Clark Co., New York, 128-136 W. 31st St.; Chi-age, Marqu-tt; didg. aty & Payne, Sharon Bldg. TELEPHONES: Society Editor. ...158 Job Department... Entered at the Post Office in Salem, Oregon, as second class matter August 23, 1925 KINGDOM IS WITHIN:-Neither shall they say, lo here; or, lo here! for, behold the kingdom of God is within you. Luke 17:21.

The incorporation papers for Salem's second linen mill are filed, and the organization of the company to own and operate it will be completed as fast as the law allows, followed by the selection of the site, the ordering of the machinery and the construction of the necessary buildings-

SALEM'S SECOND LINEN MILL

And as all this proceeds, the stock still not spoken for will be sold, as fast as necessary to be certain of ample funds; finally the whole amount will no doubt be disposed of, up to the authorized \$640.000, in order that there may be ample working capital, besides considerable sums to assist in organizing and financing local retting and scutching plants-

For this latter will likely have to be done, in order to be sure of an ample supply of fiber for making yarns to spin into fabrics and to supply to the market.

The estimates originally made by Mr. Sanson, who is to be the largest stockholder of the company, and who outlined the plans, called for eight hour shifts-

And, based on that, he estimated that the operation would care for all the charges of every kind, and leave a profit, to be used in extensions, or in retiring some of the preferred stock.

But it is known now that at least another eight hour shift will be operated in the spinning part of the mill, in order to supply a certain demand for yarn, to go to other manufacturers. It is predicted that there will be still another eight hour shift, soon after starting, if not in the very beginning. That is the way the Salem paper mill is operated. That

is the way profits are made in such factor argest possible profitable output with the

So, it is quite certain, the mill will pay. it will pay very well, and that its operations quite rapidly.

The Canadian men who are putting in a of money, and who will have a large share and management, have no thought of losing of losing the highly profitable use of it-

And they cannot make money for the making money for all the rest of the stockho cannot make money without conferring gre Salem and all the surrounding country.

We are on our way towards becoming There is a long way to go; but, once well st ment will be cumulative.

Finally, the linen industry here will br million dollars a year, and, directly and employ a million people. It will be a pow dering this the most prosperous district in t which it is destined to become, through th natural resources and doing the things better here than in other parts of the count

Doctors Know

about washing disease germs from clothes

Mothers of babies especially, should read every word of this

Listen to This **Medical Advice**

What

Now the well-known journal of medical profession, "THE MEDICO," proclaims scientific facts about prepreventing infection from your clothes.

We quote here from an editorial in "THE MEDICO" entitled "Washing Diseases Away." Every word bears the stamp of scientific medical authority:

"There is no commercial agency actually preventing disease like the present-day laundry.

"Our present-day laundry begins its health crusade at the start. It DOES NOT POLLUTH WATER SUP-PLIES. The laundry scientifically removes all dirt and painlessly causes bugs to expire.

Now Clothes Get Nine Baths

"Laundries don't start the white things through a few gallons of warm water and then successfully run every other bit of soiled clothing through the same solution. No home *caundry* invention lem of producing lots of hot water for the tired housewife without making extra work.

"The laborer's underwear and Aunt Lucy's brazier both come home from the laundry clean and sweet. They are not only clean, white and sweet, but THEY ARE PRACTICALLY AS STERILE AS THE SUR-GEON'S.

Getting the Germs

"When people remark that laundries do not. 'clean.' speak unthinkingly. Laundries clean and in addition they kill millions of organisms that resist the tepid water of tub washing and flabby basement suds.

"Without laundries, every large city in the country would be constantly in the throes of epidemics of con-

tagious skin diseases. "What part the laundry plays in the prevention of all communicable diseases is hard to estimate, however, THESE DISEASES HAVE TAKEN A DECIDED SLUMP

> 5 Money-Saving Services

> > Just a little light ironing!

1. WET-WASH- Saves you far more work than electric washer, actually at less cost. Every thing scientifically washed with purest of materials, and returned slightly damp, just right for iroating. 20 pounds or less, 75c. 4 cents each additional

2. THRIFT SERVICE-Same as Wet-Wash except all flat pieces ironed, 15 pounds or less, cents, 6 cents each 90 additional pound. 3. ROUGH DRY-Flat pieces ironed, everything dry, and required starching done, 7

pounds or less 65c, 9 cents each additional pound. 4. FINISHED SERVICE -Everything complete-ly washed, and ironed

ready for use. Charged by the piece. 5. DE-LUXE HAND IR-ONING-We maintain an expert hand-ironer. Her work cannot be surpassed a n y w h e re Prices are very reason-

able,

SINCE THE SPREAD OF THE STEAM LAUNDRY.

"No Highbrow Idea"

"It is no highbrow idea to have a laundry wash your towels and your intimate things. They go smack dab against your skin and they should be as near sterile as they are free of dirt."

Laundry Stops Backaches

"The modern laundry has stopped millions of female backaches. It has prevented thousands of divorces, and it has brought content and smiles to thousands of homes

"Monday is no longer a hell to millions of women."

> This Week Why Not You?

Salem women by the hundreds have ended washday drudgery. They have learned that laundry methods have changed-that invention has given us new machines which cause no friction - no rubbing- no chance for wear and tear. They've learned that our chemists, after years of constant effort, have produced for us entire new formulas, easier on clothes than home methods. They have learned that all delicate pieces are hand-washed by expert specialists,

And so they have turned from womans hardest drudgery to the more scientific inexpensive laundry service. They find it costs less than an electric machine in the home. This vastly improved new laundry service is winning us new customers every week.

Why not join these other Salem women in freedom from back-breaking labor? Just Phone. Go and do it

It is believed that under both systems many minor accidents happened which were never reported to police and the figures two to four more pages, but the are further inconclusive in that many who report accidents do not a lot of good matter. describe the situation.

In order that conclusion may be drawn in the future it has been requested that drivers reporting accidents made their reports as complete as possible, at least indicating the principal contributing factors. al league clubs.

BOOZE SAID TO BLAME

DRIVER OF DEATH AUTO IS TO **ANSWER CHARGES** OLYMPIA, Wash., Aug. 22 .-(By Associated Press)-Charges of driving while drunk will be filed Monday against Walter Simmons, 23, driver of the car which overturned on the Pacific highway four miles east of Olympia yesterday afternoon killing Vernon King and seriously injuring Arthur Trott, it was announced today by Roscoe Fullerton, Thurston county prosecuting attorney after the coroner's inquest. The coroner's jury returned a furnace, heater or cook stove:

verdict holding each of the five occupants of the car equally responsible for the mishap after evidence showed that all members of the party were under the influence of intoxicating liquor.
