Indeed yes, cleanliness in gasoline has everything to do with the value or miles you get in exchange for your motor-fuel money. Why? Consider these facts. The gasoline cleanliness that really insures "more miles to the gallon" is unseen. You feel it in your motor. For it results in instant ignition at the spark, and complete "burning" or explosion, with no wasted or unconsumed fuel. Your engine gets every ounce of power contained in each "charge." Associated Gasoline is distilled by methods that provide a scientifically correct range or "chain" of boiling points, gradually rising from the lower or more "volatile" parts on up through the heavier or power-yielding parts. Associated is thorough-bred, unmixed, honest, dependable. It does a clean, thorough job in a snappy, business-like manner. Use Associated. Get "more miles to the gallon" through sustained quality.

Associated Gasoline

MOTORMATES Associated Gasoline and Cyclo Motor Oil, through sustained quality, provide economy and protection in motor operation.
