

BLUE SKY LAW IS AID TO INVESTORS

Corporation Department Investigation of All Stocks Made by Bureau

In the creation of the corporation department, and the enactment of the so-called Blue Sky law the legislature intended to protect the interests of the investing public as far as possible...

The applicant for a permit to sell securities is required to answer questions and furnish evidence covering a wide range touching the enterprise in which it proposes to engage...

The permit requirements, however, are not concluded when the security is permitted to be sold; they continue in force as each company to whom a permit is granted is required first to file an annual report showing the true status of the company...

CAMPUS TO BE CHANGED MANY LANDSCAPE IMPROVEMENTS CONTEMPLATED

An extensive landscape program for the ultimate beautification of the Willamette university campus was announced Saturday by Dr. Carl Gregg Dancy, president.

The entire campus will be plowed to get rid of the weeds and then leveled to make ready for a top layer of rich soil before new grass is sown.

Along this walk will be planted a row of hawthorne trees, alternating red and white, under present plans. Other shrubbery will be planted at other portions of the campus.

FRATERNAL ORDERS FILE FIVE LODGES TO TAKE OVER OLD ELKS' TEMPLE

Articles of incorporation have been prepared by the Fraternal Temple association preliminary to taking control of the old Salem Elks' temple on Liberty, between Center and Chemsaketa.

Incorporators of the association, two for each lodge represented are as follows: L. S. Gear and Carl Wolf, for the Woodmen of the World; C. E. Albin and A. L. Bones for the Yeoman; Louis Bechtel and George C. Will for the Knights of Pythias; Ivan C. Martin and Isadore Greenbaum for the Artisans, and Lest Jones and B. S. Taylor for the Eagles.

While the Woodmen of the World own and control the temple, it is understood that through the new association the four other lodges will gradually gather an interest in it through monthly payments, or possibly by flotation of a bond issue.

The temple was purchased from the Elks for a price in the neighborhood of \$38,000 and a mortgage indebtedness was assumed in connection with the purchase.

PLAN MEMBERSHIP DRIVE PACIFIC WOODMEN TO HOLD MEETING THURSDAY

Capitol camp No. 1, Pacific Woodmen Life association, will

hold a big get-together meeting at their hall, 336 North Liberty, Thursday evening when plans will be submitted for a big membership campaign that will terminate with a mammoth class initiation on the evening of October 8 when the camps from Portland, Dallas, Junction City and Eugene will join with the local camp in the big celebration.

The Pacific Woodmen Life association is making a rapid growth in Oregon since March. Seven camps have been instituted, and there are several more in the making. During July only 18 states produced more business than Oregon. The state headquarters are located at 316 U. S. National Bank building, and it is the plan of F. A. Beard, state manager, to place camps in all the principal cities just as quickly as possible.

There are nearly 600,000 members in the United States and the association maintains a large hospital at San Antonio, Texas, where any member suffering from tuberculosis trouble is treated free.

ELECTRIC POWER IS NOW UTILIZED

Battery of Turbines at Muscle Shoals Produces 624,000 Horsepower

FLORENCE, Ala., Aug. 29.—(By Associated Press.)—Waters of the Tennessee river wasted for centuries, were today harnessed for the southern Appalachian region.

At 8:18 o'clock this morning the first water wheel turned at Muscle Shoals. This unit, a 20,000 horsepower turbine, belongs to a battery of 18 at Wilson dam which will eventually produce 624,000 horsepower.

The demonstration marked the beginning of a broader utilization of an inter-connected system which brings together principal power resources of Tennessee, Georgia, the Carolinas and Alabama. It is contemplated that this system will ultimately extend to Arkansas, Mississippi and Louisiana.

Acute demand for additional power in the Carolinas and Georgia caused by an extended drought brought activity at Wilson dam earlier than had been calculated by army engineers. The dam will be completed during the next year. The power generated during the test period has been sold to the Alabama power company, lessee of the government steam plant adjacent to the dam.

Wilson dam, practically completed today, stands as a monument to American genius. It is built of 1,250,000 cubic yards of concrete and is the largest structure of this character in the world. Its total length is 4,500 feet.

Muscle Shoals has a fall of 134 feet in 37 miles and has long stood as a barrier to navigation. With the completion of Wilson dam and lesser units as planned, the river will not only afford energy estimated at 800,000 horse-power, but will as well furnish uninterrupted navigation from Paducah, Ky., to Knoxville, Tenn., a distance of 650 miles.

PLAN BRYAN MEMORIAL TRIBUTE TO DEAD LEADER IS BEING CONSIDERED

LOUISVILLE, Ky., Aug. 29.—(By Associated Press.)—Plans for a memorial to William Jennings Bryan will be discussed at a meeting in Washington September 11. J. H. Callahan, acting secretary of the Bryan memorial, announced today.

