears in the back as well as in the front. This, indeed, may be considered the dominant change — the influence most strongly felt in women's apparel.

### Tailored Frocks for Daytime

The importance of the tailored frock for early fall is stressed. Particularly smart are the styles just launched. Their effect is simplicity, but to the initiated a fine skill is evident in the cut and fitting of these frocks.

Many are beltless, but those that are belted tie with the narrowest of belts. The flare is often present — suggested either with insets of pleating or godets. Sometimes the skirt flares all around. Again in the front — but oftentimes the back flare appears.

Twills, raps, and fine cord weaves are the favored fabrics. Some of the smartest frocks are of these materials in checks woven in self color. Navy blue is very strong with green, doe and brown shades close in favor.

An occasional frock suggests the bolero — either in the placing of its trimming or in the actual cut. Collars and cuffs are of white satin or linen, or of the fabric stitched and embroidered.
