September 3, 1925 SAFETY WHILE ASLEEP:-I will both lay me down in peace and sleep: for thou, Lord, only makest me dwell in safety. Psalm 4:

SALEM IS GROWING AND WILL GROW FASTER AS A PAYROLL CITY

"It took Salem a good while to begin to get her gait as a the canneries of the Salem district for the present year will with the state penalties for the same offense. be around a million cases. In other lines of manufacturing turing city of outstanding importance, as cities of her size on this coast go-

And her more than \$10,000,000 annual payroll for a city of 23,000, and with her suburbs making up a metropolitan community of something more than 25,000, gives a better showing, according to good authority, than is to the credit of any other city of the size in all the Pacific Northwest.

Marion county uses about a third of all the cans used in the Pacific Northwest in making up the total fruit and vegetable pack.

Salem has the largest paper mill west of the Rockies for the making of the finer grades of paper; and this mill is constantly growing; growing in quantity and average quality of

Salem has some of the largest fruit canneries in the whole country, like that of the Hunt Bros. Packing company and the Oregon Packing company.

Salem had and will have again the largest loganberry juice operations in the world.

Salem has the only fine fiber flax industry in the United States, turning out fiber of the highest grades for the worlds' markets. The first plant to spin these fibers is just starting; erected by the Miles Linen company, a home concern. This factory is to make twines from the yarns, and eventually will weave various linen fabrics. A second linen mill, to be erected by the Oregon Linens Incorporated, is being organized now.

In due course, we will be selling \$100,000,000 annually of flax products, and employing directly and indirectly in this industry a million people. This development, which the writer believes is as certain as the rising and setting of the sun, will justify a city here of many more than 100,000 people.

There is being built now the factory of the Western Paper Converting company, to make boxes and envelopes and a great number of specialties from the paper of our paper mill, and from its by-products. This plant will no doubt eventually employ several hundred people.

There is pretty sure to be built soon in Salem a beet sugar factory; perhaps two of them.

We have a prospect of securing here a potato starch and fred West, Astoria carpenter, fired

dextrine and flour factory. All these things will bring many more factories. There Sunday, after having discovered

will be a cumulative industrial growth. Salem now goes to the ends of the earth with her prod- cording to a statement made today they have found he made threats

ucts, bringing in new wealth year after year, and capable of by the sheriff's and fire depart- that he would render her pennibeing continued and increased throughout all the ages of the There is "white coal" enough available to fill all the Wil- BILLY'S UNCLE

lamette valley with the hum of industry; a power that may be used and used and that will never wear out, as long as the laws of nature permit the mists to arise from the ocean and to fall in the form of snow and rain to keep the rivers running down the mountain sides.

Salem will be a big city, and it will be an industrial city, so prepared for by the decrees of nature. And thus it will be a prosperous city surrounded by a thrifty rural population-

And it will be a Gibraltar prosperity, in the land of diversity, in the country of opportunity, where there is seed time and harvest in all the twelve months of every year; something to do and something to sell every day of the 312 or the 365.

There is no such diversity in any other district in the world; no other district in which there are so many exclusive opportunities, in crops the cultivation of which amount to a franchise.

So what we have done so far and what we are doing now furnish only a glimpse of what our children and children's children will do, by merely "carrying on" and enlarging the lines of endeavor that the pioneers and the people of the present generation have demonstrated are feasible.

Most of the people of our district will be surprised to know that England last year took about half the canned oganberries of the United States-which means of Oregon and Washington. That her 40,000,000 people took about 200,000 cases, leaving only about the same number for our ore than 100,000,000 people. That is a hint of what may be done with this wonder berry which was originated in the Salem district as a commercial product. With the right kind of organization, a much larger acreage of loganherries than we have so far had in our calculations could be marketed in various forms, including the juice, and at such prices as and stabilize the industry. Why not? Where is the man of vision and organizing ability needed for the job-one willing to put in with the growers and work for small pay up to the point of absolute success?

THE EXPECTED

A great many persons from California are arriving in Oregon looking for farms in the Willamette valley, reports the state chamber of commerce.

