**THE GOSPEL CHARIOT**  
Get in the gospel chariot, there's room enough for all. There's joy and peace and blessing to those who hear the call. The Saints will soon be going for time is nearly done. Come get on board the Gospel Car for there's room for every one.

There's going to be a banquet way up beyond the blue. And if your robe is spotless and your life is ringing true. You can join this blessed company who joys in eternal life. Escape this world of sorrow and sin and pain and care.

You'll have no time to linger nor look back upon this earth. Remember Lot's wife, hasten on for the world has lost its worth. All the things of earth are passing only fleeting things of time. God has made for us a kingdom in his glory it shall shine.

Oh there's room for every sinner for his blood can make you white. Won't you come and get your passage for the car may start tonight. There if you're not ready brother, you will be forever lost. And you'll pay with fearful sorrow at a never ending cost.

For that awful guilt is yawning Luke 16 and 26. Jesus said no way to cross it when at last your choice is fixed. But today if you will hear him, not too late. Oh yet there's time. Then turn back to a loving Father from the feast.

You'll be glad you've taken passage when you hear the shouts and songs. See the happy shining faces and the white-robed glory throngs. Walked the golden streets with Jesus heard His sweet voice say to you: Well done, good and faithful servant, you are counted with the true.

—Dolly Earle Leonard, 431 S. Cottage St.

The new airship mooring tower which has just been completed at Dearborn was erected without a single serious accident. Although handling of the 70 tons of steel entering into the 210-foot high structure was considered a particularly hazardous job, the work progressed surely and smoothly. Most of the men working on the job were Ford employees who have been especially trained in Ford Safety methods.

## When K. K. K., Thousands Strong, Paraded in Capitol

This photo of the giant Ku Klux Klan parade, staged recently in Washington, D. C., shows a section of the parade swinging on Pennsylvania avenue, the street over which many presidents have passed on their way from the Capitol to the White House. The Capitol can be seen very faintly at the end of the avenue.

## NOT ROOM ENOUGH TO DISPLAY AUTOS

All available space is now taken for the automobile display at the Oregon State Fair which will open in Salem September the 28th. The automobile firms wishing to display cars and not having space already reserved will have to take space outside in tents or sheds. Following is a list of the firms and the cars they handle who have reserved space:

- Covey Motor Company, Portland, Cadillac.
- Howard Automobile Company, Portland, Buick.
- Bonesteel Motor Company, Salem, Dodge.
- MacDonald Auto Co., Salem, Marmon, Cleveland, Chandler.

## Snubs Royalty to Be Painter

Prince Eugene Napoleon Nicholas, youngest brother of King Gustav V of Sweden, is establishing a reputation as one of Europe's really great painters. He shuns court ceremony.

Wentworth & Irwin, Portland, Ajax, Nash, G. M. C. Trucks, Kirkwood Motor Company, Salem, Nash, Hupmobile.

F. W. Pettyjohn Co., Salem, Rickenbacker, Oldsmobile. Newton Chevrolet Company, Salem, Chevrolet.

Cock & Gill, Portland, Paige and Jewett. Vick Brothers, Salem, Willys-Knight, Overland, Oakland.

Burdette & Albee, Portland and Salem, Gardiner. Chase-Garfield Co., Portland, Chrysler. Oldsmobile Company, Portland, Oldsmobile.

## DUCO WINS HARD TEST

**AUTO FINISH STANDS UP IN SEVERE SAND STORM**  
"I can make the trip without changing from high gear."  
"You're crazy, it can't be done. I'll bet you..."  
And so the wager was made. Mr. C. E. Greene was to drive his Chandler coach, with all transmission gears locked, except the "high" and "reverse" gears, from San Diego, California to Phoenix, Arizona and return. The outbound trip is more than 400 miles in part over steep mountainous roads, but Mr. Green made it without much difficulty in 11 hours and 26 minutes.

