change by the Knights of Columbus' 43rd annual supreme convention just before the session adjourned for the night shortly after 7 p. m.

**WOULD AID IRRIGATION SOLUTION TO SILVER LAKE PROBLEM OFFERED**

A solution to the problem of an irrigation district upon the verge of bankruptcy was offered members of the state irrigation securities commission yesterday by Col. E. M. Place, colonization agent of the Western Pacific railroad, in connection with the Silver Lake district in Lake county. The suggestion brought expressions of approval from a majority of the board though no action was taken.

At present the project is bonded for \$250,000, Col. Place said, and there are only 15 settlers. These are delinquent in taxes in the sum of \$28,000 dating back to 1922.

**OBITUARY**

In this city, Aug. 4th, Grace May Howell age 39 years, wife of Lewis C. Howell, mother of Grace Minerva and Jewel Howell, daughter of Arthur O. Griawold of Salem, sister of Mrs. Hugh White of Kirby, Ore., and Mrs. Payne Hall of Los Angeles. Announcement of funeral later from the Rigdon mortuary.

**Home spells life.**

**INCREASE IS SHOWN IN POTASH INDUSTRY HERE**

**GERMAN CHEMICAL MONOPOLY DECLARED BROKEN**  
Product Being Manufactured in United States; Raw Material Plentiful

LOS ANGELES, Aug. 5.—(By Associated Press.)—Growth of the American potash industry until it broke the shackles of a former German monopoly, was described today by J. W. Turgentine of the bureau of soils, United States department of agriculture, before the American Chemical society, which is in session here.

In the face of the bitterest European competition, the American industry, which is of vital importance agriculturally and industrially, is actually gaining ground steadily, showing its technical and economic soundness, the speaker said.

He said that the manufacture of the chemical, when fully developed, will be distributed over the country, owing to a wide diversity of potash bearing raw materials.

In another section of today's meeting, drastic reforms in the teaching methods of high schools and colleges were urged by more than a dozen speakers representing universities and technical schools in all parts of the country.

Prof. Alexander Silverman, head of the department of chemistry in the University of Pittsburgh, declared that laboratories are too large and advocated a reorganization of the existing systems so as to greatly multiply their number.

He said that not more than 24 students should be grouped in any one laboratory. Such an arrangement, it was said, would enable universities to send thoroughly reliable men into public and industrial service.

Tell your eastern friends about the progressive spirit of the city of Salem. We want more people here, not only to share the city with us, but to help us build it.

Home spells life.

**ROUTINE WORK HAMPERS DEPARTMENT OF STATE**

**"INSIDE DOPE" ON SECRETARY'S JOB IS GIVEN**

William Delzell Tells Lions Friday That "Walter Doesn't Keep Secrets"

The governor, the secretary of state and the state treasurer all have a world of burdensome routine work that should be taken from their shoulders, William Delzell, secretary to Governor Pierce, told members of the Salem Rotary club yesterday in an address on the announced subject of "The inside dope on how it feels to be secretary to a Democratic Governor."

Each of these executives has work outside of his own department that if he were compelled to do it personally would require all of his time," Delzell explained.

"If the governor was to sign personally all of the checks for claims against the state, according to the intention of the old law he would be permitted to do nothing else, and there would not be enough hours in the day for him to do all of it."

Much of the "inside dope" of a secretary was explained with anecdotes. One story was told of an Irishman who compiled a book of the names of the men in his town who he thought he could whip.

One neighbor, whose name appeared on the list, challenged the claim, to which the author replied: "You say I can't lick you?" The statement was reiterated by the neighbor. "Well, then, I'll take your name off the list."

"With the approach of the coming political campaign," Delzell explained, "the governor is busy scratching off the names of people he can't lick."

"The word 'secretary' means one who keeps secrets, and keeping secrets is supposed to be my job," he told in another part of his address. "But Walter doesn't keep secrets; he tells everybody, so I don't keep busy on that score," he added.

Speaking in a more serious vein he explained some of the work

which the governor was required to do. "For example, in the one item of pardons alone," he declared, "if interviews with the governor were granted to all those who apply for executive clemency for prisoners, 50 per cent of the governor's time would be occupied by this one task."

Three new members were received into membership yesterday. They were Florian Von Eschen, E. Hoffnell and Andrew Lee.

**GRAVES IS UNCHANGED**

WASHINGTON, Aug. 5.—The condition of John Temple Graves, veteran southern writer, editor and orator, who is critically ill at his home here, was said by members of his household tonight to have shown little or no change during the day.

**LOS ANGELES CHOSEN**

SEATTLE, Aug. 5.—(By Associated Press.)—Bankers of 11 Pacific coast and Rock Mountain states, closing a two-day conference here today, selected Los Angeles for their 1926 convention place.

**To Whiten Skin with Lemon**

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents.

Shake well in a bottle, and you have a whole quarter-pint of the most wonderful skin whitener, softener and beautifier.

Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also as a freckle, sunburn and tan bleach. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.—Adv.

50% of your life is spent within the four walls of your home. Gray, dingy or delapidated, they make every day a disappointment.

But—bright and gay with fresh clean paint and varnish, working and leisure hours are a constant pleasure.

The pleasure and efficiency of those living indoors, justifies the trifling cost of repainting. And the increased value of your property (because it is freshly painted and preserved against delapidation) makes painting an actual saving in money.

Ask your dealer for Color Cards. Ask your painter for an estimate.