This condition must be "wormwood and gall" to the California booster whose chief pastime is lambasting Oregon generally. Why Californians do not move up enmasse into Oregon's perpetually green fields to enjoy her welcome showers, share her mammoth crops and splendid progress, passeth understanding.

CITY SHOULD RAISE MINIMUM

Saturday evening one Vincent McMahan was arrested and jailed, charged with driving a motor vehicle while intox icated. He had run the car he was driving into another car injuring the latter. At midnight he was liberated under bail.

When the hour set for his hearing arrived he was still at liberty. He was simply permitted to do what amounted to obtaining immunity from imprisonment, fine and forfeiture of his drivers' license, with his bail money. The city law contemplated jail and license forfeiture for him and fine. There are others convicted for the same offense who are in jail, after paying fines and forfeiting their licenses. This is not

The recorder's court has shown increased determination payroll city, but she is going fine now, with every prospect to impose heavier penalties than formerly in enforcing the of constantly greater growth. The canneries of Salem in law although the penalties have been far below the maxi-1911 put up about 30,000 cases of fruit and vegetables, and mum provided by city ordinance. And these city penalties for we thought we were doing very well then-but the pack of driving while intoxicated are ridiculously low in comparison

The minimum penalty upon conviction for this offense there has been great growth in the same period, and it is not is 5 days in jail, \$50 fine and 90 days revocation of drivers' too much to say that Salem has already become a manufac- license under city ordinance. The minimum under the state law is 60 days in jail, \$100 fine and one year revocation of

That there should be these differences between the penalties prescribed by this city and the state is ridiculous. These provisions reversed would be more reasonable than now for 33 1/2 c. surely the danger to life and property is far greater on the crowded city streets than on the outside highways of the futures: Wheat, hard white, blue state. The state law has the unanimous approval of sober drivers and is none too severe. And so long as officials refuse to impose the maximum penalties and the guilty are white, September, October \$1.48; allowed bail in sums which represent less than the total min- hard winter, September, October imum legal punishment, there is need of increasing the penalty by ordinance.

IN OTHER DAYS

(Portland Journal of yesterday.)

There is reminder of two fine old pioneer families in the burial at tober \$28. liverton this afternoon of Miss Fielda McClaine, 32.

Back in the old days, Coolidge and McClaine was a household word tember, October \$32: No. 2, 44in Marion county. Members of the firm were leading business men of pound, September, October \$31. Silverton who had the confidence of the people far and near. They Corn, No. 2, eastern yellow were public-spirited and Silverton's substantiality and growth was shipment, September \$42.50. widely expressed in their endeavors and enterprises.

A beautiful park, one of the most picturesque in any city in Oregon, was the gift of the firm to the city, and it will stand as an example of their interest in the home town as long as time will last. Members of both families, after all these years, still live in Silver- @ 19; do eastern Oregon, nomiton. Miss Fielda McClaine, who was laid away in the Silverton cemes nal; alfalfa \$18.50 @ 19; clover

tery this afternoon, was a highly esteemed member of one of these 317; oat hay \$15@16; oat and families. Patient and smiling always through several years of suffering from an incurable ailment, she was an example of true womanhood and a worth representative of the old pioneer stock of Oregon.

HOUSE BURNER IS HELD West in regard to the deed. HOME SAID FIRED TO FORCE WIFE'S RETURN

ASTORIA, Ore., Sept. 2 .- Driven by an infatuation for his former wife, by whom he was divorced almost two years ago, and determined to reduce her to penury, Ala house belonging to her, here last tat te insurance on te structure that the insurance on the structure versations with West and his wife

West told how he had arranged

wood paper and kindling in the house and after piling them in a woodlift had lighted three carpenters' candles he had fixed together and placed them on the debris. The flames did not reach the debris. The flames did not reach the debris until about 8 hours after West had left the house. Fortunately the fire burned slowly and was extinguished after about \$500 damage had been done.

Officers assert that from conment offices, who declare that less and force her to return to they have a full confession from him.