On the way back, however, he encountered adverse conditions such as few motorists ever meet. Sixty miles from Phoenix he ran into head winds of such velocity that for miles he was compelled to drive with one hand, meanwhile firmly bracing the windshield with the other to keep it from crashing under the terrific wind pressure. Again, thirty miles from Yuma, Ariz., an extremely violent sandstorm was encountered. The sand pellets, we are told, struck the car with such force that the paint was removed from the license tags, the windshield glass and headlight lenses were deeply scored, but, surprising as it may seem, the Ducu finish on the car body withstood the attack of the sand and showed no ill effects.

The homeward trip was made in 12 hours and 32 minutes elapsed time. Mr. Green had proved his contention, winning the bet, and Ducu likewise won its battle in the sandstorm.

## TRUCKS HELP BUSINESS

### WHITE ROLL CALL DEPICTS MORE TRANSPORTATION

How closely motor truck transportation is woven into the industrial life of the country and the tremendous strides this form of transport has made the last few years is graphically shown in a tabulation recently compiled by the White Company listing the owners of 10 or more White trucks and showing the growth of those truck fleets year by year. Known as the White Truck Roll Call this tabulation forms an excellent barometer of business conditions and shows unmistakably that increased truck usage and business expansion go hand in hand.

**Over 2,000,000 Trucks in Use**  
Truck transportation, while comparatively new, is sufficiently old to have become a major factor in the country's transportation program. Since 1910 its growth has been exceedingly rapid and leaders in the motor truck industry predict that its greatest expansion is yet to come. There are now approximately 2,150,000 motor trucks in use and about 375,000 new trucks are being placed in service annually.

**31,093 Whites in Fleets of 10 or More**  
The White Roll Call shows that at the first of the year there were 837 of the country's foremost truck owners—in all lines of business, all localities—operating 31,093 White trucks in fleets of 10 or more. This is an increase of 80 owners and 2,927 trucks over last year's record. Giving an idea of the growth of truck transportation this same list of owners 15

years ago were operating only 51 trucks.

The first White Roll Call published in 1916 listed only 86 owners operating a total of 2,538 Whites in fleets of 1 or more. Back in 1910 but a single firm—W. & J. Sloane, of New York—owned as many as 10 Whites. This pioneer fleet has grown to 37.

**One Owner Operates 1738 Whites**  
On the present roll call there are 25 owners operating in excess of 100 trucks each. The owner of the largest individual fleet is the Gulf Refining Company with 1738 trucks, representing an investment of more than \$5,000,000. The company purchased its first White truck in 1911.

A few of the other large fleet owners are The Associated Bell Telephone companies with 1183; the Standard Oil Company of New York, 842; Union Oil Company of California, 759 and the City of New York, 711.

In addition to the users who operate fleets of 10 or more there are many thousands of owners operating White trucks in fleets of less than 10 and in single installations. The total value of all White trucks and White Buses on the road is well in excess of \$350,000,000.

Suspended on metal pivot bars, a new door has been invented for freight cars that is claimed to be proof against sticking and to defy thieves, as it cannot be opened without breaking a seal.

### Olympic Champion

I. A. C. MOTORCADE TAKES MOVIE CAMERA EQUIPMENT

An unusual feature is provided in the "Motorcade" of the Illinois Automobile Club which leaves Chicago early in October for an unusual expedition to Florida and return.

A special moving picture camera will accompany the Willys-Knight Six Pilot Car to take pictures of the caravan at interesting and historic places on the trip. The same equipment was carried with this Willys-Knight Six when it made the same trip early in July and August to select the route over which the Motorcade was to travel.

It is expected that some unusual photographs of Chicagoans and their families and friends will be taken on this most pretentious cavalcade when more than 100 members of the I. A. C. will take their vacations in a motor to the sunny southland.

Radio fans have heard John Weismuller, Olympic champion swimmer, talk through the Crosley WLW super-power broadcasting station. Here he is—listening to the results of a swimming meet broadcast by radio.

# Tell Him to "Fill Her Up!"