Mr. Callahan, a life-long friend of Mr. Bryan, said letters had been sent to some thirty nationally known friends of Mr. Bryan to meet in Washington. No funds will be solicited at the meeting, which he said "must be of such character as to give encouragement to that enormous and progressive following of the great orator." He added that the gathering is for the "exchange of ideas before formulating any definite plans, or even establishing headquarters." Mr. Callahan said Louisville will be temporary headquarters under his charge. Josephus Daniels, editor of the Raleigh (N. C.) News and Observer, has been designated temporary chairman of the memorial, with John Skelton Williams of Richmond, Va., former controller of the currency, as treasurer.

In making announcement of the founding of the association Chairman Daniels said there was a spontaneous demand from all parts of the country that steps be taken at the earliest possible moment to erect an appropriate memorial to Mr. Bryan.

"We wish it to stand in the nation's capital," Mr. Callahan said.

EDUCATOR DIES

BLUE RIDGE SUMMIT, Penn., Aug. 29.—(By Associated Press.)—Henry Jones Ford, former professor at Princeton university and a former member of the interstate commerce commission died here early today.

BOY SCOUT REPORT SET MONDAY NIGHT

Persons Interested in Movement Meet at Chamber of Commerce Rooms

When those who are interested in Boy Scout work in Salem meet Monday evening at the Chamber of Commerce, reports will show whether Salem is to line up with other cities in the state and maintain its Boy Scout organization.

According to C. F. Gleese, president of Cascade council, Boy Scouts of America, committees will work Monday to secure funds to maintain Boy Scout work and an executive in Salem.

In order that the amount necessary should not all be secured in Salem, Corvallis and McMinnville were asked sometime ago to raise a certain proportion of funds necessary. These two cities have already secured their quota and now the whole program rests with Salem.

As several women are deeply interested in Boy Scouts, it is probable that one or two special districts will be solicited for funds by women.

Astoria, Eugene and other cities in the state are maintaining Boy Scout executives, and now Salem has a chance to combine with Corvallis and McMinnville, declared Mr. Gleese.

"If the reports Monday evening of those who solicited for funds are not satisfactory, it will indicate that Salem is willing to take back step in the state in this all important work for boys."

STUDENTS LAND PLACES YMCA GRADUATES IN RESPONSIBLE POSITIONS

Three graduates from the YMCA course at Willamette university last spring are now taking their part in the work of the association in different parts of the country, according to C. A. Kells, YMCA secretary.

These are Paul Sherwood, now on the job as association secretary of Los Angeles county, Cal.; Lloyd Waltz, engaged in high school boys' work at Spokane, beginning September 1 and Joe Nee, activities secretary for the Portland YMCA since July.

GROWERS FACING LOSSES PRUNE BROWN ROT REPORTED IN WESTERN OREGON

O. A. C. EXPERIMENT STATION, Corvallis, Aug. 29.—Severe losses from prune brown rot are indicated in western Oregon this year in numerous observations by extension horticulturists. Growers who spray for it immediately will probably net a large profit, on the costs of application. While infection cannot be entirely prevented it can be materially reduced by thoroughly covering the fruit with spray.

water, or Oregon cold mix 8-4-50, or other sulfur-containing sprays not likely to burn, as does lime-sulfur, is recommended by the experiment station pathologists.

The correct method of making bordeaux and Oregon cold mix are described in station bulletin 201. Proper preparation and thorough covering are essential to success.

SCHOOL MEN SUGGESTED EASTERN EDUCATOR MAY BE CALLED TO UNIVERSITY

PORTLAND, Ore., Aug. 29.—(By Associated Press.)—An eastern man probably will be the next head of the University of Oregon, says a new story which will appear in the Morning Oregonian tomorrow. Acceptance or non-acceptance will play no part in the selection of the successor to the late President L. Campbell, the article continued and the list of men under consideration has been narrowed to a very few.

LIBERALS ARE ATTACKED PROMINENT MEN ARE HELD BY NICARAGUAN FORCES

MANAGUA, Nicaragua, Aug. 29.—(By Associated Press.)—As a protest against the inclusion of liberals in the new cabinet of President Solorzano, 100 armed men, said to represent the conservative republican party, raided a reception last night, and made prisoner several prominent liberals, including Dr. Roman Y. Reyes, minister of finance in the new cabinet, announced yesterday by the president. The American minister, Charles E. Eberhardt, was a guest at the reception.

The prisoners were taken to the fortress of La Loma, which is under the command of General Alfred Rivas, governor of Managua, who is in control of all military forces in the capital and all communications.

Today parleys were held between President Solorzano and leaders of the opposition movement, after which it was stated that the president has matters well in hand, but that there will be changes in his cabinet. There has been no bloodshed.

The UNIVERSITY of OREGON contains:

The College of Literature, Science and the Arts with 22 departments. The professional schools of Architecture and Allied Arts—Business Administration—Education—Graduate Study—Journalism—Law—Medicine—Music—Physical Education—Sociology—Extension.
