NURSES RECEIVE PIANO

OTHER ARTICLES OF FURNITURE SENT TO HOME

The nurses' home at the Salem hospital has had several pieces of furniture and a new piano given to it during the summer. This latter gives a great deal of pleasure to students in the school of nursing and adds to the already beautiful home, which is situated about one-half block away from the hospital building and contains large, light and airy bedrooms, bath, shower bath and a laundry equipped with stationary tubs, electric iron and pressing boards. Here the students in their time off duty may rinse out finery so dear to the heart of every girl, and entirely too precious to be entrusted to the care of even Salem's efficient general handmaids.

Pretty little party frocks also frequently find their way down there and return crisp and fit to adorn their charming wearers. This is especially so at this time of the year when vacations are over and lectures and class work have not as yet laid its more serious claim upon student nurses' time.

TRANSIENT LIKES CITY

ABSENCE OF ROCK PILE IS SOURCE OF JOY

"Have you got a rock pile yet, or a road work crew for your jailbirds in this town?" was the first inquiry yesterday of one John Burke, brought to police headquarters on a charge of drunkenness and possession of liquor. "Good!" he exclaimed, upon being informed in the negative by acting desk sergeant Louis Olson, "this city won't get any of my money."

Burke was arrested on a downtown street by Traffic Officer Edwards. In his possession was found a bottle of denatured alcohol and a second bottle containing a mixture of soda pop and alcohol. He had \$18 with him, but he made it plain to the desk sergeant that as long as he would not be required to work during his incarceration in the city jail he would "lay out" any fine that might be imposed upon him.

He will be given a hearing before Police Judge Poulsen today.

DEMONSTRATE POISONS

PEST ERADICATION METHODS OFFERED WEDNESDAY

Methods and results in the use of clover and strychnine as a sopher poisoning bait will be

shown at the F. J. Woski ranch four and a half miles north of West Salem on the Wallace road, Wednesday.

That trapping these pests over large areas is an out of date method is becoming realized more every day. Following a number of these demonstrations in Marion county during the last two years, progressive ranchers using the advocated methods have reduced sopher damage on their ranches to practically nothing.

This demonstration will be conducted by a representative of the U. S. biological survey and has been arranged through the efforts of the Brush College community.

DOLLY QUARTIER HELD

"QUEEN OF BOOTLEGGERS" IS CHARGED WITH ARSON

ASTORIA, Ore., Sept. 14.—Mr. and Mrs. Arthur Zielke are charged with arson in complaints filed today in the local justice court in connection with an Astor street rooming house fire here last Friday morning.

The two are in custody in lieu of \$2,500 each as is Jo Armstrong, a waitress, who is being held as a material witness and whose bail has been fixed at \$400. Local authorities state that Mrs. Zielke, who is also known here as Jean Riley, is Dolly Quartier, one time billed as "Queen" of the Portland bootleggers.

The fire, which the Zielkes are alleged to have set, did little damage, an early alarm having been given by a passerby.

FORD BLIMP SUGGESTED

PLANS FOR DIRIGIBLE ARE PRESENTED TO WILBUR

WASHINGTON, Sept. 14.—(By Associated Press.)—A suggestion by Henry Ford that the navy department build and experiment with a rigid dirigible designed by his engineers is being given serious consideration by Secretary Wilbur. He said today, however, that he had reached no decision on the proposal.

Mr. Wilbur has asked the bureau of aeronautics to examine the plans of the airship which were submitted by Mr. Ford's engineers and representatives of the aircraft development corporation of Detroit at a conference last week.

It was proposed that the ship, which would be 150 feet long, 50 feet in diameter and with a metal gas bag, be built at the Philadelphia navy yard with the cooperation of the Ford engineers and corporation. The cost of one dirigible was placed at approximately \$300,000.

The metal bag, the engineers said, would greatly reduce the tendency of the gas content to diffuse, as compared with the composition covering on the Shenan-

Silverton

SILVERTON, Or., Sept. 14.—(Special.)—With Labor Day and its Four-L picnic over, which in spite of the weather was a success, Silverton is turning all of her attention to the Community Fair which will open here Thursday. Tents are already up and other preparations are being made. Silverton merchants report that they will be working both day and night this week. The first of the week, they say, will be devoted to arranging their displays in the business man's section while the latter part of the week they will use in looking at their displays. The flower show still continues to occupy an important place of interest in fair-talk.

Mr. and Mrs. C. I. Benson has as her house guests Mr. and Mrs. T. L.

Melgard, Margaret Melgard, and Lee Melgard from Thief River Falls, Minn., this week. The Melgards are touring the west with the intention of remaining. From Silverton they will go to San Francisco where they expect to make their home. Mrs. Melgard and Mrs. Benson are sisters.

Mr. and Mrs. E. Johnson of Portland were Silverton visitors during the week-end. The Johnsons formerly made Silverton their home. Mrs. Johnson is a daughter of Mr. and Mrs. Jacob Iversen of Silverton.

Mr. and Mrs. John Cannon have returned from Newport where they have been spending a few days at the home of Mr. Cannon's brother, who returned to Silverton with them. The Cannons made the trip in their new automobile.

While it was the regular meeting night for the city council Monday night, because it was Labor Day the meeting was postponed until Tuesday night.

FAMOUS "MISS GINGER" PASSES AT AGE OF 81 YEARS

NEW YORK, Sept. 14.—Alone and friendless in a dark apartment in Greenwich village, Miss Virginia Moon, 81, who as a confederate army spy slipped through the Union lines many times, died Friday, it was learned today. It was only the chance scanning of the death notice column in a New York paper by an artist of the village that led to the discovery that the little old lady known to half the southland in the Civil war days as "Miss Ginger" had passed on.
